# THE EVENING NEWS - August 9, 1869 LOCAL AND OTHER MATTERS.

SABBATH MEETINGS .- In the morning Elder Brigham Young, Jr., spoke upon the instances in the history of this church in which the providence of God had been manifested in its preservation, showing, therefrom, that the whole of its members ought in gratitude, to live that religion to whose truth they are always ready to testi-

1

President Brigham Young delivered discourse, chiefly, upon the extent of fe-male influence in communities, and the pecessity of that influence being directed and controlled in accordance with true

principle. His remarks were reported. In the afternoon President George A. Smith delivered an historical discourse upon the City of Nauvoo,-its settlement by the Latter-day Saints, their history while there, and the causes which led to its desertion by them. It was reported and will appear in the NEWS at an early day.

FIRE IN THE 14th WARD .-- About nine o'clock this morning a fire broke out in a two storey tenement building immediately west of Bishop Hoagland's residence in the 14th Ward, owned by Mrs. Schwartz. The fire originated in a room in the upper story occupied by an old Scotch lady, during her temporary absence. She had a quantity of iuel stored away in the room, and it is supposed a spark from her fire ignited some of the chips and sticks she had accumulated to burn. The fire was first discovered by amoke being observed issuing through the roof; every effort was made to stay the progress of the flames, which unfortunately was not successful, until the entire upper storey was destroyed and much damag done to the lower one, the floors and walls of which were all that was saved. The furniture, fortunately, was all taken out of the building before the flames injured it.

EVERY MAN TO HIS TRADE .-- Our establishment being rather short of gentlemen versed in the higher branches of astronomy we delegated our sporting correspondent to take observations of the collpse and return us a scientific account of the same. The following is his report: "Match between Sol and Luna. True to appointment Luna led cided impression on Sol's 'northern limb.' This was at 2.15 p.m. by our chronometer. By 2.30 our old friend Sol showed signs of suffering, as he began to look black in the face. Evidently in earnest, Luna 'went in' and gained ground considerably, getting a little in advance of Sol, at 2.45, 'local time.' By 3 p.m. any odds would have been laid that Luna would put an extinguisher over Sol, who sept smiling all the time. At 3.10 the old gentleman still 'blazed away,' but he shine was considerably taken out of his u, scarcely any traces of his benign countenance being left; in a few moments

BURK'S GABDEN, Tazewell Co., Va. Pres. Brigham Young.-Dear Broy From the time of my arrival in this field, up to the lat of May, I associated, for the most of the time, with Bro's. Boyle and Coray, who kept you informed in regard to the progress of the work in "Old Virginia," and other fields in the Southern mission. Since Br. Boyle's last report to you, the Virginia field has been placed in my charge, and I deem it my duty to still keep you informed in regard to the onward

movements of the cause in this part of the vineyard. Since the 1st of May we have baptized twenty-seven in this field, and organ-ized a branch of twenty-five members in Russell Co., Va.

We now have three regularly organ, ized branches in this field, numbering about one hundred in all. There is quite a number now awaiting baptum, who will be attended to at the time appointed.

The growth of the cause in this State exceeds my most sanguine expectations, and the work has received an impetus that carries it beyond my precencelved opinion. I can gaze complacently on the triumphant marches of truth in this age under the influence of a gospel dispensation, undisturbed by that intense eagerness and deep anxiety traceable in the furrowed brows of the volaries of worldly emolument, with despondency depicted in the countenance at the announcement of the failure of human schemes and the departure of human greatness to garth's dommon burial ground-oblivion. But we battle for truth, and "Truth is mighty and will prevail."

Bro. O. H. Riggs is with me at present, and has been with me since the 7th of June: he will leave in a few days for Pennsylvania to visit his relatives. before returning to his "mountain home" this fall.

I feel that God has peculiarly blessed our labors upon this Southern mission; I know he has. The signs, have fol-lowed the preaching of the gospel here to the healing of the sick, etc., confirming the words of Christ, enstamping upon the minds of the happy recipients of these blessings, the everlasting off by squaring up cautiously, making a de- truthfulness of the Gospel of Jesus Christ restored to the eatth in the latter days, and they realize the power of the Priesthood as it exists to-day, and is held by the Latter-day Saints. The Saints here, generally, feel well

and rejoice in the privilege of the gos-pel; all possess a spirit of gathering, which principle they are preparing to obey as soon as matters can be so arranged.

A great many of the people are growing tired of their creeds and schisms, te such contration find such it is not hard to show them the "Apostolic Church" of the nineteenth century; they can appreciate the fact that God is not eighteen hundred years distant, but he is the God of yesterday, to-day and forever. The State election is over, but I cannot see that the coudition of the people is, or will be, ameliorated in the slightest degree. I feel well on my mission and rejoice. in the spirit, when a full obedience to tions. its dictations is discharged by me, I d207 truly feel that a great and glorious work is to be accomplished, although the opposer usurps every means he can make use of. There are many who gather up to Zion with the expectation of folding their arms, and have every desire satiated without an exertion on their part, any when they find that Zion is built up by hearty co-operative hands, and they too must labor, they become dissit-isfied. Such never will make Saints Dry and never will attain unto an excellence in the Kingdom of God, unless they throw aside this detestable spirit of in-"There is no excellence withaction. Bro. Riggs and the Salnts oin me in love to you and prayers the you may long be preserved on the earth; also Brothers Geo. A. and Daniel H. and all. the brethren associated with you. Your brother in the bonds of the covenant, THEODORE B. LEWIS.

A T the request of many citizens and patrons of the Sait Lake Telegraph, the under-signed has concluded to publish the Telegraph in Sait Lake City, as a Morniag Paper, commencing at the earliest possible date.

It is proposed to furnish the Telegraph to ubscribers by carriers, who will collect according to subscription, and whose interest it will be to deliver the paper with punctuality and regularity at the houses of their patrons, The credit system which has heretofore prevalled in publishing papers in this country has een very prejudicial to alt concerned. It has been ruinous to the publisher and unsatisfac. tory to the patrons of the paper. Belleving that the growth and advancement of the city demand it, we design, if the public will support us, to issue a paper that will contain the news of the whole world, and make such improvements in conducting it as our past experience will enable us to do; and to obviate the credit system we will receive subscriptions by the week month, quarter, half-year and year. Subscriptions can now be handed in to the office of the Sait Lake Telegraph, in this

STILL ALIVE .- The young man Buys, said to be from Centreville, Davis Co., who was so nearly murdered a few days ago at Hamilton, White Pine, was alive on the 4th instant. The Daily Inland Empire of that date sava:

"Young Buys, so brutally injured in this city city last Friday night, and subse-quently removed to the County Hospital, still lives, but there is little hope of his ultimate recovery. Since the trepanning operation, which was performed on Sunday morning, he has shown more symptoms of rationality; but on account of the paralyzed condition of the throat and tongue, he is un-able to speak as yet. On the whole, Dr. Willard does not think his condition has materially altered in the last twenty-four bours."

FILLMORE.-Elder John L.Smith favored us with a brief call this morning. He reports everything in a prosperous condition in and around Fillmore; the last remnants of the locusts were taking their departure, last Tuesday, the day Bro. Smith left. They had done a good deal of damage to the late crops, but the farmers of that district would reap a splendid crop of early grain. The election passed off quietly; a large number of votes were polled.

IN TOWN .- Mr. P. B. Groat, General Ticket Agent of the Hannibal and St. Joe R. R., Mr. W. D. Hitchcock, General Western Passenger Agent of the H. and St. Joe R. R., Mr. John S. Garland, General Passenger Agent of the Indianapolis and St. Louis R. R., Mr. C. M. Wicker, General Passenger Agent of the North Missouri R. R., and M. W. Willis, Commissioner of the Missouri State Board of Immigration, are at present in the city on a business trip in the interests of their respective agencies. Mr. Willis is going to California to see after the Chinese immigration.

MANTI. - Our correspondent, J. C. Brown, Esq., sends us a flattering acount of the prospects for a most bountiful harvest in San Pete Co., which, notwithstanding the introduction of numerous laborsaving machines, is occupying the entire time and attention of all the available labor time and attention of all the available labor in the county. He states that in Manti the Co-operative Store is doing a good each business, under the direction of Bishop Moffit, the President, and the Board of Directors. A dividend that gave general satisfaction was declared last month. The Female Relief Society, with Mrs. A. Wash-burne as Presidentess, was doing a vast amount of good in succoring and comfort-ing the needy. ing the needy.
