

GOVERNMENT RUNS AGAINST BIG SNAG

Many Witnesses and Much Documentary Evidence in Sugar Refining Case Disappear.

NO TRACE OF THEM FOUND

Custom House Weigher Testified That Every One of Scales Had Been "Fixed."

New York, Dec. 2.—The government encountered a check today in its prosecution of the American Sugar Refining company when it developed that documentary evidence and many witnesses to the government's case have disappeared. The missing documents were records kept by city weighers, and neither the documents nor the men who kept them could be found today.

But, although tally sheets were missing, the government was able to introduce testimony showing that every scale on the Williamsburg docks of the company had been tampered with.

Conrad Heller, a carpenter, testified to cutting out a portion of the wooden mechanism of No. 1 scales. Through the hole thus cut, the government contends, was operated the steel spring that manipulated the weights recorded on the beam.

Thomas D. Hyatt, a government weigher, was asked if he had inspected all 16 scales on the dock in company with Treasurer Agent Parr.

"Yes," he answered, "and I found

WHY WE DO IT.

It isn't often that we have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not cure said a Z. C. M. I. druggist to one of their many customers, "but we are glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan."

"The Dr. Howard Co., in order to get a quick introductory sale authorized us to sell the regular fifty cent bottle of their specific for half-price, 25 cents and although we have sold a lot of it, and guaranteed every package, not one has been brought back as unsatisfactory."

There are sixty doses in a vial that can be carried in the vest pocket or purse, and every one has more medicinal power than a big pill or tablet or a tumbler of mineral water.

Any person who is subject to constipation, sick headache, dizziness, liver trouble, indigestion or a general played out condition, ought to take advantage of this opportunity.

All the scales fixed in the same way. "With springs in them?" asked the judge.

"No, your honor, but the holes were there just the same."

Large discrepancies in the weights of various cargoes of sugar weighed at the docks by both the government and the company weighers were shown from the dock records of the company.

The weight of one cargo was shown by the company's record to be 28,000 pounds greater than the government weighers had found it. Thomas Kehoe, one of the defendants, checked this shipment. On another cargo, checked by Boyle, another of the accused men, the difference was 19,000 pounds in favor of the company.

Auditor W. G. Foster of the American Sugar Refining company was called to give evidence against James P. Bender, the cashier of the Williamsburg plant. He identified as Bender's handwriting one of the certificates of city weigher's returns.

ZELAYA PLAYING VERY FOXY GAME

Said to Have Evolved a Scheme For Resigning and Putting Jose Madriz in Power.

HE HAS UNUSUAL ABILITY.

State Department Cognizant of Conspiracy and Prepared to Act Vigorously.

Washington, Dec. 2.—Driven to desperation by the unexpected attitude of the United States, President Zelaya is now reported to have developed a plan whereby he can resign and still retain power. This consists in putting in the office of president of Nicaragua Jose Madriz, well known in Central American diplomatic circles as Zelaya's henchman and declared to be at Zelaya's beck and call.

The state department, it is declared, is entirely cognizant of the conspiracy under way and will act vigorously and promptly if occasion demands.

In the meantime neither the state department nor Nicaragua's officials will discuss the matter. Senor Rodriguez, charge d'affaires of the legation, insisted tonight that he has not heard from his government, and the state department likewise professed to be ignorant of the next movement of President Zelaya.

When the illegal plot for the continuation of the Zelaya power by proxy became known it threw the Central American contingency into a frenzy. One of the diplomats explained the reason for their perturbation.

"Jose Madriz is a man of exceptional ability," he said, "and one who could be extremely dangerous. He was plenipotentiary here for Nicaragua several years ago, but threw off his allegiance to President Zelaya and became a political refugee, eventually representing Salvador at the capital, Rivas. When the dispute between Honduras and Nicaragua was appealed to the court the only member of the tribunal who refused to sign the agreement was Madriz. His refusal, it was then understood, was due to the direct orders of Zelaya, who was anxious to test the interest the United States actually had in the contention and the standing of the various republics with your government."

"Now, it is plain to us here, Zelaya is desirous of finding a man whom he can command to put in the president's place. Naturally, he turns to Madriz, who has served him well, and with the exception of the one revolt, is to be depended upon. If Madriz finds his way to the presidency, conditions in Nicaragua will continue the same as before, because the rule will be Zelaya, even though by proxy."

SECY. KNOX'S ACTION SURPRISES ZELAYA

Managua, Nicaragua, Dec. 2.—The action of Secy. Knox in dismissing Senor Felipe Rodriguez, Nicaraguan charge d'affaires at Washington, has greatly surprised President Zelaya, who reiterated today his belief that the Nicaraguan government was justified in executing the Americans, Groce and Cannon.

Zelaya will take no action until he has received further information on the subject and learned definitely the intentions of the United States. The American vice consul, Mr. Caldera, a Nicaraguan by birth, but a naturalized American, is still at the consulate. In the opinion of President Zelaya, Caldera sympathizes with the opposition party, and a close watch has been kept on him, although there has been no attempt at restraint.

Zelaya expressed the belief that, in all probability, Consul Caldera's reports have been partial to the government's enemies.

FRANCO-CANADIAN TRADE TREATY RATIFIED

Ottawa, Ont., Dec. 3.—The Canadian senate has adopted the bill ratifying the Franco-Canadian trade treaty and it will be assented to by the government today. The French and Canadian governments will take immediate action to make the treaty effective before the first of the year.

The attention of Sir Wilfrid Laurier has been drawn in parliament to the fact that the consults of foreign countries have a very indefinite status in Canada. He states that the matter is one which should be regulated and adds that it is now engaging the attention of the British and Canadian governments.

FOUR MILLIONS FOR HOME FOR CONVALESCENTS

New York, Dec. 2.—A gift of \$4,000,000 for the founding of a home for convalescents in this city becomes available with the death in New York last night of John Masterson Burke, one of America's little known millionaires. The gift, one of the largest of its kind ever made, first became known in 1902, when Mr. Burke announced the organization of a board of trustees who are said to receive upon his death property valued at \$4,000,000, "which they were to spend for the institution and maintenance of a home for convalescents, as a memorial to his mother, Winifred Burke."

Mr. Burke died of pneumonia after a brief illness at his down-town home. He was 98 years of age and a bachelor.

Mr. Burke retired from active business nearly 50 years ago after amassing a fortune in South American trade.

Rastus Goes Fishing.

Rastus—"Yes, sah, Marse Henry. But Anty Drudge here, she done sho'd M'Lissy how to wash de clo's without no fah an' M'Lissy she say hit's as easy as rollin' off a log."

Anty Drudge—"That's right, Mr. Henry. Rastus had better be working than fishing, but Melissa doesn't need him. Fels-Naptha makes the biggest washing easy for one person in less time than the old way."

Do your washing without a fire next time. Save the bother, the discomfort and the cost of fuel.

Wash your clothes with Fels-Naptha in cool or lukewarm water, in summer or winter.

It's much easier—no hard rubbing is needed.

It saves the clothes because there's no boiling to weaken them and no hard rubbing to wear them out.

It takes less than half the time of the old way.

And this Fels-Naptha way of washing in cool or lukewarm water makes your clothes cleaner, sweeter, and fresher than if you boiled and hard-rubbed 'em ill Doomsday.

Don't take a substitute for Fels-Naptha because it will not do the work.

Look for the red and green wrapper and follow the directions printed on the back.
