City Taxes Being Paid.

NEW YORK, 26.—A partial payment of its debt to the city was made yesterday by the Pacific Mail Steamship Company. The city's claim, which arose from an assessment for taxes in 1874, has been sustained in every court in which the case has been tried. The decision of the Supreme Court of the United States, to which it was taken on a writ of error, was rendered in May. The company then opposed the payment of the debt, and on July 24th, secured a temporary injunction restraining the city from attempting to collect it. An application for a permanent injunction was denied by Judge Potter, of the State Supreme Court, who had issued the former order. At the time this decision was handed down by Judge Potter neither of the steamships of the company on which the original levy was made were in port. The *Colon* had sailed at noon on that very day, and the *Acapulco* was on her return voyage from Aspinwall. On her arrival yesterday the vessel was boarded by ex-Marshal Hayes, who held the original warrant for the collection of the tax. The officers took formal possession of the ship, and service was acknowledged by her officers. Later in the day arrangement was made between the company's officers and Gen. McMahon, receiver of taxes, by which the company paid $5,000, and was granted thirty days further time in which to complete a settlement. McMahon said yesterday that his concession to the company was in no way an extension, because the company was obliged to continue the payment of interest at the rate of one per cent. per month.

China and Japan Will Fight.

The *Post's* Washington special says: Inteligence just received here shows how real is the danger of serious trouble between China and Japan. Unless the question of sovereignty, in which Loo Choo Island is involved, can be satisfactorily settled by Grant, or through some other means of mediation and arbitration, a military conflict is very probable.

A Lunatic in Washington.

The *Post's* special says: The stormy scenes in San Francisco have stirred up the local agitators to make a demonstration. Yesterday one Hodnett called on the First Comptroller of the Treasury and on President Hayes, demanding payment of certain unpaid claims of the workingmen, which he alleged were provided for by an act of Congress more than a year ago. He told Hayes that if the claims were not paid within 10 days "I can lead a force of determined men against you that will make your seat not worth the cloth that covers it." At a meeting of the Labor League last night he repeated these absurd threats, adding that an army of 350,000 men could be raised in 24 hours to march on Washington.

National Labor Party.

The National Greenback labor party met to-night and adopted resolutions congratulating the workingmen of California on their victory, and denouncing De Young as an assassin in the interest of thieving capitalist rings and, approving the San Francisco Workingmen's resolve to administer to him speedy justice.

Col. J. W. Gibbons moved (and the motion was lost) to strike out all reference to Kalloch and De Young, and said De Young had done what any man would do when a scoundrel slandered his aged mother. (Cheers and hisses and groans.) He believed in eulogizing De Young for his action.

De Young's Act Being Looked Upon As Justifiable.

J. J. Oxford telegraphs the *Sun* thus: The riotous revengeful spirit of the sand lots is subsiding. Public opinion is more favorable to the De Youngs. The outrageous charge against Mrs. De Young, whose life here has made her many friends, was so infamous that the people are now justifying the action of her son, whose almost fanatical reverence for and devotion to his mother is well known in this community.

The republican and democratic nominees for mayor will be withdrawn and Judge Blake will receive the joint nomination of both parties, and the support of all law and order citizens, in opposition to Kalloch and the sand lots.

Capital Notes.

WASHINGTON, 26.—The Treasury Department has given instructions to the collector of customs in New York, to permit the delivery of velvets upon the retention of proper samples and upon deposit of all duties based on appraised value This course is taken because complaints have been made of the long detention of goods which is likely to prove serious, and the loss to parties unless they can get them at once, in time for the fall trade, for which they are intended.

The collectors of internal revenue have been instructed to ascertain and report the quantity of tax paid on spirits of different kinds known to the trade, and held by the wholesale liquor dealers and rectifiers in their districts, by the first of October next.

At the cabinet meeting to-day, the Attorney General read his opinion, to the effect that the arrears of pensions under the late law went to the inmates of Homes for disabled volunteer soldiers, and to the Home, as claimed by the managers.

The President has appointed J. B. Lakey district attorney at Chicago, in place of Mark Bangs, resigned.

The Privileges of Bondsmen.

FALL RIVER, 26.—The directors of the Flint mill to-day, voted to try and collect the $15,000 lost by the late Treasurer Eddy, in cotton speculations for the mill, from Eddy's bondsmen, R. T. Davis and Walter C. Durfee, treasurer of the Wampanoag mill.

Yellow Jack in St. Louis.

ST LOUIS, 26.—Two more mild cases of yellow fever were sent to the quarantine hospital to-day. Thomas Redington, from Memphis, and Wm. Mulvey, steward of the steamer *John Mean*.

Railroad War Ended.

OMAHA, 26.—The war between the Union Pacific and the Chicago, Burlington and Quincy, regarding freight rates in Nebraska, is ended by a compromise effected to-day.

Chicago Clippings.

CHICAGO, 26.—The pooling arrangement made to-day by General Manager C. W. Smith, of the Chicago, Burlington and Quincy Railroad, with the manager of the Union Pacific, is understood to be substantially the same as that existing previous to the outbreak of hostilities between the two roads.

Saturday evening, Bauer and Christol will wrestle a Graeco-Roman match at Hamlin's theatre. Thos. Murphy of New York, will wrestle the winner.

The strikers in the Lake Shore Freight depots were this afternoon offered a compromise wage of $1,15 daily, and about 40 accepted, and will work to-morrow. The remainder will probably accept also.

Big Fire.

RICHMOND, 26.—R. H. Whitlock's tobacco box manufactory, 18th and Carey streets, burned today, together with a large brick tobacco factory of Turpin & Bro. and an adjoining box factory on the east. A row of frame houses on the south side of Carey street suffered some. Also the brick tobacco factory of Jackson Turpin & Co., 18th street, west of the box factory building of Turpin & Brother was destroyed, which was well known as Castle Thunder of the war, and used for a prison for Federal and Confederate prisoners. Total loss is estimated at $100,000; insurance $57,000.

Mississippi Steamers.

ST. LOUIS, 26.—The projected line of fast steamers to carry mails to all river towns between here and New Orleans, has so far advanced that contracts were signed to-day by John H. Baldwin, associate owner, for all machinery, including boilers, for the vessels. Contracts will also be closed this week for six hulls, cabins and outfits. The steamers are to be completed and ready for business by the first of December next.

FOREIGN.

GREAT BRITAIN.

Damage By Excessive Rains.

LONDON, 26.—The *Mark Lane Express* says: The heavy rain storms of the past week have seriously laid the crops in many parts of the northern and midland counties, while the submersion of the low lands has caused the wheat plant to rot at the root and develop mildew in the ear in large quantities. Hay has been washed away in Derbyshire by floods. Nearly everywhere fields are choked with weeds and there is every sign that the present year will be as bad or worse, for farmers that its immediate predecessors. In more sheltered districts some pieces of wheat and barley are ready to be cut, but this is not all general. In Scotland, farmers, during the recent short spell of fine weather, secured a good deal of hay which is not so much injured as was feared. Cereal crops in the north are still quite green, and much of the grain in the uplands may never ripen at all. October rather than September will probably be the harvest month in Scotland. Turnips there are improving, and potatoes are generally free from disease, but the yield will be late and deficient. The relapse of the weather has caused a revival in the wheat trade in some instances enabling sellers to recover the recent decline of one shilling per quarter. Imports again have been excessive but for the imports having exceeded the usual summer complement. The strength of the trade has been so marked that higher prices would doubtless have been obtainable but it is difficult to persuade millers to buy except in retail in the face of the supply considerably exceeding 800,000 qrs. in three weeks on the eve of harvest, even if the prospects of such harvest are admittedly bad. America's capacity for gigantic shipments is also thoroughly understood by buyers who operated cautiously but at the same time more freely during the past week, at a slight advance on Monday's currency. In another month more reliable data will be obtainable concerning European crops upon which to indicate the further course of prices.

Andrassy's Last Official Acts.

One of the editors of the Vienna *Tugblatt* had an interview with Count Andrassy, who stated that his resignation was against the wish of the Emperor, and his majesty only consented to it because he was unwilling to take the responsibility of retaining him in office and the detriment of his health. At the interview Andrassy pointed out if the occupation of Novi Bazar had been undertaken without first entering into a convention with Turkey, it would be believed that Austria desired to acquire Salonica. The occupation of Novi Bazar was undertaken solely with a view of guaranteeing Austria's commercial relations with Salonica, strengthening the Austrian position in Bosnia and ensuring the fulfillment of the treaty of Berlin.

The meeting between Andrassy and Bismarck is not expected to last more than an hour. The principal object of Andrassy's journey is to assure the German chancellor that the Austro-Hungarian policy in the future will be dictated by the same spirit as hitherto, and that in particular the good understanding between Austria and Germany will remain unchanged.

Rights of Church and State.

The *North German Gazette* publishes the leconoral manifesto of the new conservative party, declaring that the State and Catholic church should meet each other half way. The inalienable rights of the State should be guaranteed, especially as regards education, but religious instruction should be left to religious bodies.

Emigration Suggested.

At a meeting of the Oldham operative spinners, a resolution was passed protesting against the proposed five per cent. reduction in wages, declaring it unjustifiable. Emigration was strongly urged as a means of improving their condition.

Unprincipled Bank Officers.

The examination before the Bristol magistrates of seven directors of the West of England and South Wales District Bank, on a charge of conspiracy has begun. Counsel for the crown is opening the cases. It is alleged that after the directors had sunk two thirds of the capital of the bank in loans to the investment iron making firm of Booker & Company, they endeavored to shift their responsibility upon the public by taking over the business of Booker & Co., transforming it into a limited company and endeavoring to sell the shares thereof by promising good dividends.
