

## **EVENING NEWS.**

Monday, December 13, 1894.

### **FRAGMENTS.**

SELECT oysters are selling for 50c. per can.

SILVER quotations: New York, 107; London, 49.

The December term of court began this morning.

HIGH COUNCIL meeting to-morrow (Tuesday) evening, at 7 o'clock.

The Union Pacific train due to arrive here this evening, is reported on time.

The D. & R. G. through express train is reported twenty minutes late to-day.

The S. L. and F. D. Railway Company stockholders and directors held a meeting to-day.

J. COWLEY was arrested on Saturday night and paid a fine of \$5. Also \$20 for a ride to jail.

The Fourth Quorum of Elders will meet this evening in the Fifth Ward Meeting-house, at 7.30.

The fourth social party of the Knights of St. Dennis will be given Friday evening, Dec. 19th.

Lost, a Jersey cow with tips of horns saved off. Return her to Mr. Arthur Pratt, 15th Ward, and be rewarded. See advt.

Geo. McPherson was taken by the officers on Sunday morning somewhat "loosened." He paid a fine of \$5 this morning.

WILLS FARM & Co. received to-day 31 silver bars \$19,771.21; one bar Vienna bullion \$1,770; one bar Christy bullion \$1,330.

A POCKETBOOK containing papers has been found. The owner can get it by applying to the business office of the News.

McCORMICK & Co. received to-day two bars of Stormont bullion, \$2,600; one car of Idaho ore \$1,400; two cars Housatonic bullion, \$5,000.

NEXT Monday evening, at 7 o'clock, at the Social Hall, the new appellate local and quorum officers will meet with the Presidency of the State.

THERE was a big rush for tickets to the Abbott performances when the ticket office was opened this morning. Those who desire a seat must not delay.

TELEGRAPH operators are forming protective associations throughout the country. It is believed another strike will take place if the pay for extra work is not allowed them.

THE Locomotive Firemen are having the inside of the Theatre decorated with flags, etc., preparatory to their Grand Ball which takes place this evening. They anticipate a full house and an enjoyable time.

AMONG other renovations Bishop Preston is having a new gate erected at the southwest corner of the Thibault yard, facing south. This is a creditable piece of work, and is a decided improvement on the old one.

THE Abbott Opera Company will leave on the regular west bound passenger train at Green River on Monday next, and will be brought through to this city by a special train, which will arrive about 5 p.m. There are about 50 persons in the troupe.

THREE women were arrested this morning for petty larceny. They will have a hearing this afternoon. They were taken to the police station where they were being taken to their apartment behind the bars. One of the women carried a three-year-old child in her arms. Oh, degraded humanity!

### **LOCAL NEWS.**

The Home Missionary Meeting.—It appears that some of the recently appointed Home Missionaries of this State have an understanding that the missionary meeting will be held next Wednesday evening. This is an error, as it will convene at the Social Hall on the evening of the 14th of December, at 7 o'clock, when both the incoming and outgoing missionaries are expected to be in attendance.

An Occasional Shake.—Says the Bear Lake Democrat of the 12th: On Friday morning at about 9 o'clock, a shock of earthquake was felt by the citizens of Paris. It was not so severe as its predecessors, but it was severe enough to be able to invest the people with "fear and trembling" and the evidence was convincing enough to all that the time of its coming was not far distant. It is recorded that the judgments will commence at the "house of the Lord," which augurs well for Bear Lake Valley.

Early Settlement of Beaver.—In answer to inquiries propounded by the Southern Union, W. G. Nowers furnished the following: "Three of the first settlers arrived from Farowen on the 6th of Feb. 1856. They were W. G. Nowers, Silas F. Howd and James Anderson. They were shortly followed by E. W. Thompson, H. H. Rogers, Edward Ward, Joseph Gough, John Knowles, John M. Davis, Martin H. Anderson, Hanson Lewis, Jesse Lowrey and Barnabas Carter, and perhaps a dozen whose names are not remembered. They were here in the history of the settlement or rather the names of the pioneers who first located the site on one of the most beautiful valleys, and one of the most thriving little cities in Utah."

The Mail's Delay.—The postoffice officials or clerks either here or at Ogden need stirring up. A gentleman of this city informs us that a letter mailed at the Junction City, addressed to him, and bearing the postmark of Dec. 5th, did not reach his box in this city until the 9th. Another mailed for him at Ogden last Tuesday has not yet reached him. He mailed one here on the 6th for a person in Ogden, and it did not reach the person to whom it was directed till the 10th. If a stoppage is not put to this dilatory method of managing the mails, it may be well for business men to consider the advisability of hiring an ox team and a boy to convey mail matter between the more important points of the Territory.

Emma Abbott Opera Co.—The box office at the Theatre is now open daily from 10 a. m. to 4 p. m., for the sale of reserved seats for each night of the opera season.

Spectacles of "Martha" which piece has been selected for the opening night, Monday, December 22d. The Chicago Daily News, October 27th, has the following:

MARTHA. The matinee was attended by an audience which completely filled the house. The cast contained Miss Abbott, Miss Annandale, Fabiani, Campobello, etc. Fabiani did some very fine singing indeed. There were a very better tenors upon the stage. Campobello sang his "portico" at all times, but he did not look like a word or a note. Both Miss Annandale and Miss Abbott acted with spirit. The chorus was strong. Miss Abbott's extremely pure and beautiful quality of tone grows upon a hearer. The quartets are rarely sung so well as upon this occasion, and the singing as a whole was generally good.

## **STREET RAILWAY.**

SNOW, ICE, SALT AND DIPHTHERIA.

The Salt Lake City Street Railway is growing to be quite an extensive enterprise. New lines are being put into operation yearly, and this city will probably continue, as our city grows, until all our principal streets will have one.

During the winter salt is generally used for removing the snow from the track. The question as to the propriety of the use of this article has often been raised in the large Eastern cities, where there are numerous tracks. Some claim it promotes diseases, such as pneumonia, pleurisy, scarlatina, diphtheria, etc.; others, that there exists no reasonable cause for apprehension of injury, or detriment to the public health. Again, others assert that the free use of salt, in such a way, will prove beneficial, both to the public and to the animals.

In Philadelphia, there exists, perhaps, the greatest prejudice, anywhere known on this subject. But even in that place, the general opinion is beginning to change, and the companies are commencing the use of salt again, and the journals of the city are now speaking approvingly of it.

This is the most effective means by which to remove the snow and ice from the rails. Superintendent Arnold has pretty thoroughly investigated the matter, and as the evidence goes to show that it is an advantage rather than a detriment, he will continue to use it, and by so doing he expects to be able to keep all the lines open and the cars on time during the winter.

There are 12 miles of track now in use in this city, and 16 cars running daily. For boxes are now being put up in the cars. The drivers will be furnished with change to the amount of two dollars. Supt. Arnold says there will be no more trusting of fares, and requests the public to have their tickets ready—five cent fares will be the rule after the opening of the New Year.

### **DISTRICT COURT.**

DECEMBER TERM.

Abraham T. Sorenson was admitted to citizenship.

In the case of the People vs. Edward Senior, charged with sending threatening letters. Dismissed and sureties exonerated.

The following cases were dismissed: Ann Cooper et al. vs. Morris Golding et al.

James Lowe et al. vs. Climax Consolidated Mining Co.

Wm. Walker vs. Rebellion Silver Mining Co.

Morris H. Evans vs. Sampson Mining Co.

Minnie L. Howard vs. Alexander Howard.

J. G. Mitchell vs. M. L. White et al.

In the case of H. C. Thompson vs. R. Warnock motion to strike out part of complaint and leave to amend complained.

Hearing in divorce case of Josephine Ward vs. J. H. Ward in progress.

Being issued.—The lecture delivered some time ago, in the Twelfth Ward Assembly Rooms, by E. C. W. Penrose, on the "Mountain Meadows Massacre," is being issued from the press of the Juvenile Instructor office.

It is comprehensive, complete an exhaustive, containing and immense amount of evidence on the subject, much of which is documentary and all of it authentic. The pamphlet will place in the hands of the people a vast amount of information, which exhibits the horrible tragedy in its true light, and shows clearly who were responsible for its perpetration.

The subject is one regarding which there has been a great deal of speculation and falsehood, and as the lecture places the matter in its proper light before the public it will doubtless meet with a very extensive sale. It should be scattered broadcast. The pamphlet will be on sale in a couple of days or so.

Execution of Cook.—George Cook was executed at Laramie last Friday for the murder of James Blount in that city. The crime being committed on Thanksgiving day one year ago, Cook was immediately arrested, tried, convicted and sentenced passed. A stay of proceedings was taken at the time, carried up to the Supreme Court, where it was reviewed. The lower court sustained and remanded back for sentence, when Judge Blair again passed sentence, designating Friday, December 13th, as the day for the execution. Cook slept well on Thursday night, ate a hearty breakfast on Friday morning, and was tolerably resigned, but quite nervous. He walked upon the scaffold at 11:20 without assistance, and made remarks to the prayer read by the priest, in a firm, clear voice.

The drop was sprung at 11:25, the fall breaking the doomed man's neck. Death was almost instantaneous, one long respiration and a slight muscular contraction of the hands being the only movements. The body was lowered into the coffin at 11:40. Some 30 people were present and witnessed the execution. Cook is the second white man who has been executed by process of law in this Territory.

Reckless Driving.—As Bishop Hickenlooper, of the Sixth Ward, was crossing Main street on Saturday afternoon, a team came dashing along pell-mell, and the driver was evidently asleep. The Bishop was unable to get out of the way and was struck, knocked down and bruised, but fortunately, not seriously injured.

Such carelessness on the part of drivers is getting to be a common thing, especially with small delivery wagons. Something should be done to stop fast driving over crossings. Nearly every day some person narrowly escapes being killed by a team or a car, or a lady's skirts are soiled by contact with the wheels of a vehicle.

Two Chambers' Empty Stomachs.—We understand Joe Groesbeck narrowly escaped being shot, at a late hour last night. It seems he was in the habit of carrying a pistol, and while preparing for bed, a dropped from his pocket and a cartridge was exploded. No sooner had the ball passed from the barrel, than Joe passed out of the door. He did not wait to see whether the would-be assassin was under the bed, or behind a chair. Investigation proved that no damage was done to man or property. Too much care cannot be taken by boys carrying deadly weapons.

Horse Thief's Return.—Thomas Corbett, the man charged with the stealing of Wills' horse, arrived here this morning. He claims he intended to return the horse, saddle and bridle, as soon as he reached Salt River, and that he never intended to steal them. He comes from a respectable family in this city. Corbett's friends and relatives are trying to compromise the matter. It will be settled to-morrow. The horse, saddle, etc., will reach here in the morning.

AN OLD SEQUEL TO AN EARTHQUAKE.—At Rocky Glen, where all attempts to dig wells by digging wells had always failed, there was an abundance of water since the occurrence of the earthquake. Previous to this, the water was very scarce, and greenhouses was brought from a long distance, necessitating much labor and expense. The water has continued unabated in quantity and is of excellent quality.—Danbury News.

## **TERRITORIAL ITEMS.**

CULLED FROM LATEST EXCHANGES.

—There was a case of accidental shooting at one of the galleries in Butte on Thursday. One of the Barbers was carefully handling the gun when it discharged, the ball passing through his foot. He will moralyze while the foot is healing.

—There are ten men now crowded into a little box of a jail at Evanston. Each of the four little narrow cells have two occupants, and two other prisoners occupy the corridor. Five of these are serving long sentences, and five more are only being held for trial at the spring term of court.

—The Northern Pacific have put on an accommodation train to run from Helena to Garrison to connect with the Utah and Northern train for Butte. This will prove a great benefit to the traveling public. The train was to commence running to-day.

—The Courier says that a petition is in circulation in Bozeman, asking the pardon of Pat Gray. Pat Gray killed a man at Glendale, Montana, and was sent to the penitentiary from Bozeman head County. He is a hard core, and the people who he committed the murder would probably not sign any petition with a view to his release.

—Another wreck occurred upon the Utah and Northern railway on Wednesday afternoon, near Glen Station, which is about ten miles south of Melrose. Freight train No. 9 had just left the station, when an axle of a car loaded with coal broke, throwing the car from the track, followed by three others. Fortunately the train was not under full headway, as it would have resulted in throwing the engine train from the track.

—At Butte, last Wednesday evening, at about half-past eight o'clock, a fire broke out in the office of the Examiner. A number of employees and firemen were soon on hand fighting the flames, in which they were partially successful, but not until considerable damage was done to the furnaces and about 200 barrels of charcoal had been burned. The office and file through the floor, but the contents were not damaged by the heat. The loss will be something over \$1,000. No insurance. The building was the property of W. A. Clark.

—A train load of coal daily is now being shipped from Evanston eastward to Granger, where it goes over the Oregon Short Line to the silver mines in the vicinity of Butte, Montana. Most of this coal is being consumed by the "Anacostia," of which W. B. Dodrige is superintendent. This is said to be the most extensive silver mine in the world. If this northern demand for our coal should prove permanent, it will certainly pay to build a branch road from Evanston to intersect the Short Line at some point in the Bear Lake Valley.

—"I believe," said Professor Aughey to a reporter the other day, "that Wyoming will prove more prolific in mineral resources than Pennsylvania has proven. It will take time to develop them to be sure. Fully 150 years were required to develop the resources of mother earth within the boundaries of the Keystone State. We do things faster now, however. Ten, fifteen or twenty-five years will crown Wyoming with the glories of the Mineral Queen of the World. I am not too sanguine or over-enthusiastic. I believe these things from what I know."

—A western paper says: Discovery of a new animal species peculiar to the mountainous districts, has been announced to the scientific world which has been named the Prop. The great peculiarity of this animal is, that the limbs on one side of its body are about four inches longer than those on the other. The reason assigned for this is that it can more readily run around the mountains. Only a few hunters have seen this strange species of nature, and they report that it is exceedingly difficult to get within shooting distance. That story is decidedly fishy.

—On or about the 16th of October, Mr. Ed. Hurley claimed as his own and took from the herd of J. L. Atkinson, in Evanston, a horse. Said horse had previously been placed in Mr. Atkinson's herd together with other horses for safe keeping, by Marcus Bennion, a well-known sheep raiser of this vicinity. Ed. Hurley was arrested at Twin Creek, last week, where he had just raided the animal for fifty dollars. He is charged with stealing the horse, and is now in jail awaiting the action of the grand jury at the April term of the District Court.

—Engineer Leopold Krauss, while laying for some hours on a side track with his engine, at Granger, on Thursday night, pulled off his boots and took a nap on his seat in the cab. In attempting to change position, he put his left foot through one of the cab windows, cutting it very severely with the glass. He will be laid up for some time with a sore foot. If he had changed the position of the cab window before he changed the position of his foot he would be better off to-day. Perhaps he was like the large footed man of whom it is said he could turn over on the roof before he could turn over in bed. It appears that Krauss had to stick his foot out of the window before he could turn over.

PERSONAL. C. Twelves, of Provo, has just made an extensive purchase of holiday goods in our city and returns home with them to-day. Judge Boocroftson left for New Orleans Sunday. Mr. Gehl, representing a large Sals & Lock Co., went east yesterday. W. C. Borland and G. A. McPherson arrived from the north last night. Mrs. S. L. Higleyman, wife of the attorney of the Missouri Pacific Ry. and Mrs. Dr. Carr, wife of a prominent physician of Sedalia, left for the east this morning. J. G. Horsford, of Haller, goes to Chicago to-day. Apostle Moses Thatcher is in town. Rev. H. J. Sheridan, of Boston, Mass., was married here this morning, and started for Fargo, D. T., by the Rio Grande. T. F. Trane, of Lehi, U. T., is in town. Mr. Riddle, an extensive stock owner of Garfield County, is visiting our city. Mr. Jas. E. Clinton, train dispatcher of the U. C. at Utah, is in town. H. E. Miller arrived from San Francisco this morning. E. A. Thayer, P. & R. G. Hotel man, is at the Continental. Baron F. H. Van Liden, of Amsterdam, is visiting our city. He is at the Continental Hotel. James H. Hart arrived here last evening. D. P. Tarper, stockman, came in on the Utah Central train this morning. F. A. Mitchell left for the coal mines this morning. F. H. Dupax of Minneapolis, is stopping at the White House. He will probably remain in town a week. M. O. Roeder, representing Franklin MacVay & Co. of Chicago, is rushing around about the city. J. C. Carroll and John Reiser of Butte M. T. are in town on Friday. They are on their way to New Orleans. They take the Union Pacific.

## **BUSINESS NOTICES.**

HOLIDAY PRESENTS:
