MINING, BUSINESS AND STOCKS.

MARKET AGAIN SENSATIONAL

Immense Gain in Daly-West Caused Much Excitement.

AJAX AND LOWER MAMMOTH

Pery Strong-Over 17,000 Shares of Ajax Sold-Total Transactions Involved 28,995 Shares and \$37,329.

Trading on the mining exchange this morning was of an extremely sensational character. Few stocks shared in the business transacted but it was only because stocks generally were held at so much higher figures and Daly-West's remarkable performance early in the call had a startling effect. Trading on the exchange opened with Ajax at 37, from which it was advanced with a traded in and Daly-West came next. Opening with sales of 250 shares at

\$33.00, the stock was advanced in leaps to \$35,20, at which the closing sale was made. Rumors were affoat that a consolidation with the Quincy is about to be consummated on a basis very favorable to the Daly-West. It is known that consultations between the officials of the two companies and their lawyers are of daily occurrence and while the basis of an agreement cannot be ascer-tained at the present time there seems to be less doubt than ever that the Daly-West, Quincy and Anchor companies will come together in one mag-nificent company. Nearly every one connected with those companies desires to effect a settlement and it is extremely probable that some concessi be made by each company to effect such Lower Mammoth was very strong at

73½ and Yankee between \$2.64 and \$2.65 was traded in. Martha Washington was held at 8½, after being dealt in at 8½, and California between 24 and 21 was traded in on a downward scale.

There is a noticeable improvement in conditions. conditions on the exchange and the larger buying by outside traders now is taken as a good indication that business during the summer will be good.

Majestic Company Will Market O. K. Copper Ores.

SHIPMENTS BEGIN IN APRIL

Fifteen Cars of O. K. Ores Going 40 Per Cent Copper Are Ready for Marketing.

Thee Majestie company will, on April 1, send out a shipment of 40 per cent copper ore from its O. K. property. Such is the statement of P. B. McKeon, the Milford merchant who came up yesterday. The company now has over 15 cars or between 450 and 500 tons of very choice copper ore now on the dumps awaiting shipment, and for some time has been taking out a car of ore rush to 40%, transactions totaling 17,400 | a day. It is stated as probable that shares. Carisa between 25 and 251/2 was shipments will be made regularly after the 1st of April. Mr. McKeon said at there is much activity in the district and that a number of the properties have very fine showings. Development work is being prosecuted with vigor. The Cactus, Bluebird, Copper Ranch and others, besides the Majestic company's property, are being systematically op-ened up. It is stated that A. B. Lewis, president of the Majestic, is expected to return any day now.

OIL EXTRACTOR READY.

Testing Plant Built for Utah Shale Company is Complete.

The shale oil extractor built by the Acme Mining Machinery company in this city, is ready to be tested as soon as certain materials to be used in the tests, are received in the city. The plant, which was fully described in the News" some time ago, if successful, will be the forerunner of a multitude of larger ones which will be erected near the oil shale deposits in southern Utah. It is claimed by the promoters of the process that the oil shales de-posits can be worked at an enormous profit by the use of these plants, and if that is proved so the Utah oil fields will become enormously valuable, as there is practically no end of the ol bearing shale. The experiments which will be conducted next week will fully of course some changes may be nece sary before the process is perfected.

INDEPENDENCE MINE REPORT.

Cripple Creek, Colo., March 27.-John Hays Hammond, the well known min-ing engineer, general manager of Strat-ton's Independence mine, has sent to the London directors the following cablegram: Recent developments have confirm-

ed last report. Regret to report low-est development unfavorable." In reply to an inquiry, Mr. Hammond

"Yes, it is true. I have cabled London to the effect that the ore reserves are exceedingly low and that the body of the mine is looking very bad." Mr. Hammond refused to discuss the matter any further From Superintendent Shipman it is earned that the production at present

s from 250 to 300 tons a day, and from a reliable source it is learned that there is enough ore blocked out to guarantee a production of at least 250 cons a day for several months to come. The showing, however, in the bottom levels is not good. Superintendent Shipman believes that he will be able finally to open up a good body of ore below the \$60 foot level.

This opinion is apparently not shared by Mr. Hammond. by Mr. Hammond.

BIG MINING DEAL. Phunder Mountain Property Purchased for a Large Sum.

Walia Walla, Wash., Mach 26,-Seventeen claims lying in a circle almost entirely closing in the Dewey property on Thunder mountain, were today puroity. The price pald, which is in the nundred thousands, was not made pub-ic. The holdings of Moore & Campsell now include the entire summit of Thunder mountain proper and Light-ning peak as well as portions of the slope of each. The purchase was from Root and Sanburg and their associates and is the biggest deal thus far con-summated in the district.
