The powers of darkness are al-ways arrayed expinst the mover of alert. The powers of darkness are al-ways arrayed against the power of light. Recently we have had an ex-ample of this in the treatment some of our missionaries have received in our own country. The speaker quoted a saying of the Prophet Joseph Smith to the effect that this antagonism would continue until the Lord overthrows the power of the devil. The only importpower of the devil. The only import-ant consideration for us in this re-spect is that we determine to withstand all the attacks made by the adversary of good. The Prophet Joseph was es-pecially tried; and so were those men who succeeded him. No one can point to these and say truthfully that they ever failed in their allegiance to the Lord. The only reason why they were persecuted was that they had been called of the Lord; and they proved true to this sacred trust only because they knew their calling to be of God. Knowing this, they were ower of the devil. The only import
