Of course, everybody is talking of the railroad, wondering what will be the outcome. All the towns and ham-lets of the surrounding country are nearly if not quite stripped of work-ing men, as both companies are paying high wages. Of course, that is a tem-porary condition.

The switches at Uvada are all full of cars loaded with building material, and it is said the same condition prevails all along the line. In consequence, the mails for all the settlements here have been late for a week past, some-times five or six hours late.

There seems to be every prospect that the coming summer will find hundreds of men and teams scattered over these hills and valleys, and consequently a ready market for much of the garden und farm products of southern Utah and Nevada.

WITH THE JUSTICES.

At 4 o'clock this afternoon Ernest Cronk and George Penrose, the two young men accused by Walter J. Sloan, the deputy sheriff, with having resisted him on Wednesday evening last, ap-peared before Justice C. M. Nielson guilty to the charge, and their trial will be held later. When they vol-untarily appeared in court last evening Justice Nielson released them upon their own recognizance.

The defense made no opening statement, considering that the court was already sufficiently well informed as to the facts of the defense, and proceeded with the exam-ination of their witnesses, which occu-pied the rest of the morning and the afternoon

PEOPLE WHO ARE PASSING

Editor R. E. Lockwood of the Weiser "Signal" was in Sait Lake yesterday. He says the outlook in Idaho is most encouraging. Canals are supplying abundant water to great tracts of excel-

with the general appearance of the city and the air of business activity. Your conditions here in the West afford one much to think over and I have been carefully studying them. Your produc-tion is already great and yet it is hard-ly anything compared to what it will be some day. In mining and agriculture, things seem to be not yet systematized settled parts of the country. One thickly settled parts of the country. One thing strikes me particularly is that your production already is far beyond the capacity of the railroads to handle it and yet the railroads appear to be do-ing their very best to have things go smoothly. In California fruit is being ruined by the carload because it cannot be shipped, on account of the scarcity of cars and motive power. The re-sorts and cities on the coast are overfilled with travelers and it is almost im-possible to get Pullman service over the railroads coming East unless you en-gage it two weeks in advance. I don't gage if two weeks in advance. I don't think the present railroads will be able to handle the traffic smoothly in two years from now unless they pretty nearly double their present capacity both in motive power and cars—both freight and passenger. Eastern capital is seeking investment in western secu-vities were then ever before Beople rities more than ever before. People have more confidence in the West and prefer investing their money out here in securities bringing 6 to 8 per cent than leaving it in the East and drawing

4½ per cent at the most." Harry Edward Freund and wife are guests at the Knutsford. Mr. Freund is connected with "The Musical Age" of New York.

MISTAKEN IDENTITY.

The late General John M. Palmer used to enjoy telling of being mistaken for a person of greater dignity than the President of the United States. "When I was military governor of Kentucky," said he, "a disturbance occurred in some town in the interior. I was at a distance, but was needed I was at a distance, but was needed at the scene. There was no train, no carriage, no buggy to be had. The on-ly vehicle available was a big gilded circus charlot, left by some stranded show company. I didn't like it, but there was nothing else to do, so I got in. You may imagine I cut a great dash as I drove through a small town.
