mental condition. When he is pronounced sane he cannot consistently trouble and will doubtless be sent to Provo when apprehended.

A set of new shelves has been put into the Supreme court library for the accommodation of the increasing number of volumes.

Last week the State Supreme court handed down a decision in favor of the plaintiff in the case of Frank Lee against the Rio Grande Western for damages for injuries received in the Bingham's line tragedy in Bingham. The amount awarded to Mr. Lee was $13,450.34 and the company has paid that sum over.

Salt Lake county has filed its answer to the complaint of Albert E. Cobern for $5,114.03 alleged to be owing him for work performed in interviewing State aid. The county denies that it ever entered into any contract with Cobern by the terms of which he was to deliver such sum to the road or that he delivered any such in pursuance of such contract.

The Salt Lake and Ogden Gas and Electric Light company has filed the following answer to the complaint of the city in the amendment of the company's franchise:

That there is a defect of party plaintiff in that said action cannot be maintained except as well on the part of the State in the name of the people thereof as of the said complainant does not always manifestly appear. Los Angeles's queen wore costumes the year that cost over $5,000 and she had a different costume for every function. Utah's queen can and will do with less but the people can be depended upon not to disappoint her friends and the public in the matter of dress.

J. Watt Young is at the present time experiencing a great deal of annoyance. He is one of the financial backers of the Liberal Herald. Recently a communication was addressed to said gentleman asking them to remit the amount of their subscriptions by mail. By mistake the request was sent to Watt instead of Young. Mr. Young has now very sensibly put a stamp on the letter and sent it to him by asking him what he has done with the money. The public can rest assured, however, that he has paid every cent collected for the Herald into the treasury of the secretary of the executive committee.

Two Hundred and Eighty More Pupils Added to the High School.

SPEECHES OF WELCOME MADE.

The High School Building Packed With Hopeful Young Students and Worthy Instructors—A Stirring Scene.

Two hundred and eighty students of the grammar schools were added to the membership of the High School this afternoon. The occasion was marked by appropriate exercises, consisting of an address by Prof. Maeser, speeches of welcome to the new comers by Ted Goodwin of the fourth year High school class, Mary Rimmell of the third year class, Jay Goo of the second and Jeanette Young of the first. Responses were made by members chosen from the incoming students, each class of eighth graders having at least one representative to refer to the progress under all conditions and the business and profession of the new. Vocal and instrumental music was also a feature of the exercises, which were largely attended by patrons of the public schools, each of which has a right to claim a seat in the session of the year with proper accommodations. At the Lowell school this forenoon President Dealy of the board of education made a speech and invited the graduating class to visit Saltair at his expense on any day they may select for the purpose. The invitation was quickly accepted and the date of the excursion will soon be agreed upon.

PUBLIC SCHOOLS.

Instructions for County superintendents and school trustees.

State Superintendent of Public Instruction Park says that, by some means the impression is extant that school trustees elected at the coming school election—the second Monday in July—can not take possession of their office until Jan. 1, 1897. This is erroneous. Section 11 of the registration law provides that the county clerk shall notify the trustees of their election within ten days after the day of election, and section 40 further provides that within twenty days the trustees shall qualify, meet and organize. It is also stated in the law that all school districts to be held prior to Sept. 30, 1896, it is not necessary to register. Dr. Park is doing his utmost to correctly inform county superintendents as to their duties.

Scrofula

Affects the blood of humanity. It appears in scaled forms, but is caused by a taint in the blood, which settles and nestles in the bones and many of such diseases. Read this:

two inches across forming and as soon as it broke it increased in size. The sore became worse. I could not put on my clothes enough. I thought I would have to give up my work also. I could not get out of bed and had to sleep. I read of cases of Hood's Sarsaparilla by local newspapers and concluded to try it. Before I had taken all of one bottle the sore was healed and the swelling had gone down.

Gladness Comes

When a better understanding of the right principles enforced in the many proper remedies for family use prevails. Then the health-giving effects of the pure liquid laxative principles embraced in the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., will be more generally known. That is why it is the only remedy with millions of families and the most progressive druggists throughout the world, as it is the only one that promptly and pleasantly cleanses the system when bilious or constipated, dispels headaches, colds or fevers and permanently overcomes habitual constipation. Its perfect freedom from every objectionable quality or substance, and the fact that it is manufactured directly from the most healthful products of the vegetable kingdom, known to the medical profession as the most perfect laxative, are the reasons why it is the only remedy of its kind ever accepted by the medical profession and the only one that should be used by intelligent people. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute. Syrup of Figs is for sale by all druggists in 50c and $1 bottles.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.

THE pain that some times strikes a man in the small of the back at the most inopportune moment is due to inflammation. It may be caused by a chill or a shower and make the first step a misery. It is a warning. It says: "Here I am, and I'm going to stay." It is a sign that the weakness of his stomach, previously he doesn't even bother about, has begun to show signs of the end. Presently he doesn't even bother about the stomach. He has to agree with him or not. The things that please his palate most are often the worst for him to eat. Then the slightest food is likely to upset him. Indigestion and constipation are sure to follow. His first trouble was very slight—very easy to cure. He let it go. Now he is a confirmed dyspeptic and it often seems more than he can endure. He is constipated and very sick. Part of his discomfort comes from the fact that he constipates—that is constipation.

Constipation is so common that most people kill the people in America are troubled with it. It is so common that when people of the United States are troubled with constipation they think it is a natural condition. Constipation is not natural. Nobody can say that. The common sense and of common sense will tell you that when the bowels stop, nutrition stops, and the whole body is thrown out of order.

The way to cure constipation is to remove the cause. Dr. Pierce's Pleasant Pellets do this in the most perfect manner. They take the place of the cathartic pill. They are a positive cure for constipation and sick headache. Their influence over these troubles is shown in the fact that they are the most widely sold medicine of their kind. They are the cheapest, too, for you pay only for the good you get. They are guaranteed to give satisfaction in every case or your money is returned. They are the cheapest medicine you can buy, for you get value received every time. They are the only medicine sold by druggists, under a positive guarantee from the manufacturers that they will give satisfaction in every case, or the money paid for them will be promptly returned. This guarantee has been printed on the wrapper around every bottle of "Pellets" for many years. It is backed by the manufacturers of Dr. Pierce's Golden Medical Discovery, which has been sold for over thirty years. Can you ask more than a fair trial of such a medicine on such terms? Can you afford to accept less? Can you afford to be without them? Your money back if they don't benefit you. Isn't that fair?

Dr. Pierce's Pleasant Pellets are sugar coated, and are as easy to take as candy. They are the smallest, cheapest and easiest to take pill that can be had. They are the only pill that can be had. They are the only pill that can be had. They are the only pill that can be had.

TURNING GRAY
AND THREATENED
WITH BALDNESS

The Danger is Averted by Using

AYER'S HAIR VIGOR

"Nearly forty years ago, that most useful of ministers, my father, turned gray and began losing his hair. I remember that I was then troubled with considerable baldness. Using Ayer's Hair Vigor highly restored, and preserved, my hair for years. I have used it, at intervals, ever since, and have found it unequaled for keeping the hair in vigorous condition. Only in occasional applications is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's preparations to my friends."—Mrs. H. M. Hanson, Lyons, Neb.
