MINING, BUSINESS AND STOCKS.

OPERATIONS AT THE J. I. C. MINE

Shaft to be Let Down 300 Additional Feet.

WORK TO COMMENCE AT ONCE

New Equipment is in Perfect Running —Manager Turner Will Leave for Scotland Next Week.

Manager G. B. D. Turner of the J. I. C. mine at Park City, is down from camp again after seeing the equipment, recently added, installed and placed in perfect working order. He states that orders have been promulgated for the sinking of the main working shaft an additional 300 feet and that the work will be undertaken immediately.

The company is operating the property upon a favorable bond and lease, and intends to keep a most vigorous campaign going on during the present year.

Having arranged affairs so that his presence will not be required, Mr. Turner will leave the mine in charge of competent hands and take his departure on the 10th inst., for Scotland, where he goes to consult with some of the larger shareholders. He will be absent from Utah about two months.

The management of the Great Western Gold and Copper Co., whose domains extend over a vast area near Brighton, is preparing to let a contract for the driving a tunnel ranging from 1,500 to 2,000 feet in length. Bids are now being received by Manager David Evans.

AMALGAMATED FIGURES.

Some Reasons Explained for the Prevailing Market Price.

So much has been said of late about the cheapness of Amalgamated copper stock, and inasmuch as advice has been given to buy it for a rise of 30 points from some sources, a correspondent of a Boston publication, the Herald, has given out some information concerning this big Montant concern, which, no doubt, will be of interest locally, as follows:

"The Amalgamated Copper company was incorporated April 27, 1899, with a capital of $75,000,000, and subscriptions invited for this stock at par $100 to May 1, 1899. Such was the demand for the stock that the entire capital was reported oversubscribed five times and subscribers only received 20 per cent allotment. The stock was traded in on the curb in 1899, selling at first as high as $110, and yet, notwithstanding the tremendous demand for it, the price yielded to $77 that year, the company paying dividends at the rate of 8 per cent per annum, ½ per cent regular and ½ per cent extra quarterly. This rate of dividend was maintained from October, 1899, to July, 1901, inclusive, and yet during the year 1900 the stock sold from 89¾ low to 99½ high, and it was not until the promise was held out in 1901 that the dividend rate would be increased to more than 8 per cent, that the stock sold above par.

In June, 1901, the stock reached its highest figure, $130, evidently manipulated for the purpose of unloading, as the capital stock was then doubled for the purpose of exchanging for Boston & Montana and Butte & Boston. For the latter, which was capitalized at 200,000 shares, par $10, the Amalgamated company gave an equal amount of its own stock, par $100, but which was then selling at $130, thereby paying for the Butte & Boston property $26,000,000; besides which it had a bonded debt of $1,500,000. Since the acquisition of this property the Amalgamated company has received on it only one dividend (Oct. 15, 1901), $2 per share, or $600,000. In all probability the stock of the Butte & Boston, if on the market today, would not be selling for over $3,000,000, $15 per share. As soon as this deal was completed the stock of the Amalgamated company immediately declined, selling as low as 60½ in the year 1901, although the company paid a dividend at the rate of 6 per cent Oct. 28, 1901. In 1902, the January dividend was reduced to 4 per cent, and in May, 1902, to 2 per cent per annum, where it has since remained, the stock selling from $79 in February, 1902, down to $53 in November, 1902. Now, if on a 8 per cent basis the stock was selling under par most of the time, I sumbit that on a 4 per cent basis, which is the rate they are now talking for the next dividend, $60 to $65 is a full price for it. But they say it sold at $130 when copper was 17c, and now that copper is 15c it ought to sell considerably higher than it is selling. But the price, $130, was on the expectation of an increase of 8 per cent or more in dividends, and on that basis $30 would be nearer the value of a 2 per cent stock than $53; and should the dividend be doubled I think the stock is selling as high as it ought.

MINES AT FISH SPRINGS.

Supt. Crismon Arrives From the Utah — At the Galena.

Supt. Charles Crismon of the Utah mine at Fish Springs came in from camp last night and reports everything progressing favorably at that property. The output of the mine, the superintendent states, was not as heavy as it would have been had he not been compelled to work short handed.

There seems to be a scarcity of miners, not only in this camp, but in others. The same condition has prevailed at Stateline, where the Johnny company has been unable to secure sufficient help.

At the Galena mine, also in the Fish Springs district, the new hoist which occupies the place of the one destroyed by fire a few weeks ago, is in operation. Mr. Crismon states also that the management of this property is hoisting and sacking some very nice looking ore for shipment.

To-day's Metals:

SILVER, Bar, 52 7-8 cents
LEAD, $3.75.
CASTING COPPER, 13 7-8 cents a lb.

NEW YORK METAL PRICES

Lead quiet, 4.37½.
Copper, quiet, 14.75@14.87½.

HIGHLAND BOY EXISTS NO MORE

Big Bingham Bonanza Now Operated as Utah Con.

AN AMERICAN CORPORATION

Will be Conducted as Such in the Future—Manager Channing Returns From the East.

The Highland Boy Gold Mining company, which, since its organization, has operated in Bingham, has passed out of existence. It will be operated hereafter under the name of the Utah Consolidated Mining company of New Jersey, which filed its articles of incorporation several weeks ago with the secretary of state at Trenton. The company is capitalized for 300,000 shares of a par value of $1 each, and has absorbed the former English company of the same name and capitalization. It is now distinctly an American corporation. Although the Highland Boy mine has been owned by the Utah Consolidated for some time past, it has never ceased to be conducted under its original name. But all that is changed and the mine and smelter will be operated under the title of the new American corporation.

This much information was released by Manager R. H. Channing, who returned last evening from New York. Regarding the future of the great Bingham bonanza, which led all others last month in the production of copper bullion and from which the model smelting plant at Murray is receiving a daily average of no less than 515 tons of ore, it was expected that the manager would have something to unbosom regarding a probable enlargement of the present plant, but upon that subject he had no information which he cared to divulge at this time. It is believed ultimately that plans of this kind will be carried into execution, but how soon an event of this kind might be looked for Mr. Channing would not give an inkling.

UTAH-APEX OFFICERS.

"Reggie" Ward is the London Representative of Enterprise.

The information has been released that the officers of the Utah-Apex Mining company, mention of which was made in yesterday's "News," are: President E. W. Hastings, of the firm of Devins, Lyman & Co., Boston; treasurer, J. W. Horne, of the Federal Trust company, Boston; who, with Everett B. Webster, of Schirmer, Armstrong & Co. of Boston, W. J. Carlin, of the Federal Trust company, and A. J. Orem, the latter of this city, constitute the board of directors.

Everett B. Webster is recognized as being one of the shrewdest promoters and financiers in Boston. In London this new Bingham undertaking is represented by the famous "Reggie" Ward, of the firm of Clark, Ward & Co.

COMPROMISE EFFECTED.

Millionaire Morrison of New York Has an Unpleasant Experience.

San Bernardino, Cal., June 4.—A. P. Morrison, a millionaire mining man of New York, today entered into a compromise with M. J. Smith, D. T. Jackson and W. C. Price, against whom he brought a sensational suit to recover title to valuable mines on the desert and $150,000, which he alleged they had by fraud secured from him.

Morrison has sold mines on the desert in this county for $25,000, and was induced to part with $84,000 in their development. Then he found that the mines were worthless. He sued the former owners of the property and two of their number, M. J. Smith and W. C. Price, have agreed to deed to him a one-third interest in each of the mines on the desert, and the suit was dismissed. Jackson, the third member of the trio, left the country after the suit was filed, and has not been heard from since.

COPPER BULLION OUTPUT.

Figures for May Reached Over $3,000,000.

The several smelting concerns operating in the valley have balanced up their May accounts and the balance sheet shows that during that period a total of $3,059,845 pounds of copper bullion dispatched to the refineries of the east. The Highland Boy plant heads the list with 1,014,000 pounds to its credit; the American Smelting & Refining Co. with $960,000; the Bingham consolidated, $603,000, and the United States, $482,845. Besides this the American has a large tonnage of base bullion to its credit.

The smelters of the valley a re reducing in excess of 3,000 tons of ore per day.

MINING CONCENTRATES.

The ore and bullion settlements made late yesterday reached the sum of $126,100, as follows: Ores, $52,700; base bullion, $73,400.

L. H. Oulzen, manager of the Annie Laurie Extension was in the city yesterday.

Supt. Steve Baldwin of the Ella Hill property, Neal district, Ida., departed for camp last night.

Will J. Lawrence will depart for the Lawrence Con. property in Idaho the latter part of the week.

A. K. Tiernan has returned from a trip to the diggings.

Theodore Hatfield has gone to the Albion mine at Alta again.

At a meeting of the directors of the Joe Bowers Mining Co., held yesterday afternoon, F. P. Gridley was chosen manager.

Managing Director Henry M. Crowther, of the Blue Acre Copper company departed on a trip of inspection to that Beaver county proposition last evening.

G. L. Moats, manager of the Latham Mining and Smelting company, is expected home from Nevada tomorrow.

E. H. Hills, secretary of the Four Metals mine of Deep Creek, will get away for England tomorrow morning.

The Taylor & Brunton sampler receipted for 10 cars of ores today: Three from Frisco, one from Stockton, one from Nevada and five from Tintic.

One car of Tonopah ores reached the local market today.

Manager O. J. Salisbury of the Daly-Judge is at that Park City property today.

ESTEEM FOR A BROKER COLLEAGUE

Members of the Stock Exchange "Caned" Herman Hill.

PRESENTATION BY PEERY.

Recipient Replied in a Happy Vein —Departed at Noon Today on His European Tour.

Herman Hill, whose retirement from the floor of the stock exchange was announced yesterday, was subjected to a "severe" caning this morning just after the regular call. Mr. Hill departed today for Europe to be absent for an indefinite period; but before leaving he dropped into the exchange to bid his former colleagues good-bye and among other things to distribute the contents of a freshly opened cigar box among the members of the organization with whom he had enjoyed the most pleasant relationship. But little did he realize that he had run into a trap until President Peery mounted the caller's bench, called the brokers to order and began directing his remarks to him.

In a few, but appropriate words, the president presented the retiring member with a beautiful gold-headed cane. The head of the stick was adorned with a head, representing that of an American eagle, with ruby eyes and open beak, upon which was inscribed "Herman Hill. Compliments of Broker Colleagues, Salt Lake City, Utah."

In his presentation speech President Peery said that the members of the exchange deeply regretted Mr. Hill's retirement and referred to the fact that the recipient had been an active member of the exchange from the time of its inception and had always labored incessantly for its general good. He spoke of the "ups and downs" experienced by the organization; but at times in its early history when its success was not the brightest, Mr. Hill maintained the belief that the organization would grow and become a power for good in the community.

Mr. Hill accepted the present with due grace and replied in a happy vein after which he was bid God speed on his journey to his fatherland.

THE FOHENGON CALL.

Park City and Tintic Stocks Were In Demand.

A total of 14,285 shares were sold in the pit of the stock exchange this forenoon, for which was checked out the sum of $18,916.75.

Park City favorites were again in evidence, there being in the hands of brokers a considerable number of orders for them. A block of Daly sold at $1.80. Daly-Judge was shoved out at the beginning at $10.80 per share, but the sellers were anxious to realize and they dropped down to $10.75, in order to clear up. Daly-West was not quite so strong as yesterday, buyers getting it 10 cents under the prevailing price then.

Tintic stocks still continue in favor and Eagle & Blue Bell was in eager demand at prices ranging from $1.00 up to $1.15. Lower Mammoth held firm around yesterday afternoon's closing quotations, while Star Con. was inclined to be weaker. Uncle Sam jumped up a few notches.

On the open board a buyer was on hand, asking for Majestic, which was furnished at $3.45 per share.

The closing quotations posted were as follows:

FROM THE PACTOLUS.

Judge W. A. Sherman Returns from Nevada Camp.

Judge W. A. Sherman, under whose able management developments at the Pactolus mine, in the district of that name near Tonopah, are being conducted has returned from the Nevada camp, where he left work progressing very favorably.

The new whim sent from Salt Lake some time ago has been installed and from this time on a very vigorous campaign will be carried on.

GENERAL MARKET WAS ATTACKED

Opening Very Feverish With Heavy Dealings.

BUYERS MUCH DISTURBED.

Caused by Large Sales of Stocks for Which There Were No Supporters.

New York, June 4.—The tone of the opening market was feverish and there were heavy dealings in some of the leading stocks, including Pennsylvania, St. Paul and United States Steel. The Canadian group was inclined to advance. Pressure against Pennsylvania, which touched 125⅛, a new low record on the movement, undermined the market and the leading trunk lines and Pacific stocks fell a point or more below last night. Minnesota & St. Louis dropped 6 and Northwestern 4½. Amalgamated Copper was forced down 2 by large selling. Sugar declined 1½ and some minor specialties a point or more. The market steadied and became dull at noon.

Bonds were dull at midday.

Traders returned to the attack on the general market when selling broke out again in Amalgamated and Pennsylvania. The large sales of stocks for which there was no apparent support disturbed buyers in stocks. Amalgamated dropped to 54 and Pennsylvania touched 124⅝. Large inroads were made on the prices of various other stocks, especially St. Paul and some of the coalers. Union Pacific and Atchison lost 1⅝.

Occasional pauses were made in the selling campaign, but an effort to force a recovery speedily brought out fresh offerings and prices fell to a lower level than before. The pressure was largely concentrated against Amalgamated, Pennsylvania, St. Paul, Atchison and the Pacifics were also pressed at intervals. Later in the day losses had been made of 3½ in Amalgamated Copper, 2½ in Union Pacific, Smelting, Southern Pacific and Delaware & Hudson, 2⅝ in in St. Paul and Atchison, and 1 to 1½ quite generally elsewhere. Northwestern was down 5⅝ in all. Twin City Rapid Transit relapsed to 1¼ under last night.

Prime mercantile paper, 4½@5¼ per cent.

Sterling exchange slightly easier at 4.88.05@4.88.15 for demand, and 4.85.10@4.85.15 for 60 days.

Lewis' 98 % Lye,
Powdered and Perfumed.
(PATENTED.)
The strongest and purest made. Unlike other Lyes, it is finely powdered, packed in a can having two lids, one easily cut and the other removable for constant use. It will make the best Perfumed Hard Soap in 20 minutes without boiling. It is the best for cleansing waste pipes, disinfecting sinks, closets, cleaning paints, bottles, barrels; washing trees and killing insects; for engineers and machinists' uses; for painters, to remove old paints, etc.
