Work is Being Pushed in The Bullock Property.

Special Correspondence, Special Correspondence. Provo, Aug. 31.—Ben H. Bullock is in from the Bullock mine in East Tin-tic, which has just shipped its fourth car of ore, valued at \$384.16. Work on the mine is being pushed steadily. There is a fine three foot yein of cop-per-silver ore, which is now being taken out in the stope from the 150 foot level. The north drift is widening out and

southern Utah oil fields will oon be the scene of great activity, ac-ording to information just received

soon be the scene of great activity, ac-cording to information just received from George Montgomery, a moving factor in the developments of the new discoveries. Mr. Montgomery has shipped one well drilling outfit to the cil region, and another will follow in about a week. It is also stated that there will be 10 oil rigs in the field by the first of October. This machinery is all being shipped from the oil fields in the vicinity of Los Angeles, and there will be little delay in trans-ferring them. Other firms are active in opening up the new oil region, and at least two other machines are being pre-pared for shipment, one of them capable of sinking a hole 1,500 feet deep, according to information re-ceived by C. D. Porter.

GOLD MOUNTAIN NEWS.

Clyde Property Looking Good-Some Tintic Asays.

A. Singleton of Provo was on the train Sunday returning from an in-spection trip to the Bonanza and Golden Queen properties on the north fork of Deer Creek in which he is a lead-ing stock holder, says the Richfield paper. Mr. Singleton was highly pleas-of with the shear ed with the showing now made on both properties. Word comes down from the Clyde

property in Cottonwood this week of property in Contonwood this week of a magnificent condition just brough to light in that property. Last week the Reaper stated that work was being prosecuted in a shaft, following the vein down to determine the course of operation in the tunnel. This vein has been carrying good ore running from been carrying good ore running from \$70 to \$80 per ton. Last week the vein had reached a width of 20 feet and the values have run up to about \$125.

Hy Hannon was down from the anti-mony diggings near Coyote last week He says that preparations have been under way all summer building and under way all summer building and equipping plauts to treat the ores. Some of these are now about ready to be started up, and soon the camp will be an important one. A big field of antimony has been developed during the past year and is now in shape to keep the plants in operation steadily. Several companies and private individ-uals are operating properties

Several companies and private individ-uals are operating properties. The party consisting of messrs G. J. Palen and H. C. Bloom of Pilladelphia and others, who visited the Gold Devel-opment company's, properties last week, returned Friday. They made a thorough inspection of the workings and are well pleased with the showand are well pleased with the show-ing. They are confident that import-ant news will come from the property ant news will come from the property before many weeks. They were ac-companied from the mountains by Supt. Ole Larsen and enjoyed a fish-ing trip, under the escort of friends here, to the Clark ponds, where they spent a few delightful hours in throw-ing lines and drawing fish.

TINTIC DIVIDENDS.

What Uncle Sam and May Day Will Do Next Month.

E. J. Raddatz was in Eureka during this week attending to some prelim-inary matters that were necessary in connection with the forming of a new mining company that will develop ground in East Tintic that has been secured on an option from John Bes-tlemeyer, Joseph Michlich, George Ha-vercamp, W. H. Freshwater and oth-ers. What the Tintle mines are going to do next month in the way of divi-dends is a matter being discussed by local investors. The strength displayed by May Day and UnCle Sam Consoli-dated during the past week is taken as evidence that when the directors meet next week, they will announce an increase in the amount of their res-pective distributions. The statement came from a reliable source during ers. The Lower Mammoth mine is closed down and will remain so for probably a couple of weeks, or until the new electrical hoist is taken into the tun-nel of the mine and put into position. The new hoist is one of the largest electric plants of the kind in the state, came from a reliable source durin the day that the Uncle Sam company the day that the Uncle Sam company would pay 3 cents a share, or \$15,000 in September and that the May Day company would distribute 1½ cents a share, or \$12,000. One half of the latter will go to the Uncle Sam Con-solidated company, which is the own-er of a half interest in the possessions of the May Day company of the May Day company, which is the own-er of a half interest in the possessions of the May Day company. It is believed that the Knight mines will repeat what they did last month.

electric plants of the kind in the state, and with it the company can sink its workings to a depth of 3.000 feet. The old hoist will be Lansferred to the May Day and placed in operation over the workings of the Uncle Sam, which is now a part of the May Day. This will not be done at once, however, as Supt. Griggs of the latter company states that it is not desired to interfere with the output of the mine at present. John Anderson and Adolph Aimes, who are leasing in the Bullion Beck John Anderson and Adolph Aimes, who are leasing in the Bullion Beck mine, opened up a streak of very rich native silver ore in their ground upon the 400 level this week. The Iron Hat Mining company is the latest Tintic corporation to file articles with the secretary of state. The com-pany was launched in Salt Lake Tues-day with the following officers: C. P.

E. J. Raddatz was in Eureka during

any was launched in Salt Lake Tues-day with the following officers: C. P. Harvielle, of Mammoth, president; George N. Lawrence, of Salt Lake, vice president; C. E. Huish, of Eureka, treasurer: N. A. Robertson, of Salt Lake, secretary, and these with Thomas Hillman, comprise the board of direc-tors. The company owns a valuable group of claims just north of the old Noon Iron mine in the eastern part of the district, which will be developed. a block of treasury stock having al-ready been put upon the market for that purpose, and It is stated that work upon the property will be started with-in the next few weeks. The company's office will be at Salt Lake City. POWER IN NORTH TINTIC.

POWER IN NORTH TINTIC.

The electric line of the Telluride Power company has nearly been com-pleted to the Selma Mining company's property in North Tintic, and when this is done the Selma company will install electricity in the operation of drills in the mine. The necessary equipment is expected to arrive any time now, when development work will be vigorously prosecuted. No holst-ing plant will be necessary at the Sel-ma, as the company intends to continue the development through the tunnel that is now well in the mountain side and out of which some fine samples have been taken. This property is near the Gold Blosson which in the past has shipped some good gold ore. At a meeting held the early part of the week of the McKinley Mining com-pany, it was decided that new ma-chinery was necessary at this property, and the president, W. D. Myers, states that this machinery has been ordered, and that when it arrives and is not The electric line of the Telluride and the president, W. D. Myers, states that this machinery has been ordered, and that when it arrives and is out operation, the company will be enabled to make much better progress in the development of the ground. A hoist-ing plant will be installed, and in all probability it will be equipped with electric power. Jerre Driscoll and P. J. Fennel left today for Nevada, where they are in-terested in the property of the Chero-kee-Nevada Mining company.

VISITS KNIGHT MINES.

J. H. Frisby, the mayor of Provo, was in Eureka Saturday and Sunday. Mr. Frisby is interesting himself in some of the Knight properties in the eastern part of the district and his trip here was for the purpose of in-specting some of them. D. J. Russell and Orris Jarmin re-turned Monday from a visit to the mu-

D. J. Russell and Orris Jarmin re-turned Monday from a visit to the min-ing interests of American Fork canyon. They state that there are several good mines there and many very promising

PATENT SURVEYS.

ants. Survey No. 5,781, Sultana Nos. 1, 2, 3, 4, 5, 7 and Free Coinage lodes, Co-lumbia mining district, Tooele county; New Sultana Mining company, claimant.

SMELTER MAY CLOSE.

SMELTER MAY CLOSE. Nelson, B. C., Aug. 30.—During the past 30 days the Hall Mines smelter has shipped more than \$200,000, the semi-final results of a cleanup that has been going on for six months. The smelter bins are empty of ore, the one furnace running solely upon the mat-ter that is left, together with a little dry ore purchased in carload lots from time to time for fluxing purposes. There is barely 10 days' run left. All the employes are now engaged from day to day. Circulars have been sent to the cli-entele of the smelter asking for defi-nite contracts for a regular supply of ore. The smelter is thus in a po-sition for reconstruction and addition, the whole facts now being about to be iald before the London shareholders. A sum less than \$100,000, supposing the contracts asked for to be satisfactory, would probably place this smelter upon

would probably place this smelter upon a modern basis.

 be kept up for some time and the in 1bid: Nevada Boy, 70 bid: Black Butte

and Mexican Gold Fields, limited. This company recently refused an offer of \$1,500,000 from Col. Greene for the property. The Greene Gold-company will operate the min the pending deal goes through. Gold-Silver mines if Capt. Duncan McVichie, one of the ading engineers on the staff of F. Capt. Duncan McVichie, one of the leading engineers on the staff of F. Augustus Heinze, has completed an examination of the recent rich strike on the Lizzie claim of the Davis Daly mine at Butte. Capt. McVichie re-ports 30 feet of vein body on the strike, with the ore running more and more valuable as the examination progresses. The lessees of the Lizzie now are shipping regularly to the now are shipping regularly to the Washoe smelter, A. P. Debarnardi, a member of the Utah Copper company's staff of cap-able accountants, has returned from his vacation which was spent very' pleasantly in California and Nevada. On his return Mr. Debarnardi took advantage of the opportunity to visit Tonopah, Goldfield and Rhyolite, where he took a peep into some of the mines. the mines. ********************* SALT LAKE BANK CLEARINES
