LYON'S KATHARON. Lyon's Katharon is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Katharon properly. d125

A few applications applied with a soft linen cloth will leave the delicate hues of refined beauty and youthful bloom. Its application cannot be detected, and it is absolutely free from all possible harm, warranted purely a vegetable extra from the flowers of Southern France. d125

UNITED ORDER RULES.—Having had frequent enquiries for copies of the "Rules that should be observed by Members of the United Order" since the first edition of the same was all sold, we have lately printed an authorized edition on fine fancy colored paper, on a sheet 12 by 20 inches, suitable for framing or mounting on a stretcher and hanging up in the houses of the Saints. They can be had at this office, or mailed to any address for 10 cents per copy.

Local and Other Matters.

THERMOMETER 87 degrees F. in the shade at 1 p. m. to-day. Partially overcast.

Hot.—The mercury has been among the nineties to-day.

Gone to Provo.—President B. Young left on a visit to Provo this afternoon.

J. A. Denton.—There is a dispatch at the Western Union Telegraph office for J. A. Denton.

Supposed Incendiarism.—The Jacob's City fire is supposed to have been the work of an incendiary.

"Bikuben."—We are in receipt of No. 2 of a Scandinavian paper published in this city, called *Bikuben*, otherwise *Beche*.

Horse Stealing.—D. M. Brown, of Fort Herriman, had a couple of horses stolen a few nights ago, and has not yet been able to find any traces of them.

A Blanket Stealer.—Yesterday afternoon William Gritton was arrested in this city, on a charge of having stolen some blankets from Mr. A. McKendricks, of Dry Canyon.

Disturbing the Peace.—About half a dozen boys were arrested this morning on a charge, preferred by a citizen of the 14th Ward of making the night of the 16th inst. hideous with the rattling of tin pans, the blowing of whistles and with shouting and other noisy demonstrations.

Dramatic Performance.—On Saturday (to-morrow) evening the Salt Lake Amateur Dramatic Company will perform at the 17th Ward School-house. "Fruits of the Wine Cup," a "Grand Old" and "Slasher and Crasher" constitute the bill.

Sunday School Excursion.—The Sunday school of the 20th Ward purpose going to Lake Side on Tuesday, the 20th inst., and by invitation of Bishop Sharp, the Sunday school of the 18th Ward will join with them. It will be free to the children and the grown people will pay \$1 each for tickets.

Pennmanship.—Mr. George E. Wallace has completed and placed in the art department of the Ladies' Territorial Centennial Fair another specimen of his handiwork in ornamental pennmanship, which is very fine. It is done with Messrs. Matthews & Co's ink, the excellent flowing quality of which makes it well adapted for the purpose.

A Nuisance.—People living in the vicinity and others passing that way complain of an every day nuisance near the White Bridge, that crosses Jordan, on the western edge of the City. There numbers of young men and boys bathe in the river, and run around the locality in a state of nudity, in a shameful manner. This practice should be stopped, and unless it does cease the city officers would do well to give their attention to it.

Vivian's Parlor Entertainment.—Mr. C. Vivian will give his parlor entertainment at the Institute this evening and another to-morrow evening, some of his songs illustrated by Lambourn & Kirkham's panorama. Mr. Harry J. Lask will preside at the pianoforte. Miss Inge Holbrook will also appear in a series of choice readings. This programme will constitute a varied and interesting entertainment.

Jacob City Destroyed by Fire.—On Friday, August 18th, about 12:30 last night a fire broke out in the rear of M. H. Lipman's business house at Jacob City, Dry Canyon, and destroyed the whole business portion of the town before the flames could be got under control. The business places destroyed were M. H. Lipman's grocery, Spangler and Kelly's grocery, Osborne's saloon, D. Reese's saloon, Isaac Quinn's store, Noble's restaurant, Selig & Simon, grocers, Mrs. Monahan's boarding house, Thompson & Sargenson, butchers, Pat. Gibbons' saloon, Wm. Bailey's saloon, and other buildings, including the Western Union Telegraph office. The loss is estimated at between \$30,000 and \$35,000. No water being in Dry Canyon the losses were entire. There is no insurance, except Lipman and Selig and Simon.

JAMES A. LEIGHMAN, County Clerk.

Returned Missionary.—To-day we received a call from Elder Mather W. Pratt, son of the late Elder Parley P. Pratt, who reached

home this morning from a mission to the Eastern States. He left this city November 1st, 1875, and has consequently been absent about ten months. He labored principally in Missouri and Illinois, under the direction of Elder David M. Stuart, and took great pleasure in being actively engaged in the ministry. He returns in good health and spirits.

Normal Institute.

MORNING, AUGUST 17TH.

The remarks of Prof. Mouch, on school government, were most excellent. He contended for that system that cultivates the moral nature of the pupil, and condemned corporal punishment as a rule although he admitted there might be instances when it would be necessary to administer it, but when done at all it should only be in a spirit of deliberation, and in a spirit of charity, and by and with the consent of the parents or guardians of the pupil.

AFTERNOON.

Prof. E. M. Bishop continued the lecture on book-keeping. He showed the method of conducting a class through the system of single-entry in an interesting manner. The importance of neatness and accuracy were strongly urged.

Prof. Hardy closed his remarks on spelling. In order to give as much instruction in the subject as time as possible, he read a number of rules, illustrating them and their exceptions.

Dr. Park spoke briefly on object lessons, advising teachers to collect cabinets of different objects with which to lecture their pupils.

The Misses Barry sang a duet.

The committee on resolutions reported the following list, which was adopted—

RESOLUTIONS.

"Resolved—1. That the thanks of the Institute are due and here with tendered to Dr. J. M. Park for the able manner in which he has presided over and conducted this assembly through this term's proceedings.

"2. That a like expression be here given to Professors Mouch, Hardy, Bishop, Hager, Lewis, Wright, Oltiger, Carless, and Rawlins, also to Misses Cook, Emma Wells and Kittie Heywood, for very excellent series of lectures delivered during the session of the Institute.

"3. That thanks are due and now tendered to the newspapers of this city and elsewhere which have published the proceedings of the Institute, and in various ways evinced an interest in its behalf.

"4. That the courtesies of the railroad companies, extended to members living in the country, are hereby acknowledged and thanks returned for the same.

"5. That a vote of thanks is tendered to Mr. James Dwyer for favors extended to and enjoyed by the members of the Institute.

"6. That thanks are hereby given to the proprietors of boarding houses who reduced their rates for the accommodation of the members of the Institute.

"7. That thanks are returned to Bishop Edward Hunter for accommodations afforded to the members through his courtesy.

"8. That the ladies and gentlemen who have assisted in making our meetings pleasant and agreeable, by singing, reading, and decoration, are also tendered to our best thanks, which are hereby given.

"9. That we, as members, have derived much benefit from this session of the Institute, and deeply appreciate the advantages to be gained from attending such meetings from year to year.

Committee—Chas. C. Shaw, B. B. Young, O. F. Whitney, Kittie Heywood, R. E. Mantle.

Dr. Park made a few excellent remarks on the importance of these meetings, and the advantages attending their regularity. He spoke of the dignity and responsibility of becoming exemptary in every respect. He ended by hoping that the members had all acquired something by attending the Institute.

The distribution of certificates of attendance next took place, after which the choir sang. Prayer was offered, and this session of the Institute adjourned.

Our Country Contemporaries.

Beaver Enterprise, Aug. 15.

In the examination of Woods for killing Maxwell, the Court held the prisoner to await the action of the grand jury, and refused to allow him bail.

R. D. Wilson, formerly of Godfrey and one Woolsey as far as Oak Creek, and arrested them for killing and horse, rifle and tent. The parties are awaiting an examination before Justice Tyler.

C. J. Swift has received his certificate of election, and is therefore county attorney.

The U. S. Marshal is guarding his prisoners in a portion of E. W. Thompson's store building.

Grapes and pears of a superior quality, from Washington county, are being sold on the streets to-day.

Stealing, we are ashamed to say, appears to be the business of a good many people in Beaver county.

Receiver J. W. Barnes has been unexpectedly called home to Nebraska. He left by this morning's stage.

Marshal Brown has returned from a trip through Washington and Kane counties on business connected with the District Court. He succeeded in serving papers on S. W. Adair, of Washington, who had long evaded the watchful marshals.

James W. Bay, of Virgin City, Kane County, dropped into our office on Monday, and gave us some news from Ohio and Utah, where he has been laboring the past year as a Mormon missionary. He says that Ohio presents a great deal of consumption among the young. The Illinois corn crop is almost an entire failure, owing to excessive rains. The people generally are more friendly disposed towards the Mormon Church than formerly.

Ogden Junction, Aug. 17—

Mr. John Horspool has been at great trouble to raise some choice pear trees, which are now bearing. Before they are half ripe some thieving rascals have cleared them off on one tree, leaving the proprietor only about half a dozen for his pains.

Work is now going on at Farr's Mills, for the erection of a new smelting house and the putting up of a patent mulling separator. The proprietors are determined to be up with the times, and to take advantage of all the modern improvements for the manufacture of first-class flour.

President F. D. Richards, who has been seriously ill with chills and fever during the past two weeks, is now, we are happy to say, gradually recovering, and we hope to see him out enjoying the fine weather again in a few days.

Thompson, Edward J. Palmer, of Plain City, was crossing the railroad track with a team. A

master J. Woolley, of the U. C., was switching four cars to the top of the second car, saw the team approaching. He immediately applied the brakes and shouted to him. Just as the cars struck the wagon, Palmer jumped and escaped unhurt; the front end of the wagon smashed to pieces, and one horse was so badly hurt that the owner shot him. No other damage occurred. The engine driver, as soon as he saw Woolley signaling to stop, reversed his engine, bringing it to a stand very quickly. No blame seems to attach in any way to the railroad men.

A GLOWING ACCOUNT OF THE BLACK HILLS COUNTRY.

N. L. Wheeler went from Sioux City to the Black Hills last April, and left Rapid City on his return July 27. From Rapid City to Fort Pierre, on the Missouri, he estimates at 140 miles, with abundance of wood, water, and grass, five days with ox teams. The *Journal* of Sioux City says, "His statements upon any matter of fact will be received without question." Here follow some of his statements—

"In reply to questions as to the condition of things in the Hills, and the indications of mineral wealth and agricultural resources, he made the most positive and enthusiastic answers we have heard, and that those there, he says, are no room for doubt. He says that men who are engaged legitimately in mining are doing the biggest kind of business. Twenty-four cases out of every twenty-five, and that there is being taken out by men who are improving their opportunities by going to the hills, half pounds of gold a day, while he believes that the average will reach \$100 a day to the man. In this connection he desired it to be understood that he confines this average to those who are honestly and sensibly attending to their business. Those who are there, he says, who are not making a cent, being of that kind who if they were put down in the New Jerusalem would not be regarded as citizens, simply because they wouldn't be snap enough to pry up a slab from a golden street, or knock a chunk from the top of a mountain. He says that the rich discoveries are being made every day, and those already made are continually improving. The diggings are of the best quality, and better than those of Colorado after they had been opened two years, while the quartz deposits are more numerous and better laden than those of any section he has ever examined. The water supply, instead of failing the miners, as had been predicted, is rather more than necessary in their present appliances for using it, for the rainfall will average greater than that of this section.

"The Black Hills district, ninety miles across, is covered with a magnificent growth of pine timber so thick wherever he has been that it was impossible to drive a team in it without first making a road; and among this there grows a peculiar kind of oak, the sap of which is very thick, making the whole tract available for the most exacting uses—axes, boat-work, or anything requiring tough and durable material. The grass of the whole region is most nutritious, stock fattening in it in an incredibly short time, and the supply is unlimited, while wild clover is a very common and profuse production. Agriculture is not only profitable, enterprises of that character being already paying excellent returns, but the country is having now under cultivation garden tract of thirty acres, which is doing splendidly. In fact, there being neither grasshoppers nor other pests to interfere. Wild fruit of all kinds grows luxuriantly, among which he saw quantities of strawberries as large as tame specimens we get here, plums of choicest varieties, huckleberries in abundance, and several other sorts."

—These people who are not satisfied with this climate, but want a real nice climate, should not go to India. Macaulay wrote from Calcutta in 1837, "We are annually baked four months, boiled four more, and allowed four more to get cool if we can. At this moment the earth, soaked with oceans of rain, is steaming like a wet blanket. Vegetation is rotting all around us. Insects and undertakers are the only living creatures that seem to enjoy the climate." In May, 1838, he wrote, "One execrable effect the climate produces: It destroys all the works of man, with scarcely an exception. Steel razors, razors their edge, thread decays, clothes fall to pieces, books moulder away and drop out of their bindings, plaster cracks, timber rots, matting is in shreds. The sun and steam of this vast alluvial tract, and the infinite army of white ants, make such havoc with buildings that a house requires complete repairing every three years."

SEC. 9.—All ordinances and parts of ordinances relating to the sale of spirituous or fermented liquors, in conflict herewith, are hereby repealed: Provided, the repeal of such ordinances shall not affect any rights accrued or liabilities for fines and penalties incurred; but all such rights and liabilities shall be maintained and enforced the same as if said ordinances and parts of ordinances had remained in full force.
