DESERET EVENING NEWS BLEW OPEN AN UNLOCKED SAFE.

Burglars Use Dynamite in the Springville Tithing Office and Get Nothing-Visit the Post Office Also With a Like Result.

(Special to the "News.")

Springville, March 28 .- There were two daring burglaries in this city last night, or early this morning, which, while they must have cost the prowlers considerable work, at the same time netted them nothing for their pains. As a consequence there are some disgusted burglars somewhere up or down the line who are mourning the loss of a couple of sticks of dynamite and considerable tissue on account of their operations. The men who turned the trick are evidently old hands at the safe-blowing business, judging from their handiwork, which is in evidence in the office of the tithing yard here this morning. Some time during the night or early morning the men gained an entrance to the building, and after considerable work blew open the safe. This

operation, which must have consumed considerable time, was absolutely unnecessary on their part for prior to shutting up the office for the night Bishop Sullivan had removed everything of value from the safe and left

CHANGE IN THE LIBRARY. Plan to Enhance the Gift of John Q. Packard.

The authorities of the city are working on a scheme whereby the gift of John Q. Packard of a public library to the city, can be greatly enhanced. The donation of Mr. Packard was a part in cash and the rest in a lot on State street. The idea now is for the city to co-operate with Mr. Packard and furnish the site for the library building, using the entire gift of Mr. Packard in the form of cash. If this plan prevails the city will obtain a library building that will cost at least \$100,000 and upon a much more desirable site than the one now selected

contribution of Mr. Packard included \$75,000 for a building and a lot worth \$20,000, located immediately south of the Alta club building with 100 feet frontage on State street. Judge Harkness represents Mr. Packard and the proposition made to him before he left for the East was that the city furnish a site for the library building on the corner of State and First South, the old city hall corner, and that Mr. Pack-ard make his entire donation in cash. Attorney Frank B. Stephens and Judge Harkness held a conference some time ago and decided to bring the matter before Mr. Packard, but he being absent in California the negotiations will have to be delayed.

It is generally conceded that the old better site for the library than the place selected by Mr. Packard. Prope there is worth \$400 a foot, so that a rual in size to that purchased by Mr. fore if the exchange is made and the brary will have property worth \$140,000, aside from the books.

Mr. Packard will lose nothing by the deal, and it is thought that he will readily accede to the wishes of the city authorities, and if the exchange can be made the people will ratify it.

He was assistant superintendent of the Fifth ward Sunday school, counselor to the president of the Fourteenth quorum of Elders, and an active and useful member in the ward. He had also served as a missionary to New Zealand, to which part of the world he left on March 4th, 1889. He returned home May 14th, 1892. During that period he suffered greatly at times from arthma, particularly while laboring in the Wairarapa district. Speaking of this section, Elder B, Goddard today said: "It is, or part of it, very low and affected Elder Burton seriously. As a consequence he was transferred to a higher part of the country, where he

felt much better; but his lungs continued to bother him more or less."

Since his return home he has followed the various avocations of an indus-trious laboring man, and for two years was deputy water master under ex-Su-perintendent of Waterworks Seddon, whose half-brother he was. He born and raised in this city where he was well known and well liked. I was also a member of the Veteran Fire-men's association for many years and held a membership in the organization at the time of his death.

The scene about the residence today was one of desolation. The place was, of course, under quarantine, and not even friends or relatives were per-mitted to be present to express their sorrow or offer words of consolation to the bereaved. The body was subjected to a fumigation process at noon today by Dr. Scott, after which it was conveyed to the cemetery and interred.

The grip is an old disease with a new name; it is really catarrhal in character and the usual symptoms are those of acute catarrh, but the old time catarrh powders, salves and sprays do not cure it, neither does the application of antiseptics through an inhaler give anything more than relief for a

The antiseptics are all right; they will kill the germs of catarrh and grip if they are applied rightly, but their local application to the nose and throat avail little because the germs are in the blood and through the whole system. Stuart's Catarrh Tablets contain

many of these same antiseptics, that are used in sprays and inhalers, but instead of applying them to the inflamed membranes of the nose and throat, they are taken into the stomach and thus reach the blood, the real seat of the disease and drive out the infestious germs through the natu channels of the bowels and kidneys. natural In other words Stuart's Catarrh Tab-lets reach the cause of the mischief instead of merely local symptoms.

The remarkable success of these tab

lets in curing grip, catarrh and throat and lung troubles is because they drive the catarrhal poison from the system and the nose and throat become clear of the excessive secretion of mucus, which causes the hawking, spitting and gagging, because the secretion is not supplied from healthy blood.
Two years ago Stuart's Catarrh Tab-

lets were unknown but today have come so popular through positive merit that druggists everywhere in the United States, Canada and Great Britain now
