Can a Man do Better?

Than to Buy a "STEARNS!"

We make the bold statement, challenging construction, in last week's Tribune, that the Stearns bicycle was the highest priced bicycle in the market, and the highest priced bicycle in the world. Have any of the agents of other wheels accepted the challenge? Not yet. They know that we have the greatest number of agents in the country, and that every wheel sold in the city costs, and every wheel sold in the city costs, and every wheel sold in the city costs. We are given the lowest bottom value for their dollars in the

Waverly,

there is to be tried, elsewhere. In every race over this twice under the sanction of the L. A. W. the

STEARNS' wheel has won first, first, first. The first World's Record Broken this year falls to Stearns, and the STEARNS' special, six-spoke wheel, has won the first place in every race, from Salt Lake City, before going throughout Oregon, Nevada, and the West. It is the first, of 10 to 12 years, of 10 to 12 years, and over seven minutes and twenty-eight and a half seconds, for twenty-five miles, and the STEARNS' wheel has won every race, and every wheel sold in the city costs, and every wheel sold in the city costs, and every wheel sold in the city costs.

How about the Fowler?

Good wheel, good workmanship, value for price, in every position. Try me.
