WIRED FROM WASHINGTON.

WASHINGTON, 3.—A number of department employees, who have residences in Ohio, leave Washington this week, and go home to vote. Those who go, however, will not be allowed any time by the department except such as is taken from the annual leaves of absence.

In deciding the land case of Daniel Hayes vs. Hilton Parker and the Northern Pacific Railroad Company, the Secretary of the Interior holds that there can be but one legitimate withdrawal under any general route. When, therefore, several trial lines are treated as such by the company, that have been made before the general route is finally fixed and determined, withdrawals under such trial lines will be regarded as executive withdrawals, and entries made in good faith upon old sections before notice of wishdrawal under such trial lines is approved at the local offices, and lands covered by such entries, are held to be excepted from the grant.

In the case of the Northern Pacific Railroad Company vs. George M. Pressey, the Secretary holds that when settlement is made on odd sections within the limits of said grant, after notice of withdrawal was received at the local office, the Department can afford no relief to the settler in such a case; the railroad company takes the land by virtue of its grant. The fact that the line of the general route was changed after the settlement is immaterial, provided the tract fell within the line of general routes. Where improvements had been made before survey, and by mistake placed upon odd sections, the case is not changed. The Dement has no power to relieve a settler from the consequences.

Surgeon General Hamilton of the Marine Hospital service telegraphed the Collector at Yuma, Arizona, to appoint a sanitary inspector in the same place, and at Benson, to inspect trains arriving from the South. This action is taken because of information received from the Governor of Arizona that a soldier at Huachaca in that Territory died of yellow fever recently.

The Secretary of the Territory has directed that green plums are free of duty under the new tariff act. Quite a large trade in the fruit is carried on over the Canadian border. The question arose whether they were dutiable under the provision whic imposes a duty of one cent per pound on prunes, dates and plums. The Secretary holds that it does not come under the provision, but it is a fruit not otherwise provided for, and free of duty.

Depravity and Disaster.

NEW YORK, 3.—Katie Kingston, a pupil in the Grammar School at Christie Street, was taken ill yesterday with a shrieking fit. Her screams alarmed the children, and some one shouted "Fire!" By this time everything was excitement, the fire department was summoned and the alarm communicated throughout the school. The fire engines arrived, and the children were rapidly escaping by the many exits of the building. These many exits prevented serious loss of life.

Boston, 3.—A heavy storm of rain and snow prevailed in Eastern Vermont yesterday, freight cars coming from the north on the Central Vermont covered with snow. Rain was very much needed. Springs and streams are lower than before for 20 years. Corn and potatoes are badly affected by drought. Heavy rain is general throughout New England. At St. Johnsbury the weight of snow damaged apple trees and telegraph wires, at Portsmouth, New Haven, the gale was terrific, and increasing. Two unknown schooners went on the rocks.

Philadelphia, 3.—Captain Nickerson, arrived from St. Pierre, reports all the shipping in the harbor destroyed by the hurricane of Sept. 4th, and many lives lost. Loss on vessels and cargoes amounts to $2,000,000.

Gloucester, Mass., 3. — Burglars entered the postoffice Monday night, blew open the safe and stole the entire contents, consisting of $1,450 in money, $572 in postage stamps, a book of postal notes from 105 to 501 inclusive, certificate number 3,569 for ten shares of Boston Gaslight stocks unregistered, and a large number of other securities.

Little Rock, Ark., 3.—A dispatch from the Indian Territory reports a terrible tragedy at the house of Isnia, an Indian 90 years old. On Sunday night four unknown persons demanded admittance; the Indian refused, whereupon they fired into the hut and kicked down the door. As they entered, the Indian jumped out of the window. He was seized, and, refusing to tell where his money was, subjected him to inhuman torture. Remaining obdurate, the robbers shot him seven times and beat him insensible then plundered the hut, carrying away not less than $5,000. Isnia will die. No clue to the robbers.

Jersey City, 3.—Henry D. Garrett, lawyer, is arrested on a charge of forgery. He is vice-president of the Alumni society of McGill University, Montreal.

Piercetown, Ind., 3.—Mrs. Abbey Butler, shot by her husband last Saturday, died yesterday afternoon. Dr. Butler is of Columbus, Ohio.

Lafayette Ind., 3.—Detective Zeubroock, of Indianapolis, has made an affidavit charging Alex Potts with the murder of Ada Atkinson. He claims Potts had a knife that would make wounds like those of the murdered girl's, that his shirt and vest had blood stains on them, and tracks found near Atkinson's house fitted Pott's boots. Potts is aged 55. The general belief is he is not the murderer.

Bangor, Me., 3.—The auditors of the celebrated case of the Dexter Savings Bank vs. estate of J. L. Wilson Barron, former cashier of the bank made report to the Supreme Court to-day. Barron was found one morning in the vault of the bank, shot dead. The officers of the bank claim he committed suicide to cover up peculations. His friends and a great part of the community believe he was murdered by robbers. The auditor's report states the balance due from the Barron estate to the bank $2,011 including interest, and concludes: "We do not feel called upon to form any opinion upon the question of the murder or suicide of Barron, because we are satisfied from the evidence that there was substantially no money in the bank at the time of Barron's death, and whether Barron came to his death by murder or otherwise, the amount of money in his possession at the bank at the time was so inconsiderable as not to materially affect the situation of the parties litigant or change the result of our conclusions." The report of the auditors does not settle the case. Either of the parties has the right to ask a jury trial.

Carolitas, Mexico, 23.—Indians coming into Casa Grandes say that Ju was killed by falling off his horse while intoxicated. They say he fell over a rocky precipice, the road being above. People do not believe the report and consider it a sharp maneuver. They are still apprehensive of an outbreak. The Mexican General Ohatl is at Carolitas with a body of troops, while Ju with Chato, has been having his headquarters in the Sierras, a few miles above town, with a large force. Small bodies of Indians were in the habit of coming into town almost daily, and seemed well supplied with American money; but during the past few days they have kept out of sight, wandering to and fro; their suspicious movements have excited the apprehension of the populace, who anticipate another raid.

San Francisco, 3.—A dispatch from Seattle says smuggling of Chinese across the border from British Columbia has become a thriving business. The Victoria *Colonist* confirms the statement that notwithstanding the representations of the Treasury Agent sent to investigate the matter, Chinese smuggling is largely carried on; and Victoria has become the rendezvous for Chinese seeking to cross over to the United States. The great number of saw mills on Puget Sound employing Chinese is the immediate cause why so many are smuggled over that section.

Atchison, Kansas, 3.—T. J. Seeley, assistant general manager of the Sonora Mexican Railroad, died last evening on a special car between this city and Valleyfield.

St. Paul, Minn., 3.—S. B. Kidder, member of the 4th Judicial District, Dakota, and member of the Supreme Bench of that Territory, died last evening at the Merchants' Hotel.

Washington, 3.—Rear Admiral Joshua Davis, retired list United States Navy, is dead, aged 89.

Boston, 3.—Hill & Rowe, boot and shoe manufacturers, No. 2 High street, failed to-day. Liabilities not stated. The firm is an old one, and well known, and considerable surprise was expressed at the failure.

San Francisco, 3.—Concerning the failure of Coleman Bros., clothiers, of New York, a gentleman familiar with their affairs says the failure was not unexpected. At one time they were rated among the half-million dollar firms, but the retirement of Sol Coleman, who lives in Europe, and who took a quarter of a million out of the business, together with heavy mining losses of one of the members of the firm, are the causes of their going under. The assignees commenced taking stock, but have been delayed by the Jewish holidays. It is believed their liabilities will not exceed $200,000.

Boston, 3.—Kimball Bros., dealers in carriages, etc, have made an assignment. The firm is well known. Liabilities believed to be heavy.

Newcastle, 3.—Steenberg, Swan & Co. and Slater & Proctor, commission merchants, have failed; liabilities of the former, £40,000; of the latter £46,000.

San Francisco, 3.—A letter from Dr. Valadez of Masatlan, Mexico, states that between August 15th and September 16th, 385 deaths were reported in that city from yellow fever.

Another letter from the same place to a physician in this city says the fever is moving south, and that Presidio, Concordia, Rosario and Qualican are invaded by the disease. Out of one battalion of 600 soldiers 150 have died.

British Briefs

LONDON, 3.—The panorama of Tel el Kebir burned during the fire in Bellevue Gardens, Manchester, yesterday. The fire was caused by an accidental discharge of rockets. There was considerable alarm among the spectators, especially as the panorama was near the cages of wild beasts. No persons were injured. Damage by fire £3,000.

Advices from Madagascar state that Makobe, commander of the Hovas, offered rewards for the slaughter of the captain of any French man-of-war which shall wreck or burn any vessel. The same advices report the French garrisons at Tamatave and Majunga virtually blockaded.

Times editorial: A government which cannot secure a courteous reception for a national guest in its own capital, can hardly be acquitted of weakness and incapacity, even if it escapes suspicion on the score of sincerity and good will. During the brief tenure of office of Challmel Lacour, French Minister of Foreign Affairs, he has irritated Germany, ruffled the good will of England, and quarrelled with China. The complete isolation to which he has reduced France, has had its natural result in the outbreak against King Alfonso.

The Secretary of the London & River Platte Bank has absconded. It is estimated that he has defrauded the bank to the extent of £10,000, which sum he lost in speculation on the Stock Exchange.

Stratford-upon-Avon, 3.—In August last Dr. Ingleby, one of the life trustees of the birthplace of Shakespeare, proposed that the remains of Shakespeare should be exhumed in order to compare the poet's skull with the monumental bust in the church, as well as to set at rest the question of the correctness of many conflicting portraits of the poet in existence. The propositions received the endorsement of the Rev. G. Arbuthnot, vicar of this place. Upon reference to the terms of sepulchre, however, it was ascertained that the remains could not be exhumed or disturbed without the consent of the mayor and officers of the city corporation. The mayor refused his assent, and the matter has now been finally settled by the city council, which passed a resolution condemning any disturbance of Shakespeare's grave.

Dublin, 3.—At a meeting of the Loughrea, County Galway, yesterday, the Bishop of Clonwort delivered a speech in which he dwelt at great length upon the fact that a million Catholics had been lost to the Catholic faith in America, and denounced in the severest terms the system of State-aided emigration.

Belfast, 3.—Sir Stafford Northcote opened a conservative club here to-day. In reply to an address of welcome he denounced the disastrous policy of the so-called national party, and asked the conservatives of Ireland to unite against the would-be destroyers of their religion and their liberties.

Dundee, Scotland, 3.—The captain of a whaler who has just arrived reports that he had an interview with the natives near Dalrymple Rock. They state they saw a party of white men east of Smith Sound, who were supposed to belong to Lieutenant Greeley's party.

General Items.

PARIS, 3.—A squib entitled "Flight of the Uhlan King," has appeared on the boulevards. It contains a scurrilous attack on Alfonso.

It is believed Prime Minister Ferry told President Grevy that Wilson must no longer be allowed intimacies at the Elysee, as he would take advantage of his position as President Grevy's son-in-law to undermine the Ministry.

George S. Trever Douglass, born Marquis D'Harcourt, French diplomat, is dead.

The *National* declares if to maintain Grevy as President of the Republic, it is also necessary to keep his son-in-law, Wilson, in the Palace Elysee, it would without chagrin see Henri Busson, President of the Chamber of Deputies, become President of France.

Figaro asserts that Tryon, French representative in China, has telegraphed the government that no serious preparations for war are being made in China. He says the idea of war with France is badly received in the southern provinces, and is repudiated by the Council of the Empire. He says China could muster only 29,000 troops with European arms for service in Tonquin.

Figaro says it believes Prime Minister Ferry is willing to neutralize the northern provinces of Tonquin, but will not cede them to China, and has so instructed Tricon. It also says that Ferry will inform Marquis Tseng, Chinese Embassador, in an interview to-day, of the final limits of concessions that France will make in the Tonquin matter.

King Alfonso has instructed the Duc-de Fernan Nunez, Spanish Embassador to France, to contribute 10,000 francs for the relief of the poor of Paris.

It is said no members of the Cabinet have actually resigned. The crisis is as yet latent, but the differences existing between Gen. Thibaudin and his colleagues are notorious and his resignation may be regarded as certain. Challemel Lacour, Minister of Foreign Affairs, and another Minister, intend to resign on the ground of ill-health.

Metz, 3.—Antonie, deputy from Alsace in the Reichstag, and a member of the Alsace protest party, was recently forbidden to publish a newspaper in this city, by order of Marshal Manteuffel, Governor of Alsace-Lorraine, and Antoine replied to this by writing to the Governor and expressing the hope that he would be avenged. The paper proposed to be published was to be called the *Metz*. The prohibition was based on the grounds that its course would be seditious and anti-German.

Madrid, 3.—The excitement of the Spanish against France increases. Democratic and republican journals unite in advising moderation on the part of the people. At the theatre last evening the audience compelled an actress to substitute national airs for some French couplets forming a portion of the play being performed. The popularity of the royal family has vastly increased since the Paris proceedings.

At King Alfonso's reception last night he ordered that no one should be refused admittance. The palace saloons could scarcely contain the immense crowd of aristocrats, officers, private soldiers, students and workmen. On the way from the depot the people clung to his horses' compelling the King's carriage to go at walking pace. The King showed the populace the baby princess from the balcony of the palace. At the reception, many knelt and kissed the King's hands.

St. Petersburg, 3.—The *Journal de St. Petersburg* denies that Russia is making preparations on the Austrian and German frontiers, and that two army corps have been distributed between the Vistula and Bug rivers. It states that Russia aims only at peace.

Belgrade, 3.—King Milan has accepted the resignation of his ministry.

Pesth, 3.—The Hungarian Prime Minister at a conference with the Croatian Deputies stated that he would ask the Diet to grant him full power to settle the escutcheon question in Croatia in a peaceable manner. He said he hoped to receive the co-operation of the Deputies in his efforts to affect a satisfactory settlement.

In the Diet the Hungarian Prime Minister moved as a measure for the settlement of the escutcheon question, that the present Croatian inscription be retained and the Hungarian and bi-lingual inscription discontinued.

BRIEF TELEGRAMS.

CHICAGO, 3.—The railroads operating between this city and St. Paul have decided to make the same rates and divisions to San Francisco via St. Paul and Portland, Oregon, as those made with the Iowa Trunk Lines.

New York, 3.—Moody and Sankey sailed yesterday for Ireland.

Times special: General Rodger A. Prior, will sail from New York to-day for England, having been retained as counsel for avenger O'Donnell.

Providence, 3.—Bancroft, the historian, is celebrating his eighty-third birthday at Newport to-day, and this evening will give a dinner party.

Ottawa, 3.—The Canada Pacific railway authorities have issued a circular directing that conductors shall not allow passengers to turn over a seat or to take a parcel of any kind into a car, even lunch baskets being rigidly excluded.

Columbus, S. C., 3.—Ervine Ferguson, of Pickens County, South Carolina, while drinking water three weeks ago lodged a lizzard in the false membrane of his throat and recently dislodged its skeleton by taking an emetic.

San Francisco, 3.—It is stated John C. Gault has definitely accepted the Railroad Pool Commission, with headquarters in this city. He is expected here the end of this month.

The *Railway Age* shows in its current issue that the amount of main track added to the railways of the Union during the nine months ending September 6th, was 4,124 against 8,075 for the same period last year.

Portland, Ogn., 3.—Four hundred pioneers of Oregon and Washington Territory left yesterday on an excursion train over the Northern Pacific for the East. Half fare tickets were issued, good for three months.

New York, 3.—Hopgrowers and hop dealers in Brooklyn last night effected a compromise relating to the tare on hops. The compromise varies from the resolutions adopted by the U. S. Brewers' Association at Detroit last June, which was not binding, however, as the resolution passed by the board of trustees of the U. S. Brewers' Association, prohibits any modification of the rules relating to tare on hops.

Hartford, Conn., 3.—Of one hundred and forty-two towns heard from the republicans carried 78, the democrats 42, and 18 are equally divided politically.

New York, 3.—Tammany delegates to the State convention elected John Kelly, August Schell and Thomas T. Grady members of the State committee. Kelly declined to serve, and Police Commissioner Nicholls was chosen in his place.

St. Louis, 3.—The Free-trade Conference concluded its labors to-day, and a long debate ensued between some of the members, who insisted on absolute free trade, and others who favored an attempt to eliminate protection as the first step, and the latter opinion prevailed. An address to the people of the country was adopted, declaring that protection was a ruinous measure, and that all possible means should be taken to accomplish its abolition immediately. Most of the gentlemen declared that they were straight-out free-traders in theory, but thought it wise to strive against protection as a preliminary step.

San Francisco, 3.—A bill in equity has been filed in the United States Court by Wells, Fargo & Co., against the Pacific Coast Steamship Co. The complaint is directed more particularly against the Northern Pacific Express Co., the majority of which stock is held by the N. P. Railway, which also owns a majority of the Pacific Coast Steamship stock. Wells, Fargo claim that owing to this combination of interests, the steamship company have refused to carry their express matter, giving the entire privilege to the N. P. express.

New York, 3.—The Haytien minister has received the following cable from his government: Port au Prince.—An insurrectionary riot took place, but order has been restored, and there is now complete security. Bourne, recently in New York as agent of the insurgents, has returned to Jamaica.

Chicago, 3.—Judge Blodgett in the U. S. District Court to-day gave a decision of importance affecting enlistments in the U. S. Army. Willard C. Deming enlisted in the regular service, and four days after doing so deserted, but was apprehended. He came into court on habeas corpus. The Adjutant-General made return that Deming being a soldier should be tried by court-martial. The court decided that the enlistment of Deming was in the nature of a civil contract, and being a minor he could not be legally bound by said contract except in cases specially provided for of which this was not one.

New York, 3.—The fiftieth anniversary of organized anti-slavery work in this city and of the foundation of the Anti-Slavery Society was celebrated yesterday afternoon. A number of surviving Abolitionists and their friends, including many ladies, assembled in the church. For about an hour those present conversed socially relating to reminiscences of their stormy experiences. At 3 p. m. the meeting organized, Elizur White, the oldest Abolitionist living, taking the chair. He spoke of olden times, and was followed by others.

TO BUILDERS AND OTHERS!

TO A SUITABLE NEIGHBOR I will sell a nice Building Lot on my property in the Eleventh Ward, for a reasonable figure. It is situated about half a block South of the New Catholic Hospital, and the same distance from the First South Street Car Line. Property in that locality is likely to increase in value, as it has in the Eighteenth and Twentieth Wards, and is therefore a good investment.
