NEWTON, Cache Co., Utah, November 14th, 1879.

Editors Deseret News:

Dear Bro.-I reached Ogden on the 10th and home on the 11th inst., after an absence of a little more than a year. I left home on the 7th of November, 1878, and returned on the 11th of November, 1879.

I labored in the North Carolina Conference, in connection with Alexander Spence, for about eight months. In July, Bros. James H. Moyle and Newel W. Taylor arrived and commenced their labors in the same place, and when I left were doing well. Up to the time. of my leaving we had baptized 10, and the prospect for more being added to the Church was very good. I was treated well, with few exceptions.

One young man named Hampton Stone, came along with me. The people have a hard job to sell their property or many more would emigrate. Some 12 or 15 expected to emigrate early in the spring if it is possible for them to sell out. I feel well in spirits, but much worn out with my long journey of nearly 3,000 miles by wagon and railway. I applied for a half fare railroad ticket at Omaha and had no difficulty in getting it. From Linchbe, Virginia, to Omaha cost me \$25.50, which is very cheap considering the distance is very near 2,000 miles. The fare from N. C. to Ogden via Washington City, Cincinnati, St. Louis, St. Joe and Council Bluffs is \$72 00.

I feel to thank Got for the valuable experience I have gained on my mission.

I am not ashamed of the record I made while laboring in the old N. C. State. I might have made more dollars by staying home, but I would not exchange what I have learned for many times as much. I have endeavored to live my religion and preach the pure principles of life and salvation to the world. I thank my brethren for sending me, and my prayer is that God will bless them and qualify them to carry on his work with satisfaction and profit to themselves. I know that the hand of God has been over me, and I have been blesed on my mission. The people of Newton received me very kindly on my return, for which I feel grateful.

I made many friends, and many, even out of the Church, shed tears when I bid them good bye, and said if they lived until another spring they would be baptized. May God bless the honest, hum- Cry for Pitcher's Castoria. They like ble seeker after truth.

It is wonderful to note the rapid progress made by them in the little time they have been laboring in the conference. When a medicine has infallibly done its work in millions of cases for more than a third of a century; when it has reached every part of the world; when numberless families everywhere consider it the only safe reliance in case of pain or accident, it is pretty safe to call such a medicine

This is the case with the Mexican Mustang Liniment. Every mail brings intelligence of a valuable horse saved, the agony of an awful scald or burn subdued, the horrors of rhenmatism overcome, and of a thousandand-one other blessings and mercies performed by the old reliable Mexican Mustang Liniment. All forms of outward disease are speedily cured by the

Mustang Liniment. It penetrates muscle, membrane and tissue, to the very bone, banishing pain and curing disease with a power that never fails. It is a medicine needed by everybody, from the ranchero, who rides

over the solitary plains, to the merchant prince, and the woodcutter who splits his foot with the axe. It cures Rheumatism when all other applications tail.

This wonderful

I take pleasure in announcing that I am making a pure "TO-BACUO SHEEP DIP" from the best Kentucky Leaf, which makes an article of uniform strength and purity, without the addition of poisonous substances, and should be diluted 100 parts to one (although safe to use at any degree of strength) for dipping

This dip is convenient for use, as it only requires water to dilute it. As tobacco is so well known to wool growers who have used the same, I can only add that I have it in this convenient form for them-put up in one and five gallon tin packages, sealed tightly.
