

LOADED STREET CAR LEAVES TRACK

Was Running at a High Rate of
Speed and Five Deaths
Resulted.

TWENTY OTHERS WERE INJURED

Some Were Frightfully Mangled, Over
Half of Them Having Bones
Broken.

Santa Barbara, Cal., April 10.—A streetcar loaded with passengers returning to town from the Old Mission, ran off the track at the intersection of Garden and Mission streets today and five deaths have resulted. All of the passengers were injured. Twenty of them being frightfully mangled. Over half of the injured had bones broken about the body and not a few of them suffered serious fractures of the skull.

The accident was due to a defect in the brake apparatus as was revealed by the inspection of the car after the accident. While the rear brakes were tightly set against the wheels, the forward brakes were of no service because of the breaking of a part of the axle. The motorman discovered that something was wrong with the car several blocks above the point where the accident occurred and endeavored to set the brakes, but failed to check the speed of the car.

At the intersection of Garden and Mission streets there is a very abrupt curve and the car was moving at its high speed down a 5 per cent grade when the curve was reached. The car was thrown from the track and its side the passengers being hurled in every direction. One section of the car was smashed into splinters. Those who were instantly killed were those who were standing upon the rear platform on the side of the car as it crashed into a ditch.

As soon as the news of the accident spread throughout the city, every available physician was sent to the scene and many prominent residents of the city were among those who aided the suffering and dying. A majority of the injured were taken to the hospital and the remainder were moved to their homes. Following is the list of dead and injured:

Report on Alaskan Coal.

Washington, April 10.—The geological survey has issued a report of an extensive deposit of Alaskan coal, located on the Pacific coast, located from 12 to 25 miles inland from Controller bay, Alaska. The coal fields lie behind the Chugach mountain range, at the foot of the Chugach mountains. The coal and oil were found to be in two distinct separate formations that lie in roughly parallel belts. The coal area is at present recognized, includes about 85 square miles. The coal resembles the bituminous coal of the east more than it does anthracite.

JOSEPHITE CONFERENCE.

Book of Mormon and Polygamy
Are Discussed.

Portland, O., April 10.—There were 120 people present at today's religious conference of the annual conference of the Church of Jesus Christ of Latter-day Saints. The day was given up entirely to preaching and religious exercises, the sermons being delivered by President Joseph Smith in the morning, Apostle Herman C. Smith in the afternoon and Richard C. Evans in the evening.

The principal sermon was by President Joseph Smith. The address was a review of the "Mormon" history of recent years and a denial of the charges that the Book of Mormon was a fraud. He said that the Book of Mormon was a true book and that the contrary was the case. He said that the Book of Mormon was a true book and that the contrary was the case. He said that the Book of Mormon was a true book and that the contrary was the case.

Another able address was that of Apostle Herman C. Smith of Lamoni, Iowa, who is well known as an orator. His sermons were deeply affected by the death of his wife and one of his sons. He spoke to the text: "I will come that they might have life and the abundance thereof." He said that he was a man of God and that he was a man of God.

THE ATTRACTIVE GIRL.

Much has been written about "the American girl" and her reasons for being pre-eminently the most attractive girl in the world. In bringing up girls mothers can't be too careful to let their daughters develop all their natural charms to the utmost.

The crucial epoch of a woman's life is the change from maidenhood to womanhood. It involves the whole body and manifests itself in the nervous disposition at this time.

Nervous or sick women are afforded the opportunity of a lifetime, for the makers of Dr. Pierce's Favorite Prescription now offer that a dozen speakers, singers or presiding officers of that name being on the program.

"I cannot praise your medicine highly enough," writes Mrs. Jennie Hippenhamer, of Indianapolis, Indiana. "I began taking Dr. Pierce's Favorite Prescription and took it steadily for six months. I was not once sick at stomach, never vomited once. Took the 'Favorite Prescription' three times a day and when in severe pain took an extra teaspoonful of medicine which checked the pain. I felt pleasant all the time and did not get nervous as I used to. When my baby girl came last August she was healthy. She is now eleven months old. Am thirty-eight years old and never got through so easily in all my life. Why should women suffer when they can get through so easily? I am able to do a washing and ironing which I could not do for eight years before."

As a tonic for women who are nervous, sleepless, worn-out and run-down, "Favorite Prescription" is unequalled. For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, sure. No other pill can compare with them.

Irrigation in New Mexico.

Washington, April 10.—The census bureau in a preliminary report on irrigation in New Mexico in 1902, shows 24,444 acres irrigated from all sources. The number of farms represented was 9,285, and the average cost per irrigated acre \$16.87. The 1,246 irrigation systems cost, initially for main canals and ditches and the pumping plants, etc., \$4,201,915. The entire length of main canals and ditches was 2,646 miles, an average length per system of over two miles.

QUEEN ISABELLA'S DEATH.

The Spanish Court Will Go Into Mourning.

Madrid, April 10.—The official Messenger, which appears today with black borders, merely announces the death of former Queen Isabella, and makes no statement regarding the funeral arrangements.

King Alfonso desires that every honor should be paid to the dead, the remains will not be near Austria, but by the members of the cabinet, and Minister of Justice Toca alone will go to El Escorial, which is 26 miles northwest of Madrid, for the interment.

Requiem masses will be said simultaneously at Madrid and Barcelona, April 12.

The Spanish court will go into mourning for one year.

ITALY AND AUSTRIA.

Interview Between Their Ministers
At Abbazia Satisfactory.

Rome, April 10.—Signor Tittoni, the Italian foreign minister, in an interview today said that he and Count Goltchowsky, the Austrian foreign minister, were entirely satisfied with their meeting at Abbazia yesterday, the result of which he would communicate to parliament. The following, telegraphed from Vienna to the newspaper Independent, causes a sensation.

"The resurrection of the agitation in Italy in which the agitators claimed the Italian provinces still under Austria so strained the relations of the two countries that they were several times on the point of declaring war. Austria was indignant when Italy protested to the emperor of Germany, who, according to the triple alliance, is the arbiter of Austro-Italian disputes. The emperor decided that Italy was wrong in not recognizing the Austro-Austrian movement, and that Austria would be wrong if she tried to occupy Albania and thus conflict with Italian interests. There being no appeal from this decision Italy and Austria decided to complete the agreement by the meeting at Abbazia, Naples and Emperor William and King Victor Emmanuel, in whose coats, contrary to other similar mani-
