Vinoi is not a patent medicine, but is a real cod liver preparation from which the useless, indigestible oil has been eliminated and tonic iron, a need-ful constituent for the blood, added. Vinol tones up the digestive organs, makes rich, red blood, healthy body material, and sound, steady nerves. In this way it repairs worn tissues, checks the natural decline of the aged, builds up the run down, thred and de-bilitated, and never fails to replace weakness with strength. Several officials of both roads participated, including Senator Clark and Mr. Harriman. The witness had ibad interviews with Mr. Harriman on the subject. The matter resulted in Mr. Harriman securing a holding of a one-half interest in the Clark road, and the directorate was equally divided be-tween the two interests. It was also shown that the Salt Lake did not after entering into this agreement with Mr. Harriman build a complete line between Los Angeles and Salt Lake, but con-tracted to use certain trackage of the Santa Fe between Riverside, Cal., and Daggett, Cal., and of the Southern Pa-cific between Riverside and Colton, which they are doing today. Nothing From This Fund Will be Given to State Institutions-Means Higher Standard.

New York, Feb. 7 .- Thirty-two million dollars worth of income-bearing securities was the gift which John D Rockefeller, through his son, John D Rockefeller, Jr., announced to the gen

eraj education board when it assembled for a special meeting here today. The gift, which is the largest single sum ever handed out for such purposes will be used for general education purposes throughout the country. Mr. Rockefeller had previously given the board \$11,000,000 for the same work, his contributions now amounting to The general education board appar-ently was not prepared for this gift

The general education board appar-ently was not prepared for this gift, which was announced simply in a let-ter from John D. Rockefeller, Jr., to the board, in which he said: "My father authorizes me to say that on or before April 1, 1997, he will give to the general education board in-come-bearing securifies, the present market value of which is about \$32,000,-009, one-third to be added to the perma-nent endowment of the board; two-thirds to be applied to such specific ob-jects within the cornorate purposes of the board as either he or I may from time to time direct, any remainder not so designated at the death of the sur-vivor to be added to the permanent endowment of the board." port of which was not known. John D. Rockefeller, Jr., acting for his fath-er, brought the letter. Asked if he had anything to add to his letter he replied he did not believe he could add anything of importance to it, as the letter explained itself. Members, when asked w'at the "sne-clife purposes" referred to in Mr. Rockefeller's letter meant, said that it was in the line of educational work and was intended, in their opinion, to give Mr. Rockefeller the right to di-rect the disposition of the fund to such institutions, within the province of the board, as he may deem proper. The board voted to accept the gift, and in appreciation drafted a letter to the elder Mr. Rockefeller. "This is the largest sum," wrote the board, to Mr. Rockefeller, "ever given by a man in the history of the race for any social or philanthropic purpose. The board congratulates you upon the high and wise impulse which has moved you to this deed, and desires to thank you to behalf of all educational inter-ests, whose developments will advance" in behalf of our country, whose civiliza-tion for all time it should be made to strengthen and elevate, and in behalf of mankind everywhere in whose interests it has been given and for whose use it is dedicated. The 99 years contract between the Clark line and the Union Pacific and the Oregon Short Line, with particular reference to that part where all parties were prohibited from giving any biter terms to other outside roads than those maintained with the contract parties was gone over. The witness stated that the a "reement was made on their part in order to get into southern California with their line. Here Commissioner Lane interrogated the witness at length upon the necessity of the agreement from the standpoint of the Clark road.

On June 30, 1905, through Mr. Gates, Mr. Rockefeller gave the board \$10,000,000 in securities, the principal to be held in perpetuity as a founda-tion for education, the income above expenses of administration to be dis-tributed to, or used for the benefit of such institutions of learning as the board might deem best adapted to promote a comprehensive system of higher education in the United States. From the income of the original fund of \$11,000,000 conditional subscriptions have already been made to 18 colleges, in Virginia, North Carolina, Georgia, Louisiana, Missouri, Kansas, Iowa, Wisconsin, Indiana, Ohio and Penn-sylvania, amounting to a total of \$1,-077,500.
