

DETERMINED TO HAVE REVENGE.

Abandoned Mrs. McBride Makes a
Second Attempt on Her Hus-
band's Life.

SHE WHIPPED OUT A REVOLVER.

Exclaimed as She Did So, "I'll Kill
You Now," But Was Prevented
By a Detective.

Portland, Ore., Oct. 28.—In the hopes of clearing up the mystery which surrounds the assault on Frank L. McBride, which occurred last Sunday night at the corner of Second and Hall streets, the woman known as Mrs. McBride No. 2 and McBride were summoned to the office of the chief of police this afternoon. Detective Weinert, preliminary to the investigation, told Mrs. McBride that he intended to search her. Although she rebelled, the search was made, but without result. Hardly had the detective concluded when Mrs. McBride suddenly drew a revolver from the bosom of her dress, and, pointing it at McBride, said, "I'll kill you now." The detective snatched the gun from the woman, thus preventing the threatened tragedy.

The interview was conducted behind closed doors, but it is stated that an understanding was reached and the two left the station together. The police, however, swear that the woman will yet carry out her threat to kill McBride.

TRAGEDY FEARED.
The fact that McBride had not returned to his lodgings at a late hour this evening lends strength to the belief that a tragedy may be already enacted and that McBride's body may be found at some lonely spot, the victim of the murderous mania of the woman who poses as his second wife. The police state that the woman has confessed to the cutting of McBride's throat on Sunday night, and that she expressed sorrow that she had not killed him.

Mrs. McBride stated to a reporter this afternoon that her mother is closely related to Mrs. William McKinley, wife of the late president, but offered no evidence in support of her statement. She said that while McBride was in the Utah penitentiary serving a sentence for embezzling government funds, she wrote a letter to President McKinley, begging that clemency be shown her husband, and signed her mother's name to it. As the result of the forged petition, the woman stated, McBride was pardoned after he had served six months' imprisonment.

NOT WIFE BUT MISTRESS.
During the interview with District Attorney Manning, McBride stated that the woman who bears the distinctive title of "wife No. 2" was not his legal wife but a woman with whom he had lived for a number of years. McBride asserted that he was legally married to the woman known as wife No. 1 and who nursed him after wife No. 2 stabbed him on Sunday night.

It was McBride's disclosure of his marriage to her and the parentage of her little girl which prompted Mrs. McBride No. 2 to attempt to kill McBride this afternoon.

McBRIDE RETURNS.
McBride returned to the apartments of the woman who is known as wife No. 1 tonight. He would voluntarily give no information regarding the alleged reconciliation effected with wife No. 2 at the office of the district attorney this afternoon.

District Atty. Manning has not determined what his course of action in the case will be, but states that he does not at this time contemplate making any arrest. When the case is brought to the attention of the grand jury, it may in some manner be patched up without the law having to take a further hand in the matter.

WHOLESALE PERJURY.

Witnesses in Countess Kwilecki
Case Admit Swearing Falsely.

Berlin, Oct. 28.—At today's session of the court before Countess Kwilecki, Countess Kwilecki, her husband, Count Kwilecki, are being tried on the charge of presenting a male child for his own use, and of procuring a divorce at Wroblewo, province of Posen, at the residence of Countess Kwilecki, the girl from Paroz, alleged to be the child's mother, admitted giving her the child to a midwife. The witness was shown photographs of the children and was asked if she recognized her own child. She selected the right one from its resemblance to her older son.

The midwife, Frau Osoowski, also treated the countess with messages during the critical months of her illness, and who had testified in the defendant's favor at the previous trial in Posen, and who is now accused of perjury, admitted that she had perjured herself at Posen.

Gas Found in Wyoming.

Douglas, Wyo., Oct. 28.—A gas discovery in the Breeding Basin, eleven miles west of this city, has caused intense excitement here and crowds have come out to see the place. The flow was struck at a depth of 475 feet and was so great that it forced the heavy drill out of the well and threw gravel and dirt over the top of the derrick. The well has been cased and cemented. It is proposed to pipe the gas to Douglas, Casper and Glen Rock as soon as possible and later the pipe line may be extended to Cheyenne, a distance of 200 miles.

Gen. Bell Not Asked to Resign

Cripple Creek, Colo., Oct. 28.—Adj.-Gen. Sherman M. Bell today emphatically denied that he had been asked for his resignation by Gov. Penabaz and thought of offering it. He also routed the idea that the governor had any idea of demanding it.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millions of the poor who are afflicted with indigestion and who suffer from the most distressing ailments, find relief in the use of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty years.

Fifty Years the Standard

range, Colorado Springs, Rollinsville and other places in the state with requests that they be mustered into service. The largest company contains 97 members and the smallest 67. When mustered in they will be equipped with the new army rifle. The general states that he proposes to recruit the national guard of the state up to a maximum of 3,000 men.

The statement was made tonight that a private of company L, First regiment, Denver, accidentally shot himself in the leg this afternoon while cleaning his gun. The man's name was not made public, but it is said his wound is not a serious one.

OLD WOMAN ARRESTED.
For Using Mails for Extorting Money.

Columbus, O., Oct. 28.—A United States deputy marshal today received from the district attorney at Cincinnati a request for the arrest of Mrs. Samuel Boswell of this city, on the charge of using the mails to defraud, but she was too ill to be taken into custody.

It is alleged in the affidavit that Mrs. Boswell sent through the mails a letter to Z. L. White, a leading merchant of Columbus, demanding that he pay her \$300 or certain facts would be exposed. It is alleged that the woman sent a similar letter to Senator Hanna, demanding \$500.

The name "Anna Lynn" was signed to the letters in both instances. The identity of the sender was ascertained through a decoy letter. When confronted by a postoffice inspector it is alleged Mrs. Boswell admitted having sent the letters, saying she knew nothing derogatory to the persons to whom they had been addressed, and that her act was inspired solely by a desire to obtain money. When the deputy marshal called at the Boswell residence he found the woman suffering from nervous prostration and unable to be moved from the house. An agreement was made by which Mrs. Boswell will be arraigned before a United States commissioner as soon as she has sufficiently recovered.

Mrs. Boswell is 55 years old. Her husband is a traveling salesman.

Cubans Contradict Chamberlain

Havana, Oct. 28.—Members of the government deny the statement made by Joseph Chamberlain at Liverpool yesterday that Great Britain is for its trade with Cuba. They point out that the report of Mr. Chamberlain, the minister of Great Britain to Cuba, shows a gain in exports in 1902 from Great Britain to Cuba.

The Cuban treasury report, it is also pointed out, shows decreased increases in the exports from Cuba to Great Britain during the past four years with the exception of 1902, when there was a trifling decrease.

While it is expected that reciprocity between the United States will to some extent adversely affect European trade, cabinet officials are of the opinion that the quickness of communication will give the United States preference over European carriers in any event.

Julia Marlowe Retires for a Time

Chicago, Oct. 28.—Julia Marlowe will retire from the stage temporarily after the close of her present engagement at Powers theater. She will not act again until next autumn, when she will begin her three years' partnership with Edward H. Southern in revivals of Shakespearean plays under the direction of Charles Frohman.

The actress' temporary retirement is said to be due to her dissatisfaction with her present play, "Pools of Nature," and her further disapproval of a play called "Vivette," which had been adapted from the French for her and which she had planned to produce week after next.

"Guardian Angel" Picture Mystery

Chicago, Oct. 29.—The Tribune today says: The mystery surrounding the picture "Guardian Angel," now on exhibition in the salon of American Artists, is due to a blunder of some one. It was painted by Isaac H. Callag of Boston three years ago. Abbott H. Thayer never painted such a picture.

A year ago after the painting had been exhibited in New York, Callag decided to make changes in it. He lightened the color of the wings and the angel and filled out the canvas more completely with the wings. The photograph represents the picture in its former state.

May Harrington Hanna Married

New York, Oct. 28.—Mrs. May Harrington Hanna, formerly the wife of D. B. Hanna of Cleveland, son of the Ohio senator, became the wife of Edmund Kittredge Stallo on April 23 last. The ceremony was performed by the Rev. Henry Rollins in St. James Episcopal church in this city. News of the marriage became public only today through announcement given to the newspapers by Mr. Stallo, who is a lawyer and financier of this city.

Mrs. Hanna in 1901 came prominently before the public in Cleveland, her former home, and in New York, when she ran away with her three children, eluding her former husband and detectives whom he employed. She managed to get out of a hotel where she

stopped and board a steamer for Europe. The detectives were close behind, but dared not break into her stateroom because the vessel flew the British flag.

PROSPECTORS RETURN.

From Northeastern Siberia and Report Favorably on its Minerals.

Seattle, Wash., Oct. 28.—Two American prospectors from the northeast Siberia, returned on the ship, Seratona and Ohio. They are practically all agreed that the country is rich in minerals, and they state that good colors were found practically every creek prospect. E. S. Bowen, one of the number, believed rich placer districts rivaling those of Nome and the Klondike will be found in the course of time. On the other hand Nels and Olof Swenson, father and son, members of the party think the country's riches lie chiefly in the quartz deposits.

Probably Changed Corpses.

Chicago, Oct. 28.—A dispatch to the Chronicle from Sioux City, Ia., says: Somewhere in Iowa lies the corpse of William Rogers, but where his friends do not know. A funeral concourse listened to the rites over the body and afterward passed before the coffin. When Mrs. James Ferguson Rogers, the mother-in-law, saw the face of the dead, she cried out: "Why, that is not Mr. Rogers."

The body in the coffin was sent from Independence at the same time that another was transported and it is supposed the labels were accidentally exchanged.

Lewis and Clark Fort Discovered

Baker City, Or., Oct. 28.—Dr. H. E. Curry of this city reports the discovery in the Mount Rastus mining district of a tree bearing the inscription "Lewis and Clark, 1804-1805," and of a well-constructed stone fort and the remains of a log hut. The inscription on the tree was cut in the late fall or winter months, when the sap was down, because the letters now appear as raised. It is known that the earliest overland trails passed near the scene of the discovery reported by Dr. Curry.

Watching Consul Skinner.

New York, Oct. 28.—Considerable apprehension is felt among Italians about the expedition under way to Abyssinia, by Consul-General Skinner, of Marsell, says a Tribune dispatch from Rome. Italy, since her African reverses, has been accustomed to look with distrust upon any foreign interference in Ethiopia. It is learned on good authority, says the correspondent, that instructions have been sent to the Italian minister at the Abyssinian capital to watch Mr. Skinner closely and report on the attitude of him and the business results of his visit.

Ignatius Qualey Sent to Prison.

New York, Oct. 28.—Ignatius I. Qualey, president of the Horshoe Copper Mining company, has been sentenced to a year in the penitentiary by Justice Davis in the supreme court. He pleaded guilty to swindling, through the sale of worthless stock. Larry Summerfield, the originator of the plan, probably will be brought to trial Monday.

Lt. Walsh Gets Ten Years.

Manila, Oct. 28.—Lieut. James W. Walsh, Jr., constabulary supply officer, stationed at Marabate, in the province of Visayas, military department of Luzon, convicted recently of embezzling \$12,000 of government funds, has been sentenced to 10 years' imprisonment.

Guidi Urging Settlement.

Manila, Oct. 28.—Monsignor Guidi, the Roman prelate sent to Manila as apostolic delegate to conduct negotiations between the vatican and the United States government regarding the sale of land held in the Philippines by the friars, is urging a settlement of the

BUSY DOCTOR

Sometimes Overlooks a Point.
The physician is such a busy man that he sometimes overlooks a valuable point to which his attention may be called by an intelligent patient who is a thinker.

"About a year ago my attention was called to Grape-Nuts by one of my patients," says a physician of Chicago. "At the time my own health was bad and I was pretty well run down by a saw in a minute that the theories behind Grape-Nuts were perfect and if the food was all that was claimed for it it was a perfect food, so I commenced to use Grape-Nuts with warm milk twice a day and in a short time began to improve in every way and I am now much stronger, feel 50 per cent better and weigh more than I ever did in my life."

"I know that all of this good is due to Grape-Nuts and I am firmly convinced that the claims made for the food are true. I have recommended Grape-Nuts to my patients and have seen many of them with splendid results and in some cases the improvement of patients on this fine food has been wonderful."

"As a brain and nerve food, in fact as a general food, Grape-Nuts stands alone." Name given by Postum Co., Battle Creek, Mich.
Look in each package for a copy of the famous little book, "The Road to Wellville."

matter before Gov. Taft leaves for America. The governor upon his part says he is in hopes that the sale will be concluded before his departure, from the fact that the friars have reduced their price considerably.

Discussing Whistler's Art.

London, Oct. 28.—An acrimonious correspondence is proceeding in the columns of the Morning Post as to whether the art of the late James McNeill Whistler, the American painter, is appreciated in his own country. Marion H. Spielmann, editor of The Magazine of Art, contends that Whistler received no official recognition in the American art world. Joseph Pennell, the artist, maintains that Whistler received the highest awards at exhibition in America as well as other evidences of genuine appreciation from his fellow countrymen.

Brooklyn Business Men Swindled

New York, Oct. 28.—Fully 1,000 business men in the upper section of Brooklyn and on the east side of Manhattan have been victimized to the probable extent of \$25,000 by a gang of clever check cashers. One of them opened a small account with a Brooklyn bank. By some means they got hold of a certification stamp. Checks then were cashed at every small shop that would accept them and the gang disappeared.

Are Labor Unions Partnerships?

Denver, Oct. 28.—A suit was filed in the district court today having for its purpose establishment of the principle that labor unions are partnerships and that slander committed by a member makes the organization itself liable for the slander. The plaintiff is the plaintiff, but in reality the suit is brought by the Citizens' alliance. The Firemen and Engineers' union No. 158 of Denver is the defendant. Henderson charges that a committee from the Union circulated the report that he was taking coal from the company, selling it to other parties and pocketing the proceeds. He claims that the committee had been guilty of larceny. For this alleged slander he wants \$5,000 damages.

Run on Barnsboro, Pa., Bank.

Barnsboro, Pa., Oct. 28.—The foreign mine workers have just made a run on the principal banking institution in the town, which has been displayed prominently about town. The bills said something about bank troubles and the foreigners asked no questions but hurriedly withdrew their cash. They placed it with coal operators who sent it back to the bank in their own deposits, so that the run caused no inconvenience.

Prizes for Servant Girls.

New York, Oct. 29.—An association here which has been for some time struggling with the servant girl problem has just held its third prize distribution. Twenty-three maids were presented with engraved cards and a box containing \$10 in gold. They had remained in one household two years. Four girls received special prizes for having remained four years in one place.

Want Ferguson to Succeed Taft.

Manila, Oct. 28.—Seventeen provincial bands have endorsed Executive Secretary Antonio Ferguson for the vacancy upon the board of Philippine commissioners which will be created by the approaching retirement of Gov. W. H. Taft, who will shortly leave the islands and return to the United States.

Nasal CATARRH

In all its stages.
Ely's Cream Balm
cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and cures follow. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents.

SURE INDICATIONS OF BAD BLOOD

OLD SORES
ULCERS
ABSCESSSES

There is no better evidence of a bad condition of the blood and unhealthy state of the system than a sore that won't heal, or a festering, discharging Ulcer or Abscess. There are many ways by which the blood may become contaminated and poisoned. A long spell of malarial fever or other debilitating sickness, the excessive use of mercury in certain diseases, inactive kidneys and torpid liver, exposure and lack of nourishing food, weaken the constitution and cause the system to become congested with impurities which are taken up by the blood, and wherever the flesh is bruised or scratched a festering sore or discharging ulcer begins. A boil or blister, pimple or burn often develops into a frightful looking sore because of the unhealthy condition of the blood, and the place will continue to grow and spread, finally reaching the bones and causing them to decay unless the blood is purged and purified and the system thoroughly cleansed of all morbid and unhealthy accumulations. This cannot be done with washes, salves and soaps, which only afford temporary relief.

Such things neither make the blood any purer nor the system any cleaner, and to depend upon them alone is suicidal and senseless. The sore or ulcer is only a symptom, an outlet for the poisons circulating in the blood, and as long as it remains impure the sore will never heal. It may scab over and appear to be getting well, but a fresh outpour of matter from the diseased blood starts it again, and thus it goes on, sometimes for years, slowly sapping away the life of the patient.

The only way to get rid of these disgusting evidences of impure blood is to remove the cause by purifying the polluted blood, and nothing does this so surely and effectively as S. S. S. It drives out of the circulation impurities and germs of every kind; and under the tonic effect of this great remedy the general health rapidly recuperates and broken-down constitutions are built up and strength and vigor are restored to all parts of the system. When S. S. S. gets into the blood and causing the old sore or ulcer, are driven out through the natural channels of the body, and the place begins to heal, the discharge gradually ceases, new flesh forms and smooth, healthy skin hides all signs of the painful, sickening sore.

SSS

S. S. S. is an entirely vegetable remedy, containing both purifying and tonic properties, making it the ideal medicine where the blood is out of order and the health undermined by some previous ailment resulting in chronic sores, ulcers, boils or abscesses.

A sore that does not heal promptly, no matter how small, will bear watching. It is a sure indication of bad blood, and may develop into something far more serious than a common ulcer. It may be Cancer. Through our medical department we are rendering valuable help to those afflicted with sores and ulcers of various kinds. Write us, and our physicians will advise you without charge.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

We are overstocked in high-grade Fabrics. In this
DEPENDABLE SALE cost is not considered.

Imported Pattern Suits.
