

## ROOSEVELT WANTS A SQUARE DEAL.

Asks the Newspaper Men of Colorado Not to Follow Him in The Hunting Grounds.

NO BRASS BANDS ARE DESIRED.

If Request is Not Granted the President Will Probably Give Up His Hunt.

Colorado Springs, Colo., April 14.—Fully 10,000 people assembled at the Santa Fe depot tonight to welcome President Roosevelt. Grand Army veterans were lined up on the platform and a band entertained the crowd during the wait.

Promptly at 7:30 o'clock the presidential train pulled into the depot. Wild cheering greeted the president as he stepped out upon the platform of the car. The president responded to cries for a speech, saying in part:

"Let me say one word of special greeting to the veterans of the Grand Army. To you, my comrades, I wish to say that I have just come up from Texas and it would have done you hearts good—you men who wore the blue in the great war—to see how, side by side with your comrades who wore the blue, stood the men who wore the gray, united with them now forever and ever with one flag and one country. Delighted though I was with every feature of my reception in Texas, I think that the feature that pleased me most was that of which I have just spoken—to see the ex-union and ex-confederate veterans standing together under the old flag. (Cheers.)"

"Now I am going to make a request of the people of Colorado. I am off on a hunt. One thing you cannot do on a hunt, and that is to carry a brass band. You cannot combine hunting with a Fourth of July celebration. Seriously, I am going to beg the people of Colorado to treat me on this hunt just as we do as the people of Texas and Oklahoma treated me on the wolf hunt. If a lot of newspaper men start to come in after me I will have to come home, that is all there is to it. The thing they can do that will please me best is to let me be on that hunt alone and pay no earthly attention to me or any of my party while I am off in the mountains. I want to ask the newspaper men, and especially the newspaper men of this great state of yours, a fair show and not to try to follow me up. If they do it probably will mean that I shall have to give up the hunt. If they don't do it, I will agree that if anything of any early interest happens I will have the news sent out."

At the conclusion of the address, the president was taken in an automobile to the home of P. B. Stewart. There he received a delegation from the chamber of commerce at Denver, and accepted an invitation to the city of Denver, returning from his hunt. At 10 o'clock he went in motor preparations for his departure for Glenwood Springs, and then the president returned to his special train. Promptly at 9:30 the train pulled out of the station, the president standing bareheaded on the rear platform waving his handkerchief to the crowd. The train is due to arrive at Newcastle tomorrow morning at 8 o'clock.

### VERDICT IN VILARDO CASE.

Coroner's Jury Finds He Came To Death at Hands of Torturieri.

San Francisco, April 14.—"We the jury find that Blazio Vilardo, aged 28, activity, Palermo, Sicily, occupation, laborer, residence 738½ Green street, this city, came to his death on the 14th day of April, 1905, at his residence from shock and hemorrhage from compound fracture of the skull and incised wound of the throat at the hands of Pietro Torturieri, and we hereby charged the said Pietro Torturieri with the crime of murder."

The above verdict was rendered today in the case of Blazio Vilardo.

### JUDGE HOOKER SCORED.

For His Connections With Post-office Appointments.

Albany, N. Y., April 14.—In vehement and scathing terms, the alleged acts of former Congressman Warren B. Hooker of Fredonia, now a justice of the supreme court, in connection with appointments, rental matters and certain litigation affecting the postoffice at Fredonia and Dunkirk, Chautauque county, were characterized by the assembly judiciary committee today by Frank W. Stevens, representing especially the Jamestown Bar association, but speaking as counsel for all the bar.

## My Life

Hung On a Single Thread With Heart Disease.

You should never wait until your life hangs in the balance before you give the necessary aid to your sick heart.

A weak heart is always serious, for it affects every organ of your body through its inability to purify and keep the system supplied with pure, rich, life-giving blood.

Any indication of heart trouble, such as shortness of breath after exercise, redness of face, hot flushes, oppressed feeling in chest, weak, hungry spells, palpitation, dizziness, sudden starting in sleep, irregular pulse, is serious, and should be cured at once.

The safest and surest treatment is Dr. Miles' Heart Cure, a nerve and muscle builder, a blood tonic. It acts directly on the heart nerve and muscles, giving them strength and vigor, and relieves every symptom of a sick heart.

Your life depends upon your heart, and a weak, diseased heart, like a single thread, can endure but little.

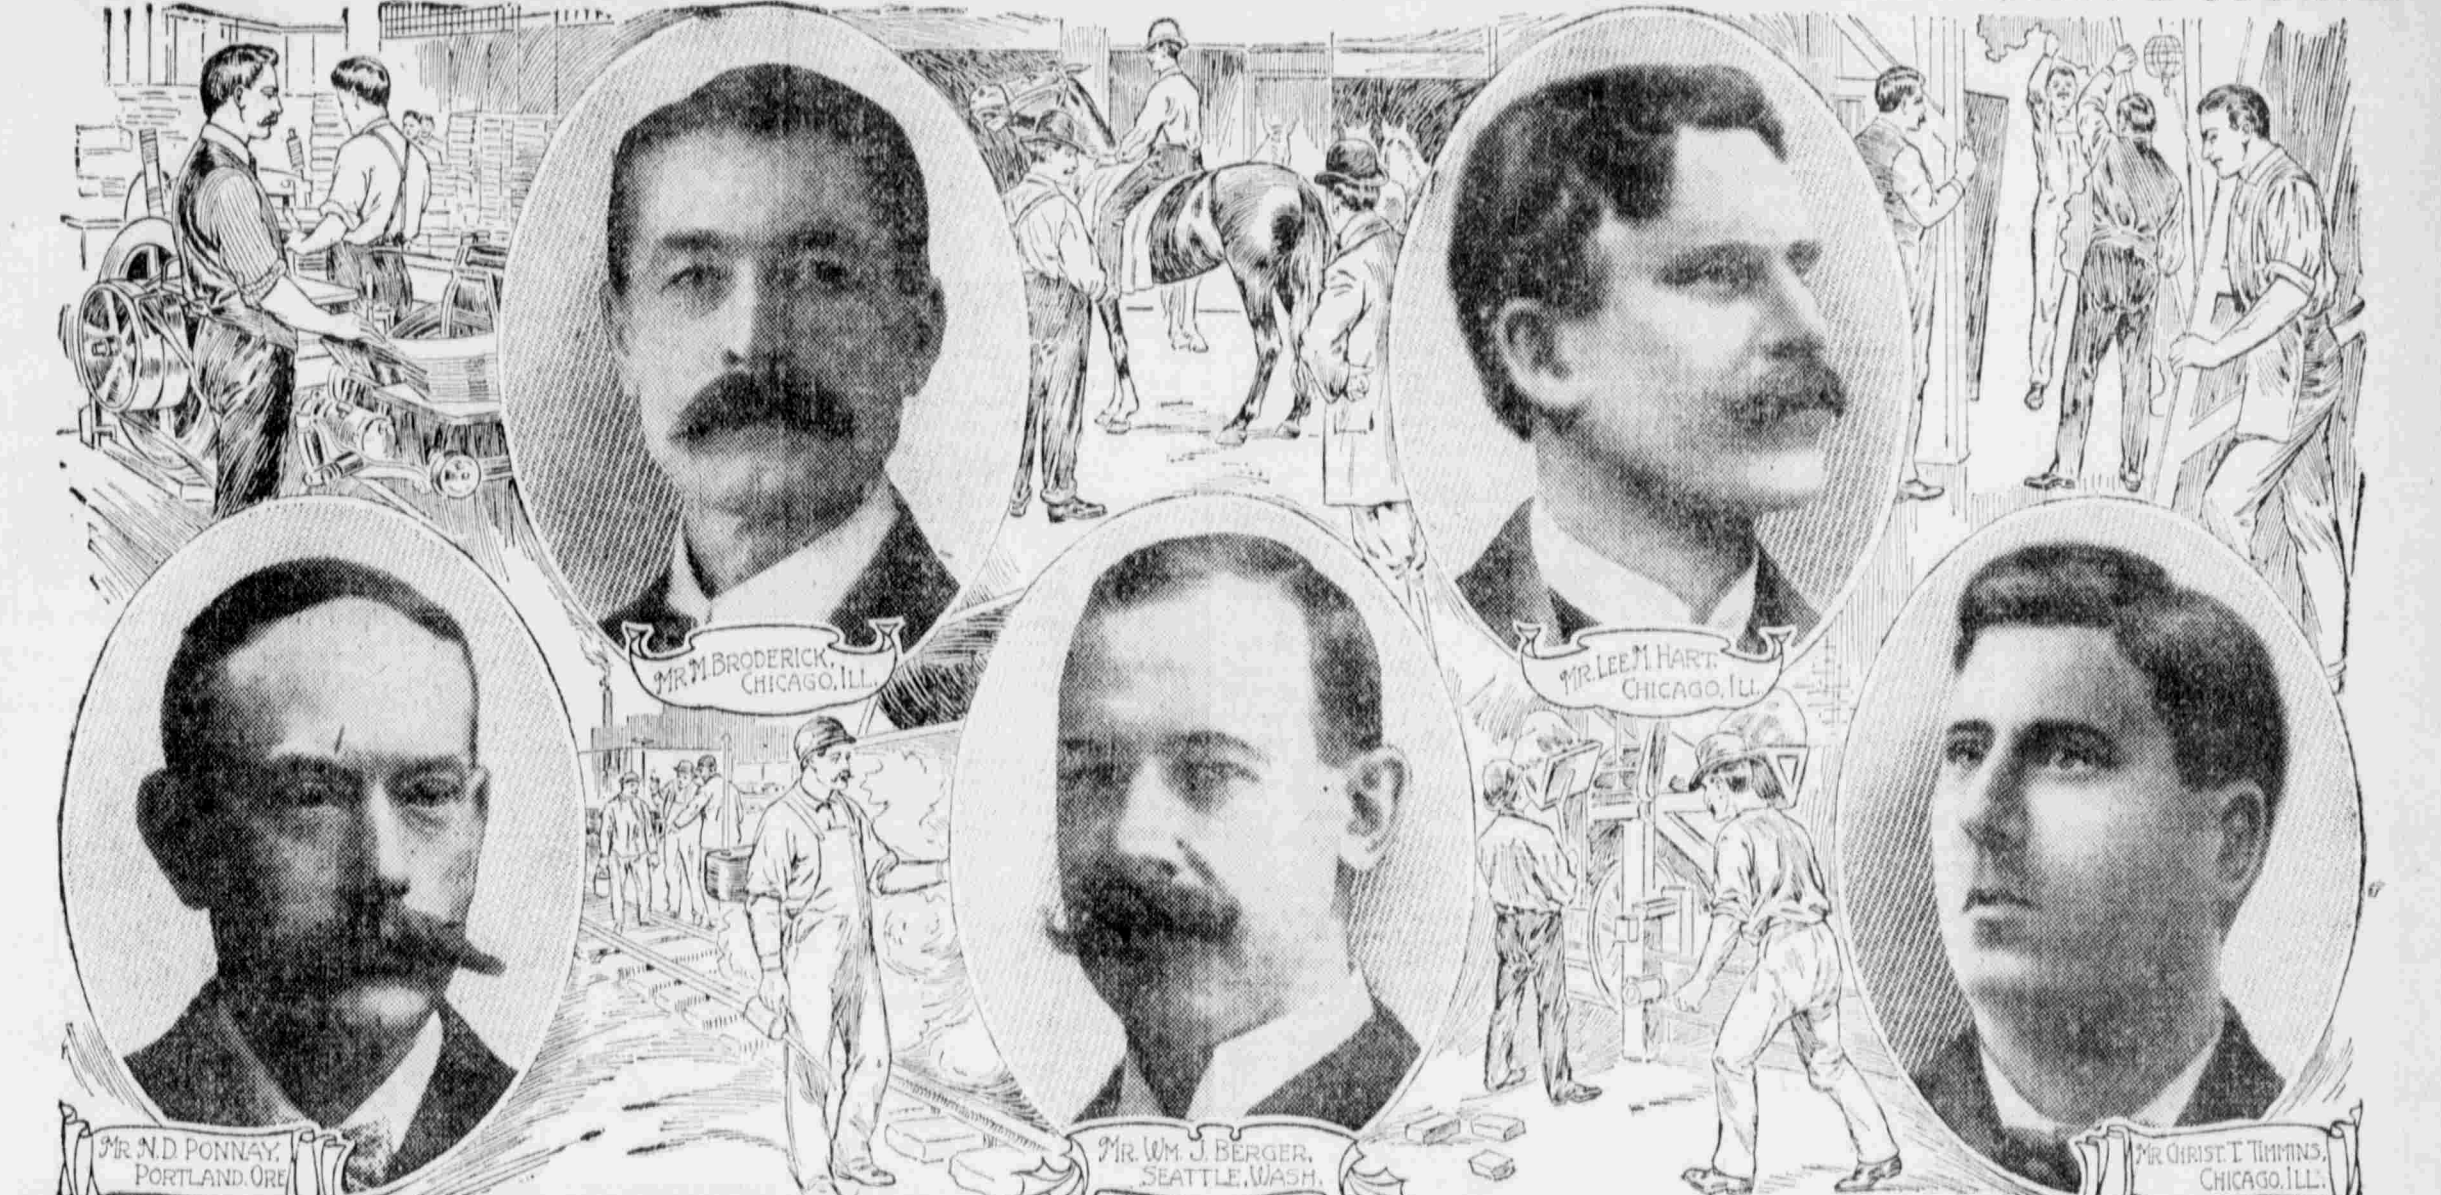

"I suffered for years with my heart. At times my life hung by a single thread. A number of physicians and an eminent specialist treated me. Without the Heart Cure, I could not have lived. I am now able to attend to my affairs, something I had never before been able to do."

—MR. JOHN KOELGES, 188 Clinton St., Cleveland, Ohio.

If first bottles do not benefit, your money back.

# LABOR LEADERS RECOGNIZE THE GREAT GOOD PE-RU-NA DOES IN THE TOILER'S HOME.

**Pe-Ru-Na For Kidney Trouble.**

Mr. N. D. Ponnay, 92 Second St., Portland, Ore., President International Printing and Pressmen's Union for U. S. and Canada, writes:

"Last winter I was so busy that I frequently had to work until late in the evening. This, with hasty and irregular meals, soon undermined my constitution, and I found that my strength was about to give way. I became weak and tired, and suffered from frequent brain fag."

"Five bottles of Pe-Ru-Na restored me to health and since that time I have kept it constantly in the house and the entire family have found it an efficacious household remedy."

It is the laboring man who comes in contact with the actual facts in life. It is the laboring man who faces the exigencies of climate and braves the dangers of changing seasons.

Mr. M. Broderick, Financial Secretary Stable Employees Union, No. 1011, Chicago, Ill., writes:

"I have been suffering from a weak back and kidney trouble for some time and have been able to find relief only through the use of Pe-Ru-Na. During the winter season I usually keep a bottle of your medicine in the house and by taking a dose at night, I am feeling fine the next morning."

"Some of my friends assure me that Pe-Ru-Na is equally as good for their various ailments as it is for my complaint. I do know that for kidney trouble and suffering from a weak back it has no equal."

Mr. William J. Berger, Moran Bros. Ship Yard, Seattle, Wash., President Protected Union of Engineers, writes:

"I was troubled for some time with acute indigestion and palpitation of the heart, which distressed me greatly. I took pills and other medicines daily, but found that as soon as I stopped I was worse off than ever."

"Being advised to use Pe-Ru-Na, I soon found that it brought a wonderful change in my entire system. It cleared up the sluggish channels of my digestive organs and assisted nature in relieving itself of the waste. It restored my strength, increased my appetite and gradually restored me to perfect health."

**A Victim of Worry and Overwork Restored By Pe-Ru-Na.**

Mr. Leo M. Hart, General Secretary Theatrical Stage Employees' National Alliance, Chicago, Ill., writes:

"I was badly run down by reason of worry and overwork and felt that it would be necessary for me to take a lay-off and recuperate at some resort, but the suggestion was made to me by a friend that I give Pe-Ru-Na a trial."

"I procured a bottle and took it regularly for a week, at which time I began to feel much better."

"I have been feeling all right ever since and think it is but fair to give Pe-Ru-Na credit for putting me in normal shape again."

Not alone from economic reasons does the laborer find Pe-Ru-Na a valuable remedy in the household, but in a multitude of instances he finds it to be the only remedy that will overcome the tenacity and stubbornness of chronic catarrh.

**Pe-Ru-Na Worked Wonders.**

Mr. Christ. T. Timmins, Financial Secretary Hod Carriers and Building Laborers Union, No. 4, Chicago, Ill., writes:

"Your medicine has worked wonders with my constitution. My work is considered rather hard on the kidneys and it certainly affected mine."

"Numerous remedies were tried. I read a few testimonials in one of the Sunday papers regarding the merits of Pe-Ru-Na, and immediately purchased a bottle."

"The third bottle gave me complete relief. If any one asks me about Pe-Ru-Na, what better endorsement can I give them than the result of my own experience?"

For free medical advice, address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, O. All correspondence held strictly confidential.

associations which have participated in the investigation of the conduct of Justice Hooker. Mr. Stevens' argument, begun yesterday, occupied the entire day today.

The committee adjourned today until next Wednesday, when arguments for Justice Hooker will be resumed. A resolution will be presented in the assembly, probably Monday night, extending the time for the committee to report on the case until Thursday, the 30th.

### LABOR ON ISTHMIAN CANAL.

Specifications to Govern it Will Be Drawn Up.

Washington, April 14.—The executive committee of the Panama canal commission, Messrs. Shonts, Macoon, and Wallace, today decided to draw up specifications to govern in the employment of labor on the canal. A decision from Mr. Gen. Goode as to the application of the eight-hour day to the work, is expected in a few days and will govern that problem in the specification.

Permission will have to be obtained from the Japanese government before the 2,000 laborers from that country can be secured. The specifications as to treatment, sanitary conditions, etc., will have to be submitted to that government before this permission is obtained.

The committee today received the Japanese consul at San Francisco, together with a noted Japanese physician, who were presented by the law counselors of the Japanese legation. The consul-general and the physician said from New York tomorrow for Panama, where they go to make an investigation of sanitary and political conditions, their report to be made to the Japanese government.

### AN AUTOMOBILE ACCIDENT.

F. Augustus Heinze's Motor Car Collides With a Runabout.

Butte, Mont., April 14.—Seven persons were injured tonight in a collision between a motor car belonging to F. Augustus Heinze, a mining magnate of this city and the runabout containing Thomas Roe, a livery man, and Miss Lillie La Combs. In the automobile were F. Augustus Heinze, A. L. Frank, a mining engineer and T. C. Bach, and M. J. Gunn of Helena, Mont., and A. E. Hook, the chauffeur. All of the persons were painfully injured but none will die.

The accident occurred on a boulevard about six miles south of Butte. While going about 30 miles an hour, the automobile crashed into the vehicle driven by Roe, hurling the occupants a distance of nearly 20 feet. The motor car turned completely over but fortunately the persons riding in the car were thrown clear of the wreck. The front legs of the horse were amputated at the knees.

Judge Bach of Helena, suffered a broken rib and was badly cut about the head and neck. Miss La Combs, an injured foot. Hook, the chauffeur, is badly bruised about the body and may be injured internally. Heinze and other members of the party escaped with slight bruises and scalp wounds.

### AN UNFAITHFUL WIFE.

When Husband Learns of Misconduct He Commits Suicide.

Chicago, April 15.—Learning that his wife, whom he left behind in Austria three years ago, had eloped with another man, John Shable, 30 years old, has committed suicide by drowning in the Chicago river. Shable came to America to make a home for his wife and child, and by strict economy had saved enough to buy a cottage. He was to send for his wife and child next week.

During the three years that Shable was away from his wife he wrote to her regularly and sent money for her support.

A month ago two of Shable's boyhood friends, Adam Ryser and Paul Ryzak,

came to Chicago. Before leaving Austria they knew of Shable's wife having eloped with a baker in the town, but neither had the heart to tell the husband, begun yesterday, occupied the entire day today.

### NEW METHOD FOR TREATING CEREBRO SPINAL MENINGITIS

New York, April 15.—A new method of treatment for cerebro spinal meningitis employed at the Hospital Beaugon in Paris is described by the Herald correspondent in that city. Up to the present time this treatment appears, the dispatch says, to have given more satisfactory results than any other. It consists of injections of metallic ferments, a "solution of one in 10,000." Every day 20 cubic centimetres are injected into the muscular tissue of the hip or abdomen. In cases presenting very serious symptoms good results were obtained from intravenous injections of a solution containing one milligramme of the metallic ferment per cubic centimetre. Silver and manganese are the metallic ferments which seem to give the most successful results. This medication is said to be free from disadvantages.

After a few injections the record of the patient's temperature shows a general lowering. Each injection is followed by a rise in temperature more or less marked, followed in its turn by a decrease which brings the temperature below the initial figure.

New York, April 15.—There were 15 deaths Friday in New York from cerebro spinal meningitis as against 13 on the day previous. Eight of the deaths were in Manhattan. Since last Saturday noon, the total is 110.

### LOUIS AND CLARK FAIR.

Everything Will Be Ready Three Days Before June 1.

Portland, Or., April 15.—President W. H. H. Goode, of the Lewis and Clark exposition announced today that everything would be effected in due time, but the announcement made by President Goode removes every element of doubt.

### HALE ENLIGHTENS NEWLANDS.

Senator Newlands knows all about arid lands irrigation, but does not pretend to know anything about the building up of the great navy of the United States, so it happened that when the naval appropriation bill was under consideration Newlands broke in and asked if armor and armament meant the same thing.

"They are not the same," replied senator Hale, who was in charge of the bill. "They are as different as a pocket pistol from the senator's handsome waistcoat."

This allusion to the wearing apparel of the Nevada senator caused a little titter among senators.

### TEA

### WARM EVENING BATH BRINGS SWEET SLEEP.

MANY persons are eminently "not in their ways" as to the cold bath. Hot water applied to the human skin is a device of the evil one, they are sure. They will tell you that one who bathes in hot water continually takes cold and becomes feeble and effeminate. They have contempt for the warm water bath, however invariably that individual sprays the cold douche over himself afterward. Following his creed against hot water, the cold water man always slaps his chest proudly and says:

"I take my cold plunge in the morning as regularly as the sun rises. No warm water ever touches my skin."

The flat footed fact is that it is impossible to cleanse the skin properly in cold water. Only hot water, a pure soap and plenty of it, the same applied through brisk scrubbing with a good, stiff brush can give the skin the smooth, satiny, really radiant appearance that belongs to the well groomed woman, and to her only.

The woman who cares for her skin properly, of course, has her all over wash daily. Most take it in the morning, but on many accounts it is really better in the evening, after the cares and toils of the day are over and one is ready to retire for sweet dreams. There is something conducive to refreshing sleep and sweet dreams in the very thought of lying down in a clean bed in an airy room, with the body as thoroughly purified as a rose after a shower.

The hot bath at night is indeed frequently recommended as a remedy for insomnia.

Modern country houses as well as city homes now have their bathrooms and hot water supply. Where this is not the case a good sized foot tub will contain hot water sufficient. Let the woman who would be best groomed take all the confining pins from her hair and brush it out and braid it very loosely all in one. It can be wound about the head while my lady takes her wash.

At least three times a week my lady will lather her face brush and rub it spirally over her countenance, taking care to scrub carefully the chin and the crevices at the sides of the nostrils. The face brush should also be used for the tender skin of the throat. Following this comes the scrub all over the body with a stiffer brush. Next my lady washes every bit of lather off with plenty of hot water. She will lie down in the bath and slather herself with water as hot as she can bear till the soapy feeling is all gone. The hot water is so restful to a tired soul that I have known women to go to sleep in their bathtubs while lying in it.

If the hot fluid is restful the cold spray which must invariably follow it is equally good as an invigorator.

Finally dry the body, not too roughly, but still gently, with a spiral and upward motion into the skin of the face, throat and hands. Put on a loose night robe and lie down to pleasant dreams. Under no circumstances, not even in the coldest weather, does the clean woman wear at night any garment she has worn during the day.

Always go to sleep thinking some good, inspiring thought.

MARY GOULD LYTLE.
