Thurlow Weed and the Silver Ques-New York, 20.—In correcting an error into which he had fallen, in a communication to the *Tribune*, Thurlow Weed writes to that journal this morning: "The warfare against silver seems to have originated with the comptroller of currency. I hope soon to submit my views of the reasons assigned by Mr. Knox and his correspondents for depriving the country of full one half o its constitutional ability to resume specie payment." Mayor Ely and the Peace Commis-sioners.

The Herald's London special says: The anxiety felt here as to the policy of government in rela-tion to the settlement of the eastern question is growing more intense from hour to hour. The cabinet councils, held in rapid succession and resulting in the announcement of the assembling of Parliament three weeks before the usual time, have created a profound impression. The curiosity felt as to the actual many years: in fact, we must go was chosen president. back to the time of the Crimean war for a parallel circumstance. The announcement of the early meeting of parliament, taken in conjunction with the recent visit of the Queen to Lord Beaconsfield and the opportune appearance of has much excited the public mind and cast an anxious place over the approaching Christmas festival. The Herald's Columbia, S. C. special says the State Senate, yesterday, referred to the committee on Federal relations, a concurrent resolution requiring a joint investi-gating committee to report the evi-Senate of the United States. It is not likely that the committee of Federal relations will report during the present session, if ever, and it is generally conceded that the troublesome matter has now been settled, even if indirectly.

In Favor of an Income Tax.

The Herald's Washington special says a sub committee of ways and means will probably report to the whole committee a proposition to re-impose an income tax, the object being to obtain by this means a decrease of the tobacco tax, and of one or two other internal taxes. The argument made in favor of an income tax is that the eastern and seaboard middle States now pay a far less internal tax than the north-States; that the property and pro-duction overtaxed in these latter, compared with the burdens borne by the former, and that an income by the former, and that an income tax would equalize the load. The western and southern members of the House very generally favor an income tax, and the measure is especially strong among the northwestern members, who say that government bonds are almost all owned in the seaboard States, that these are exempted from taxation, and that an income tax is the only way to reach bondholders.

Sitting Bull Reported as Having Crossed the Line. CHICAGO, 20 .- The Times' Helcna Montana special says the Fort Benton *Record* of the 17th, put-lishes the following. "Father Ger-

in arrived at the Marius River last night, Sunday, and sent a messer-ger to inform the military commander at Benton that Sitting Bull had crossed the line and was camped in the Bear Paw mountains with a large force of Slovx and Nez Perces. A man named Valentine is supposed to be killed. Thomas Todd arrived from Fort Benton, last evening, confirmed the above report. He also states that the Indians are burning the prairies south of the Bear Paw. Other parties report that Sitting Bull is on Miles' battle ground, and hat he has been joined by Lone Deer's band of 75 lodges.

IA Chicago Mining Stock Exchange. Several prominent Chicago gen-tlemen held a meeting, last night, to consider the feasibility of starting a mining stock exchange simi-lar to those of San Francisco and New York and a committee of five was appointed to report on the adwill report within a week. Among those present were Simeon W. King, A. J. Bell, Dr. Smith, Judge Adams, Geo. S. Lee, and P. W. Skinner. There is much interest felt here in California stocks, and it is believed that a board would be a great advantage to dealers and increase business largely.

Eagland and the Suoz Caual, etc. The Times, in its leading article, SCRAPERS! throws out strong in lications of s belief that Parliament will be asked to vote money for the purchase of further interest of some kind in Egypt, possibly the Khedive's re-maining interest in the Suez Ca-nal and the Porte's suzeralaty over Egypt. Financial articles are not marked with firmness in Fgyptian bonds yesterday, and ascribe it to political reasons. Among the rumored projects making necessary the summoning of Parliament, are increased armaments, war vote and the purchase of the Turkish fleet. Every attempt to strike out the new foreign policy for government revives, it is said, dissensions in the cabinet. The retirement of

Lord Derby, foreign minister, is by

The Supremacy of Great Britain. The Times says the supremacy of Great Britain is not endangered, at not threatened by the progress of the war, except so far as mutual cohesions of the whole Ottoman savoring of the character of war. We are not going to allow our interests to be bound up with the main-tenance of the Ottoman empire in its integrity or independence. A man from Boston would not confess astonishment at anything he saw in Nevada. As he was passing a hotel in Virginia City the cap blew from one of the chimneys. It was a circular piece of sheet-iron, painted black, alightly convex, and the four supports were like legs. The wind carried it down street, and it went straddling along like a living thing. The Boston man asked what it was, "A bed-bug from the hotel," was the reply. "By George, I never saw adything like that—"he began, and then added, "outside of Boston."
