Washington, Feb. 5.-Joseph C, Sibley of Pennsylvania gives the best of reasons for refusing to again be a candidate for Congress. His ambilions are satisfied. He pet. His ambitions are satisfied. He defines no office or place or any ad-unlages that could be bestowed by my power on earth. FEDERAL CONTROL OF LIFE INSURANCE.

Washington, Feb. 9.—Acting under instructions of the house, the judiciary committe today began an investigation in order that it may report whether or not Congress has the power to provide federal control of insurance. That this authority does exist was maintained by R. W. Breckenridge, of Omaha, Neb., chairman of the insurance committee of the American Bar association. The opposite view of the question was pre-sented to the committee by George Whitlock of Baltimore. The bar asso-ciation by a vote of 113 to 29, sent to its insurance committee for consideraion a resolution declaring federal con-trol of insurance illegal and unconsti-tutional under the decisions of the su-preme court of the United States. Mr. Whitlock was the author of that resolution and presented that view to-day. Mr. Breckenridge presented sta-tistics to show that the insurance business was national and not local in character. Of twenty of the largest insurance companies, he said, but 15 per cent of their business was done in the states wherein they were chartered. Mr. Whiklock contended that the

American Bar association had not com-mitted itself upon the question and that mitted itself upon the question and that if the supreme court had ever establish-el any doctrine it was that insurance was no commerce. Three chief justices and 20 assistant justices had all gone on record to that effect.
