# **REIGN OF VICE** IN NEW YORK CITY

Croker and Tammany Will Crusade Against It.

INVESTIGATION COMMITTEE.

#### One Consisting of Five Members Appointed-Boss Dick Tells How He Does Not Get His Income.

New York, Nov. 15 .- The executive committee of Tammany Hall held a meeting, at which Richard Croker bade all the leaders good-bye and took a hand in starting the movement to rid the city of vice. In a little speech, the Tammany leader said he was going to Europe for health, not pleasure, and introduced Isidor Straus, president of the Educational Alliance, as a man who was acquainted with the condition of things on the East side, adding: "I hope you will give attentive hearing to his statements of the condition of vice that exists there and that after you have heard what he has to say you will use your eye, to correct those evils as far as lies in your power."

Mr. Straus said he had met Mr. Croker at dinner accidentally, and had talked with him for two hours over the condi-tions on the East side, and Mr. Croker had asked him to talk to the executive committee of Tammany Hall, Then, ad-dressing the committee, Mr. Straus told of what was needed on the East side to suppress crime. He said that he, as a Democrat, had frequently had cast up to him the statement that Tammany Hall receives the greater part of its revat dinner accidentally, and had talked to him the statement that Tammany Hall receives the greater part of its rev-enue from people in these evil condi-tions of life and no good can be accomplished until the power of Tammany Hall is destroyed. Mr. Straus had re-peated this to Mr. Croker, and the latter asked him to come before the committee with the statement and had promised his ald.

Lewis Nixon then, by resolution, had a committee of five appointed "to in-vestigate the moral conditions of the city, and to receive and suggest reme dies for the correction of abuses." Mr Nixon was made chairman. The other members are George C. Clausen, president of the park board; Michael C. Murphy, president of the health board; John J, Scannel, fire commissioner; and John W, Keller, charities commissioner. Mr. Croker then arose and said: "I have nothing to add to what has been said to you by Mr. Straus, because he is familiar with the matters on which he has spoken to you. I hope that this entire committee will give its ful strength toward helping him and his work. We should heartily indorse his remarks and aid him in the work of crushing out this awful crime. And right here I want to reiterate what I said three weeks ago to you, and that is that not one dollar comes into my possession from landlords of poolrooms and houses of ill-fame, and if any of you gentlemen are collecting from any of

It corrects inability to hold urine and scald ing pain in passing it, and overcomes that inpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may

Chicago, Nov. 16.- "Unless govern nent aid is extended the Alaskan In dians, the death rate this winter will be appallingly large." This is the statement of G. B. Swinehart of Nome, Alaska, who is on his way to Wash-ington, where he will bring the matter before the notice of the department of the interior of the interior

Continuing, Mr. Swinehart said: "The Alaskan Indians are in dire straits. About a month ago, I made a trip down the Yukon river and found hun-dreds of men and women dying of a disease that is really nothing more or less than consumption. The sickness less than consumption. The slokness which has now become an epidemic, was first noticed last spring. During the summer the disease increased, and the Indians were unable to dry fish, which is their chief and almost their only sta-ple. Consequently, unless add is sen; a number of them will die of starvation this winter." this winter." Mr. Swinehart was the first United States commissioner at Nome,

## ILLNESS OF THE CZAR.

#### A Rumor that He Was Poisoned Comes from Rome.

Rome, Nov. 15.-A rumor is current in Rome that the illness of the czar is due to polsoning, and it is asserted that telegrams have been received at the vatican saying that an attempt was made to polson both the emperor and empress, but that the latter was not effected. This story, however, is not believed. King Victor Emmanuel tele-graphed for definite information, and got a quick reply that the czar was as well as could be expected.

### CZAR'S ILLNESS IS SERIOUS.

London, Nov. 16 .- The impression exists in most European capitals that the illness of Emperor Nicholas is more serious than it is reported to be, but this is probably based upon the knowledge that the czar's constitution is not strong and is little likely to resist a serious attack.

Copenhagen the illness is attributed to overwork in connection with the Chinese chisis, and there is also a suspicion that the hygienic conditions and water supply at Lividia may be faulty. The dowager czarina receives a cour-ier twice a day. Her departure from Fredensburg had been officially fixed for November 26th. Preparations have since been made for her to leave at any moment, and the fact that she has not started indicates that there is no immediate danger. It is feared, however, that even if no complications ensue the attack may be of long dura-

There is no news from St. Petersburg on the subject beyond the official bul-letins, which indicate that the attack is only slight, no high temperature having yet been reached.

#### Von Waldersee Sees Li Hung.

London, Nov. 16 .- The Daily News publishes the following from Pekin, dated November 12th: "It is stated here that Prince Ching and Li Hung Chang have requested an Interview with Count von Waldersee, which will probably be granted. The field marshal intends to make an incursion into Nankau pass and the Ming tombs, as Prince Henry of Prussia did in 1898." Dr. Morrison, writing to the Times

from Pekin, Tuesday, says: "The Tar-tar general commanding in the prov-ince of Szechuan has been nominated for governor general of Manchuria, in deference of Rusisa's invitation to China to resume the government of that territory under Russian protection.

The Chinese peace commissioners have received a telegram from the em-press dowager, dated November 10th, censuring their failure to prevent the dispatch of foreign punitive expeditions into the interior. The empress dowager continues to issue orders appointing of-ficials to office."
