MINING, BUSINESS AND STOCKS.

STOCKS WENT DOWN AGAIN

Lower Mammoth and Star Con. Among Them.

WABASH SOME STRONGER.

On the Strength of Humors From Park City—This Forenoon's Quotations and Sales.

The sales made on the stock exchange this forenoon did not come up to those of the early calls of the two previous days. A total of 41,515 shares were transferred, which brought the sum of $24,488.15.

Some of the traders took to the toboggan again. Among them were Lower Mammoth and Star Con., which have participated quite freely in the transactions of the pit lately. The former was not wanted in large quantities today. It sold down to $1.56, buyer 60; but stiffened up a little, closing with $1.62½ bid. Star Con. was active, but at prices under those prevailing yesterday. In anticipation of an "Irish dividend," New York Bonanza came down a few points; but on the strength of rumors from Park City that developments at the Wabash mine are getting interesting, that stock made a visible advance. May Day was slightly stronger than yesterday afternoon. This was the regular call day for the industrial stocks and 265 shares of Utah Sugar, preferred, went at 39.93 per share.

The closing quotations and sales posted were as follows:

CROSSING THE DEATH VALLEY

Don Maguire Writes of a Trip to This Dreary Land.

EMIGRANTS WHO WERE LOST

Recalls Fateful Trips Undertaken Years Ago—Relics Found Belonging to Those Who Perished.

Don Maguire of Ogden, the widely known mining engineer and metallurgist, not long since contributed an interesting article to Mines and Minerals, in which he portrayed some of the stranger things to be seen in the famous Death valley of California.

He has supplemented this with another article, which is of equal interest and in which he tells of the difficulties encountered in "Crossing Death Valley." He says:

"Our route lay directly across the sterily desert, and before us ran wagon tracks that were made the year before by miners and adventurers who came to the silver mines of Panamint from Pioche, Belmont ,and Eureka, Nev. Old Tex, our guide, said that previous to the late Panamint excitement, one could see on that desert waste the tracks of the wagons owned by the early emigrants, of which a number perished for want of water in the years 1849-50. When about seven miles out on the desert we came across the bones of three oxen, cracked, worn, and weather-beaten, and a little further three spokes, yet near it, and a little further away, lay the tire of this wheel but little rusted, although it hal lain there almost 25 years. Yet a little further on, we picked up, near the road, the sole of an old boot; it was curled and distorted into a queer shape; and the heel was sloping to the sole, and the wooden pegs had so shrunken in the leather of the soles that upon taking up the relic, they fell out. Still farther on, we found a broken china tobacco pipe, a few porcelain buttons, and four flat old-fashioned buttons. As we found these relics of former travel over the dreary and forbidding waste, old Tex said that they were part of the remains of the party who in the year 1849 or 1850 started to cross this desert without a guide. They had separated from a larger party, who had taken a course south from Las Vegas, in what is known as the state of Nevada, and who, in going from the Vegas to the south of the next one, had taken an old established route across the desert; but our unfortunate few believed that they could take a more direct route across the desert and over the Panamint range of mountains. In taking this new route, the emigrants found it easy for a time, but after passing Ash Meadows their troubles began. Their descent from the Funeral Range into Death Valley was difficult, compelling them to abandon much of their property, and when upon the unknown desert they were without water, night was upon them and the days that followed saw the destruction of most of their number; for, in taking their way across the desert, the party became crazed with thirst and wandered in various directions, becoming delirious, many of them stripped themselves of all clothing and, like wild beasts, began to burrow in the hard desert sands with their bare hands. Two men named Towne and Walt along with Mrs. Towne and nine other persons escaped by reaching the Panamint mountains and finding a spring. The remaining 18 persons, men women and children, who composed the party left their bones in the desert; and one of the surviving 12 persons, named Bennett, gave the name of Death Valley to the dreary sinks of the Amargosa, on which he had so suffered and his comrades had perished in the terrible old days of overland travel in '49.

"It would seem that the man Bennett, one of those who escaped, was the prime spirit in advising the Death Valley route instead of the route further east, and by the way of the sinks of the Mojave; and, after the disaster to his party, he showed to his friends in upper California a specimen of native silver, which he claimed to have broken from a five foot ledge or vein, and which was but a day's journey west of Death Valley. He claimed to have found this vein near a spring, at which he was slacking his awful thirst. He carried the specimen with him and later on converted part of it into a foresight for a rifle. An assayer of Butte county, Cal., examining the sight made from the mineral specimen and also a part of the specimen from which it was formed, found that it was native silver. The statement of Bennett, whether true or false, created an excitement at once in Butte county, Cal., and a party was formed to return to the desert to rediscover what has since been known to fame as the Gun Sight lode; but that lode was never found, and to this day, the hope of discovering the Gun Sight lode prompts many a poor prospector to vainly search for that celebrated bonanza."

METAL MARKET CONDITIONS.

Philippine and Indian Purchases Have Aided Silver.

The Engineering and Mining Journal sums up market conditions found at the close of last week in the following manner:

Silver continues rather strong on the surface. The speculative interest in London has acted on the probability of short supplies of future metal—a conclusion which seems hardly warranted by facts. However, this interest has succeeded in squeezing the bears in the metal and in maintaining the price at rather a high level. They were aided during the past week by the fact that large purchases were made in London by brokers who are commonly understood to act for the India council, and it is generally believed that considerable purchases are being made for Indian coinage. Our own treasury department made the usual purchase this week, 320,000 ounces, for Philippine coinage, the average price paid being 54½ cents, delivered at the mint.

Copper shows somewhat more strength, although the market continues rather quiet, and sales have not been large. Sellers are inclined to be firm in view of the strength of the position and are not pressing metal forward. In fact, as we noted last week, there is very little spot copper for sale and most of the producers have their output contracted for up to the end of June. The London market is much firmer, and there has been a sharp rise in standard copper; at the same time it must be remembered that conditions in Europe are still somewhat uncertain, but the consumers are beginning to realize that they will probably have to pay a higher price for what metal they need.

RETURNED FROM JOHNNY MINE

Officials of Company Well Satisfied With Conditions.

TEN STAMPS TO BE ADDED

To the Battery at the New Mill—Director Halloran Says Late Strike Is Important.

The party of Johnny officials who have been inspecting that Stateline property during the past few days returned home this morning. They came back very well satisfied with conditions at that property and thoroughly convinced that the strike made while sinking the new working shaft a couple of weeks ago will prove to be decidedly important and will mean much for the future of the mine.

J. F. Halloran, a director of the company, who was one of the number to participate in the pilgrimage to the south, said this morning that the vein has not been opened to a sufficient extent, as yet, to determine its real worth, but enough is known to leave no shadow of doubt but that the new find marks the beginning of an important era in the history of the mine. The width of the vein, Mr. Halloran says, averages about three and a half feet and contains some very high values, but just what they are, he would not release.

PLACED IN COMMISSION.

The mill recently is doing some nice work, making a saving of 95 per cent of the values in the ore run through it. The plant is treating about 33 tons daily, that being the average for last week. The directors have decided to add 10 additional stamps, and an order will be placed for them very soon.

The company has a force of 36 men employed in the mine and mill, and it is the intention to put on 12 additional miners just as soon as they can be secured.

Those who returned from camp with Mr. Halloran were Frank Wilson, F. T. Clifton and Henry Newell.

UTAH MINE ORES.

Dividend Not Probable This Month Says President Crismon.

The management of the Utah Mine of Fish Springs sold a carload of ore today; the controls showing values of 43 per cent lead and 90 ounces silver. Rumors have been afloat that the directors would meet soon and declare dividend. In reply to an inquiry on this point this forenoon, President George Crismon stated that such a thing is hardly probable during the present month.

SOME $14,000 ORE.

Rich Product Being Sacked at Lower Mammoth Mine.

The Lower Mammoth mine of Tintic is in the market today with two carloads of first class ores, the first taken from the vein recently encountered. Settlements were made on the controls showing values of 91 ounces silver and two ounces gold.

Manager Chipman confirmed the statement that some extremely high grade ore had been found in the mine and said that the product is being sacked. It will run, he says, about $14,000 to the ton. He does not anticipate that ore of such value will hold out, which is the history of similar strikes made in the camp. He is unable to say, as yet, how extensive the deposit really is.

A $3,000 NUGGET.

Oregon Mining Man Brings It to Salt Lake with Him.

John R. Peters, an Oregon mining operator, arrived in the city today and is at the Cullen. He has with him a $3,000 gold nugget, which came from the placers on John Day creek.

AT FERRIS-HAGGERTY.

More Men Furnished with Employment at This Mine.

Special Correspondence.

Battle Lake, Wyo., May 18.—Not less than 25 new men have been added to the force at work in the Ferris-Haggarty copper mine during the past week. The workings are now in such shape that large quantities of ore can be mined without crowding. The late work has uncovered richer ore and larger quantities of it than at any previous period in the history of the mine. The ore now blocked out will give steady employment to 200 men for three years, and it is said the value of the ore now in sight is not less than $3,000,000. It is expected that the tramway buckets will begun to carry the ore to the smelter at Grand Encampment in a few weeks.

The Gold Fissure.

George W. Snow, the Salt Lake mining engineer, yesterday completed his work on the Gold Fissure group, lying between the B. W. & H. and Reed Creek. The group comprises 18 lode claims and practically covers the entire mineral belt between the above named points. A line on the strike of the vein to southwest was run from the mouth of B. W. & H. tunnel No. 3, and which indicated that the B. W. & H. veins go through the Gold Fissure group, in which there also converge the Ripe Eagle belt, a heavy iron dyke and numerous veins and dykes that promise to make the Gold Fissure one of the famous localities of the state.—Free Lance.

Pump for Grand Encampment.

Special Correspondence.

Grand Encampment, Wyo., May 18.—Plenty of ore and too much water have induced the owners of the Gibraltar mine to purchase a steam plant, which will be installed as soon as it arrives. The ore is rich in covelite, there being 18 inches of this ore in the vein matter.

MINING CONCENTRATES.

Two cars of concentrates are being loaded at the Columbia mine at Bingham today.

Councilman A. J. Davis has returned from a trip to California where he has been on mining business.

George H. Robinson departed last night for British Columbia.

A car load of Horn Silver ores is at the samplers today. Tonopah is represented in the market by a car load.

The late assessment on Martha Washington stock became delinquent yesterday.

Herman W. Horne, M. E., is in Eureka where he expects to remain for several days on professional business.

T. L. Huddleston, superintendent of the Galena King of Stockton, is in the city. The mine has been shut down until the Honorine tunnel is extended to a point where it will drain the property.

Layfayette Holbrook is up from Provo today.

The Taylor and Brunton sampler receipted for nine cars of ore today: six from Tintic, one from Nevada, one from Frisco and one from Park valley.

A car of concentrates from the Century mine of Park valley is in today's market.

President Treweek of the Wabash mine is at that property. There is another rumor afloat on the streets today that some interesting developments are taking place there.

M. R. Hunt expects to leave for the Utah Queen mine in Dry canyon in a few days.

The ore and bullion settlements reported late yesterday were: Ores, $64.-100; base bullion, $31,200. Total, $95,300.

The articles of incorporation of the Lawrence Con. Mining company, have been filed in Idaho.

The annual stockholders' meeting of the Sheeprock Mining company, is scheduled for tomorrow.

Manager Bothwell, of the Sacramento mine o fMercur, announces that the installation of the torts with which to handle the mercurial ores of the mine will be completed today.

W. B. Mucklow, president, and Charles Merlman, assistant secretary of the Majestic Copper company, will leave the east for Salt Lake in a few days.

L. A. Amsden, manager of the Yankee Con., mine of Tintic, who sustained injuries down noasc8,sfie3-ga-sJwate-pol, juries on Monday by falling down a 20-foot winze, is at his post of duty again.

The Park City Miner intimates that the old Marsac mill may be converted into a zinc plant, provided that an arrangement can be made with Supt. Rood.

The new company organized by Samuel Newhouse in New York recently is known as the Newhouse Mines & Smelter company.

The New York Bonanza company is preparing to levy a two-cent assessment.

Herman Hill expects to take his departure for Germany, his native country, for some time in June.

Manager C. L. Rood returned last night from Park City. He reports that the new shaft at the Naildriver mine had cut the vein at 105 feet depth.

OHIO CENTENNIAL CELEBRATION BEGUN.

Chillicothe, O., May 20.—The centennial of Ohio's statehood was celebrated here today and will continue tomorrow with all the ceremony made possible by the inhabitants of this "ancient metropolis."

The two days' program consists of addresses on historical topics to be delivered in a great tent in the city park, a civic parade and a display of fireworks on Thursday night. The decorations are of the most tasteful description. At 9 a. m. today the first public act of the celebration took place in the common pleas courtroom, where a plaster medallion of Edward Tiffin, Ohio's first governor, was presented to the county.

Following came the set program for the day, Gov. Nash presiding. Mayor Yaple made the address of welcome, and Gen. J. W. Keifer responded for the Historical society. Then followed historical addresses by Hon. Judson Harmon of Cincinnati, Prof. Martin B. Andrews of Marietta, Judge Rush Sloane of Sandusky, Judge M. M. Granger, formerly of the Ohio supreme court; Gen. Thomas M. Anderson, Murat Halstead, former Gov. James E. Campbell of New York, Senator Foraker and Gen. Charles H. Grosvenor.

Discuss Chamberlain's Speech.

Quebec, May 20.—Canadians of every class are discussing Joseph Chamberlain's recent speech at Birmingham in favor of trade reciprocity within the British empire. The preferential trade idea is generally popular, but the prejudice against Canada further associating herself with Great Britain in her foreign wars is very strong in French Canada.

The cabinet ministers at Ottawa will not discuss the speech.

The members and supporters of the government affect to believe that this threat of the Canadian administration has had much to do with Mr. Chamberlain's recent utterances.

Sir Wilfrid Laurier's personal newspaper, the Canada, makes a positive statement to the effect. Premier Parent of Quebec and William Price, president of the Quebec board of trade strongly approve the preferential trade principle and Mr. Price also believes in colonial contributions to the British army and navy.

Zeigler Expedition Scientists.

New York, May 20.—Names of scientists and others who are to accompany the Zeigler expedition to the North Pole have been made public. Anthony Fiola, who is to be in charge of the expedition, sailed for Trondheim, Norway, early in the month. Those who are to follow May 27 are: R. R. Tafel, Philadelphia; Charles L. Seitz, Evansville, Ind.; William J. Peters of the National Geographical society, who will be second in command; Francis Long of the weather bureau ,who will be the meteorologist; Dr. W. G. Choreley of Camden, Me., and Mrs. Choreley, who will accompany her husband as far as Trondheim; J. Vaughn of Forest Hill, N. J.; John Vedoe, Boston; S. W. Stewart, Brooklyn, and H. H. Newcomb, Milford, Mass.

LIQUIDATION ON A LARGE SCALE

Eastern Railroads Inclined to Go Up; Western, Down.

OPERATION ON HARRIMAN

Had a Momentary Depressing Effect On Market—Engagement of Gold For Export Added to It.

New York, May 20.—Opening price changes were small and mixed, but there was a fair volume of business. In a general way eastern railroad stocks were inclined to advance and those of western railroads to decline. Further engagements of gold for shipment tomorrow and the news of a surgical operation upon E. H. Harriman had a momentary depressing effect on the market and New York Central, Rock Island, St. Paul, Atchison and Southern Pacific receded sharp fractions. Buying orders came in at the lower level and prices recovered rather easily in spots. Pressure was severe against Atchison and rumors were revived of a bond issue by the company. Its loss of 1¾ carried other leading stocks with it to the extent of 1@1¾. St. Paul, the Pacifics and Grangers generally were conspicuous sufferers and many low prices for the present movement were recorded. Efforts to market dormant stocks resulted in wide price concessions. For 100 shares of Michigan Central 102 was the best bid obtainable, compared with 130 on March 19. Otherwise declines were in Minneapolis, St. Paul & Sault Ste Marie, 3½, the preferred 6, Lake Erie & Western preferred and Twin City Rapids 3, Missouri, Kansas & Texas preferred and American District Telegraph 2½, Sloss-Sheffield 2½ and General Electric 2¼. United Fruit rose 2¼. It was only with the spending of the force of the selling movement that the decline halted and there was no rally.

Bonds were heavy.

Liquidation was resumed on a large scale after the midday pause and prices were depressed considerably lower than in the forenoon. Atchison, St. Paul, Reading, Pennsylvania and the Pacifics bore the brunt of the selling, but large amounts of other leading stocks were also let go. Kansas & Texas lost 2¾ in all, Atchison 2⅝ and St. Paul and Southern Pacific 2 points.

LIVE STOCK.

CHICAGO.

Chicago, May 20.—Cattle—Receipts, 18,000. Slow. Good to prime steers, 5.00@5.25; poor to medium, 4.00@4.80; stockers and feeders, 3.00@4.75; cows, 1.60@4.50; heifers, 2.50@4.25; canners, 1.60@2.75; bulls, 2.50@4.25; calves, 2.50@6.35; Texas fed steers, 4.00@4.75.

Hogs—Receipts, today, 35,000; tomorrow, 25,000; left over, 6,700. Slow; 10@15c lower. Mixed and butchers, 6.20@6.40; good to choice heavy, 6.50@6.70; rough heavy, 6.25@6.45; light, 6.00@6.25; bulk of sales, 6.35@6.55.

Sheep—Receipts, 8,000. Sheep and lambs steady. Good to choice wethers, 4.75@5.50; fair to choice mixed, 3.75@4.75; western sheep, 4.60@5.50; native lambs, 4.50@7.00; western lambs, 4.50@7.00.

KANSAS CITY.

Kansas City, May 20.—Cattle—Receipts, 5,000, including 400 Texans. Steady to weak. Native steers, 3.50@5.20; Texas and Indian steers, 3.35@5.40; Texas cows, 2.00@3.75; native cows and heifers, 2.25@4.25; stockers and feeders, 3.00@4.90; bulls, 2.50@4.40; calves, 3.00@6.75; western steers, 2.85@5.00; western cows, 2.00@3.65.

Hogs—Receipts, 14,000. Market weak to 5c lower. Bulk of sales, 6.20@6.30; heavy, 6.30@6.47½; packers, 6.15@6.30 medium, 6.20@6.37½; light, 6.00@6.20; yorkers, 6.30@6.35; pigs, 4.50@6.00.

Sheep—Receipts, 3,000. Market strong. Muttons, 3.70@5.80; lambs, 4.75@7.60, range wethers, 3.80@5.90; ewes, 3.55@5.40.

OMAHA.

South Omaha, May 20.—Cattle—Receipts, 4,000. Market dull, 10c lower. Native steers, 4.25@5.10; cows and heifers, 3.25@4.25; canners, 1.75@3.00; stockers and feeders, 3.00@4.85; calves, 3.00@4.50.

Hogs—Receipts, 8,000. Market 5c lower. Heavy, 6.35@6.37½; mixed, 6.25@6.20; light, 6.20@6.30; pigs, 3.00@6.00; bulk of sales, 6.25@6.30.

Sheep—Receipts, 22,000. Market steady. Fed muttons, 5.00@5.75; westerns, 4.50@5.25; ewes, 3.50@4.60; common and stockers, 2.25@4.00; lambs, 6.00@7.25.

DENVER.

Denver, May 20.—Cattle—Receipts, 500. Firm. Beef steers, 4.00@5.00; stockers and feeders, freight paid to the river, 3.00@4.35; bulls, stags, etc., 1.50@3.50.

Hogs—Receipts, none. Dull.

No sheep.

NEW YORK PRODUCE.

New York, May 20.—Wheat—Receipts, 48,500 bushels. Advanced this morning by an increased trade, covering of shorts and higher cables. May, 83¼@84; July, 79¼@79 9-16; September, 76 7-16@76¾.

Butter—Receipts, 9,300 packages. Firm. State dairy, 19@21; extra creamery, 22; creamery, common to choice, 18@21½.

Eggs—Receipts, 23,100 packages. Unsettled. State and Pennsylvania, 17@17½; western storage packed, 17; western firsts, 16¾@17.

Sugar—Raw steady. Fair refining, 3 3-16; centrifugal, 96 test, 3 11-16; molasses sugar, 3. Refined is steady. Crushed, 5.45; powdered, 4.55; granulated, 4.35.

Coffee—Quiet; No. 7 Rio, 5½.

PRODUCE.

Burlington Route

In the Heart Of Chicago.

The Burlington station in Chicago is in the heart of the city. You land within a few minutes' walk of the principal business houses and the best hotels. You can board a street-car right at the door of any part of the city. On arrival in a large city these things count.

Omaha, Chicago, St. Joseph, Kansas City—all points reached by the Burlington's own rails from Denver. Write me. I may be able to give you some pointers about rates, etc., that will save you money.
