that an uncle or aunt wished to adopt a grown up niece or nephew whose par-ents were dead, but under the present law it may not be done, and the bill was to enable such action to be taken. Some little discussion was induiged in over H. B. 154, by Marks, creating a state capitol fund. The committee had changed the amount to be set aside in the sinking fund each year to \$10,000, but Mr. Marks effectively moved to amend by changing the amount to \$25,-000. Kuchler sought to amend by strik-ing out the words designating Salt Lake City as the place of erecting the build-ing, but his amendment falled to carry. The governor by messenger informed the house that he had approved H. B. 16, by Morks, relating to replies in pleadings; H. B. 100, by Westphal, re-lating to date of expiration of notarial commissions, and H. B. 36, by Richards, abolishing the office of deputy superin-tendent of public instruction. H. The bill consists of 16 long pages of closely printed matter, and had not been read the third time. A motion that it be considered as having received its third reading failed on account of objection of one member, and Clerk Bu-chanan proceeded to reader, but even his mellifuous tones became a triflo wearing when section 365 was reached, and Speaker Joseph kindly offered to relieve the chief clerk for a spell. LEGISLATIVE SIDELIGHTS.

During a temporary lull in the pro-ceedings yesterday afternoon Mr. Party of Iron was called to the chair. Now the man from Iron is not always a man of Iron, and enjoys a bit of fun with the rest. During his incumbency of the chair he entertained a motion to punish Mr. Clegg for disrepect shown the house in leaving his seat during roll call. Suggestions for pun-ishment being in order, various schemes of forment were presented from all sides of the house, but it was finally moved that Clegg be laid on the table, which was carried. Clegg then received his punishment in that the chair would not recognize him on any question, until he was formally lifted from the table by a majority vote of the house. blance of real laws, had just finished his work on getting the bill into shape for transmission to the senate. Richards stated that the idea contained in the resolution was approved of by the governor, and that the state might just as well be realizing a handsome income from interest on its idle moneys as to have them pilling up and rusting in musty corners of the treasury vaults. Richards made an-other attempt to introduce the resolu-tion at the evening session, but ob-jection was again raised, and his mo-tion failed to carry. BULLS PASSED. the house.
