being finished. Live-stock and exhibits brought in from outside towns-and there was more than ever this yearwere loaded into cars backed up to the north fence on railroad tracks, and the trip homeward was well under way before daylight yesterday morning. City exhibitors are taking away their stuff today and by tonight the big empty buildings will have little of the light and glory they boasted all last

This Year.

10

ALL RECORDS BROKEN.

The exposition for 1907 is a part of Utah's history now-a glowing, glori-ous paragraph. With \$20,000 to its credous paragraph. With \$20,000 to its cred-it from gate receipts the association feels that its efforts were successful, financially, and the public says the fair was a success in all the other ways. All records were broken Friday when 40,000 persons, including thousands of children, missed through the gates. The last day—Saturday—saw 25,000 ad-mission fees taken in at the gate, and as a majority of these, were aduit tickets, the last day compares well with the preceding day.

HORSE RACES PLEASED.

The feature which got more praise and bigger crowds than ever before was the horse-racing. With speedsters from all over the intermountain counfrom all over the intermountain coun-ity lined up in harness and running races each day, the races were speedler and more interesting than any held in this state for years. Such success were the races that both horse-owners and the public besieged Lester Freed and his staff and the fair management gen-erally, asking several days more run-hing. This could not be done, but next year will see this year's programs overshadowed. overshadowed

PLANNING NEXT SHOW.

PLANNING NEXT SHOW. A fair will be held next year. This decision was reached by the association officers after considering every phase of the question. The scheme of passing up a year was not favored. By some it is thought by holding a show every other year only, enthusiasm is created, but the director's learned by this year's ex-perience a good fair will take every year and the exhibitors are not, given time to let their interest die out if the show is held yearly. Next year's fair will be better and bigger, say the of-ficials and as proof of their sincerity point out that they have started prop-arations for it already. They are on-gaing open-air acts and drawing up contracts with big manufacturing com-pantes, livestock men agricultural expanies, livestock men, agricultural ex-perits, etc. One of the acts to be of-fered next year will be "Dare-devil Siefel," a "loop-the-loopist."

FINALE WAS NOISY.

FINALLE was a wild and noisy one. Young folks and old (in years), armed with the elastic paper mops and confetti, fought goodnatured battles, stopping the warfare now and then to watch Adgle and her lions, the Lan-dauer troupe or the fireworks, and then renewing the noise with increased vim. The grounds are now being raked and word of the litter and dirt left by the
