GARLAND.

JAPS AID IN CELEBRATION.

Every Feature of Pioneer Day Festivities a Success.

Special Correspondence.

Garland, Boxelder Co., July 25.—The Pioneer celebration at Garland was a complete success, and everything moved along smoothly from the firing of the big guns in the morning until the playing of the melody in the grand ball at night. Every one did his part toward making the celebration a success, and the manager in which the various committees worked up and conducted their various parts of the program bespoke the patriotism of the people in their selection of persons to compose these committees.

In the morning a patriotic program, consisting of speeches, music by the band, vocal selections, toasts, etc., was rendered in the Social hall, by the best talent which Garland could produce. Amusements for young and old occupied the afternoon. The baseball game between the local team and the Fielding team resulted in a victory to the Garland team by a score of 14 to 7. During the progress of the game the Japanese of the valley conducted a free booth in one corner of the park grounds, at which soft drinks and delicacies of all kinds were dispensed free of charge. At 9 o'clock p. m. a grand display of fireworks was enjoyed by the people of Garland at the Athletic park. The Japanese also took a hand in the display of fireworks, which were something quite out of the ordinary. After the display fireworks a grand ball was enjoyed by the younger generation, who danced until the early hours of morning. Not one single feature of an unpleasant nature transpired to mar the pleasure of the day.

BOY BURGULARS ARRESTED.

Sent to Reform School But Sentence Suspended.

Ogden, July 27.—At the afternoon session of the juvenile court yesterday three boys 15 years of age belonging to good families in Wilson Lane were before Judge Patton on the serious charge of burglary. On Pioneer day, while L. Covi with his family were absent from their home in Wilson Lane, the place was burglarized and a purse containing \$15.55 was stolen. The theft was reported to Sheriff Sebring, who placed Deputy Wilson on the case, and he succeeded in finding out that the three lads had been at Glenwood park and other places spending money freely. Suspicion immediately fell on the boys, and the officer arrested them. At first they denied having entered the place, but later admitted their guilt and said they climbed into the house through an open window. The judge sentenced them to the reform school, but suspended sentence during good behavior.

WANT SILVER CUP.

Weber County Fruit Growers Will Try For Prize at Irrigation Congress.

Ogden, July 27.—Yesterday President John Pingree of the Weber club sent out an address to the leading fruit growers of Weber county in relation to the National Irrigation congress to be held at Boise, Ida., Sept. 3 to 8. In his invitation, Mr. Pingree urged fruit growers to compete for the famous Clark cup, which was won by Idaho last year, he states that Gov. Cutler has called upon all the horticulturists of Utah to participate in the coming exhibit. He also states that through strenuous efforts the Idaho people have been induced to hang up the cup for another exhibit. He states that the Weber county horticulturists believe that it can be secured by Weber county and that they are making plans accordingly.

Mr. Pingree has addressed all of the prominent horticulturists of this county and has asked them to attend a meeting to be held in the Weber club rooms Saturday, July 28, at 3 p. m., at which time matters of properly arranging for a proper county exhibit which shall be entered into the contest will be discussed. This means that Weber county is going into the contest with the avowed intention of bringing the Clark cup back to Utah. It is understood that Davis and Boxelder counties will also be competitors, but the Weber

son delivered the grand oration. The afternoon was devoted to amusements and a dance for the children. The baseball game between Grantsville and the Western Pacific engineers was won by the former by 3 runs.

TO DESTROY MOSQUITOES.

Use of Top Minnows Advocated Instead Of Coal Oil.

New Orleans, July 26.—A proposition to use top minnows in stagnant pools in place of oil to destroy yellow fever mosquitoes to prevent their breeding was advocated today by Dr. Guittman Kohne, city health officer of New Orleans. In an interview, Dr. Kohne said: "Top minnows are more efficient as

mosquito destroyers than the goldfish which are reported as ridding water of mosquitoes in Havana. In stagnant water I believe that the minnows are better than the use of oil which spreads over the surface of the water. At the present time in the city's drainage canal there are sufficient minnows to destroy all the mosquitoes which develop into mosquitoes. The top minnows breed rapidly, so that if properly handled their supply can be made almost inexhaustible.

The city of New Orleans is at present spending \$60,000 in a campaign against the mosquito pest cutting down weeds to dry up stagnant waterpools and oiling wherever the ponds do not readily evaporate.
