**IMPORTANT TO THE TRAVELING PUBLIC.**—It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has

been put in admirable condition, and almost the entire line has been re-laid with rail.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee, Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route—

**The Chicago and North-Western.** You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. from, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. 424

**DO NOT BE IMPRESSED UPON!**—H. Kober, opposite the Herald Office, has Watches and Clocks for all who want reliable timepieces. Repairing done on short notice. Everything warranted. 420

**ROYAL OYSTER**, per gallon at Reid & Kinney's.

**PRICE OF GOLD.**—Quoted daily by Deseret National Bank. SALT LAKE CITY, September 10, 1875. Buying at \$1.12; selling at \$1.12 1/2.

**EVENING NEWS.** Friday, September 10, 1875.

**Local and Other Matters.** THERMOMETER 55 degrees F in the shade at 1 p.m. to-day. Fine.

**In Town.**—Bishop Lorin Farr, of Weber Co., was in this City to-day.

**Still Sick.**—If matters keep on at the present rate Justice Tyler will soon be able to take a vacation and go to the country. A solitary intemperate was the only case before him to-day.

**Madame Le Vert's Readings.**—In consequence of the engagement of the Lingular troupe at the Theatre on Monday and Tuesday evenings of next week, Madame Le Vert's reading entertainment at the Presbyterian Church will be postponed from September 14th to September 15th.

**Set His Jaw.**—We learn that the surgeons in attendance on Frank Lowe, recently so badly injured by a bear, have succeeded in fusing his tongue back into his mouth sufficiently to enable them to set the crushed jaw, which operation having been placed under the influence of chloroform. Owing to the bones being so fearfully splintered the case is an exceedingly difficult one.

**Resigned.**—D. H. Peery, Esq., who has for a long time filled the position of Superintendent of Z. C. M. I. Ogden Branch, finding that his own business interests were becoming increasingly important, has therefore tendered his resignation to Superintendent H. B. Clawson, and goes out of the business with the best of feelings to Z. C. M. I. and its officers. Ogden Junction, Sept. 9.

**Grain and Produce Association.**—The farmers of Weber County are about to organize into a Grain and Produce Association, and a committee has already been appointed to take preliminary measures. Books have been opened and stock is being subscribed, and it is expected that a permanent organization will soon be effected and incorporated under the laws of the Territory.

The object of the Association is to regulate the prices of grain and other produce in the interest of the producer, to dispense with "middle men," to find the most eligible and profitable markets and to break up and prevent monopolies.

The object is good, being in the interest of the sons of toil, and we trust that the efforts to obtain it will be successful.

**The Scare Business.**—It must appear to every body of sense that the Indian scare business will soon, at the rate things have been going, cure itself. Those sensations are getting more and more flimsy and transparent, and the hopes of their originators, who seek to create a prejudice in the public mind against the "Mormons," by trying to impress upon people abroad that they are in collusion with the Indians to the injury of non-"Mormon" whites, are being repeatedly dashed to pieces against the rock of truth, when it is shown that there is not the slightest basis for such a charge to rest upon.

If the originators and circulators of such prejudicial reports could stand off and view themselves in their true position, if they had any sense of shame left, which is exceedingly doubtful, they would feel like holding themselves in view.

However, the result of every scare of this kind is that these anti-"Mormon" sensation-mongers have their wings completely clipped, and from crowing and blustering and puffing and blowing and bellying they are reduced to the extremely of flopping about, figuratively speaking, in the mud of disappointment and chagrin.

The cork has been taken out of the bottle of the Deep Creek scare, and therefrom has been emitted a tiny volume of smoke.

The scare business and its originators and encouragers are becoming as much the objects of ridicule as the latter have heretofore been of contempt, so that even small boys are frequently heard to say now-a-days, on seeing an Indian and squaw upon the streets, "Let's call on the Governor for troops, or we'll all be scalped."

**Theatre.**—On Monday and Tuesday evenings the Lingular comic opera troupe will give two of their charming entertainments, on which occasion Mr. W. H. Lingular, Miss E. Doming, Miss Blanche Galton, Mr. Frank Gilder, and Miss Marie Wren will appear. In the programme are the Lingular specialty of "The Admiral," 24 Lingular sketches, including H. W. Beecher and Theodore Tilton, and a brilliant commedietta by the entire company.

Take notice of the prices of admission, as announced.

**International Co-operative Movement.**—The following is from a letter, dated Bocking, Braintree, Essex, England, August 15, to a gentleman in this city:—

"A company has been formed, called the 'Mississippi Valley Trading Company,' by which the Grangers of America will exchange their produce for English manufactures and other goods, in union with the co-operative movement in England. Individuals will be allowed to hold shares, but much is likely to be done by the co-op. Societies. The Hon. T. D. Worrall, of Manchester, is appointed as manager, and a deputation of leading Co-op's is now in America with him, to see for themselves, and report to the Central Board at Manchester. I doubt you have seen something of the papers, but what I tell you is authentic, and you will hear more of it.

"Co-operation is the greatest social level of the age."

**Humbugs.**—We have before alluded to fortune-telling and other humbugs, and the weak-mindedness of those who "put their trust in them." We understand that such parties are, among other things, applied to for information regarding the location of minerals, where to make a rich strike, etc., they claiming that their ability to determine such points is infallible. Seeing that money is the object of those humbugging impostors, how is it that they don't strike something rich for themselves? But after all, the vein of silly creatures there money is more plentiful than their brains may be as big and rich as they could strike, for just as long as the crop of senseless people is so large such humbugs will grow fat and flourish.

**The Concert.**—The first of Mr. Shepard's concerts in this City, was given last night at the Institute, and was well received by a tolerably large audience, larger than might have been expected, considering the limited notice which had been given of the gentleman's appearance. Having heard considerable of Mr. Shepard's powers as a vocalist and pianist we were, with the expectation of hearing something extraordinary, but truth compels us to say that we were disappointed. Mr. Shepard is a good, but judging by the exhibition of his skill last evening, by no means a great performer on the piano. And now for the vocal part of the entertainment. There is no denying the fact that Mr. Shepard is an anomaly, he having been endowed by nature with a somewhat deep bass voice, and also with the soprano, but neither are pure. His soprano is of great compass; the notes of the lower register, however, are not clear, but improve as they ascend, and become ringing when they reach high C.

In being thus endowed by nature Mr. Shepard may be regarded as a wonder, but apart from this his vocal powers, as exhibited last evening, are only of a mediocre order. Mr. Shepard's style of accompanying himself on the piano is also, in our opinion, strikingly defective, being much too loud, and seemingly intended by the performer to drown defects, of which he is himself too conscious, and which he is desirous of concealing from the public ear. Still he is worth hearing on account of the peculiarity of his vocal organization, which, to the same extent, is probably not possessed by any other professional singer.

Mr. Shepard gives a second concert to-morrow evening, and a sacred concert on Sunday evening, both at the Institute.

**SALT LAKE CITY,** Sep. 10th, 1875.

**Editor Deseret News:** A correspondent of the Herald, of this morning, suggests as a preventive means against the prevailing practice, among many boys of this city, of smashing windows and otherwise damaging the property of citizens by stone-throwing, that the owners should securely board up the windows of their vacant houses. It appears to me that people certainly should take every reasonable precaution to protect their property against the depredations of those who break the law, but would it not be stretching a point for a person to go to the expense and trouble of boarding up the openings of his house every time himself and family should leave their residence for a few hours or a day or two, especially when the party is supposed to be and should be under the protecting wing of the law, he paying his taxes that that needed protection to his person and property may be assured to him?

If the cause of mischievous destruction to property was in its owner in not sufficiently guarding and protecting it, the suggestion would show some plausibility on its face, but the direct cause is evidently in the unrestrained and lawlessly destructive inclinations of the boys, and the only effectual method to stop the production of an effect is to operate upon the cause.

It may be said that when the law is generally obeyed, the punishment falls generally upon the parents of the actual offenders instead of the latter. Well, this during the latter effect in inducing the parents to exercise a little more healthy restraint upon their property and every good parent should himself at least, assume responsibility for the actions of his children until they are old enough

to judge and act independently for themselves. So does the law. I know of one instance where even the boarding up of windows was not protection sufficient against the rock-throwing and destructive propensities of the boys, who smashed several windows of a dwelling by trying their expertness in sending pebbles through the chinks between the boards.

In my opinion the evil has become so common and so aggravating, owing to the serious amount of property destroyed from that source as to demand the vigilant attention of the police authorities, not forgetting, at the same time, that all parents should look after their own boys in that regard.

Public buildings, such as school houses and other similar structures, come in for their share of battering from the young rock-throwers, in some wards it being made compulsory either to keep repairing broken windows or to expose the interior to strong draughts of air, &c., at all seasons, or to let the buildings wear a dilapidated appearance, which is all wrong.

**VIOLANCE.**

**Our Country Contemporaries.**

The Ogden Junction, of Sept. 9, gives the following particulars as to the origin of the Indian scare at Deep Creek:

Two prospectors—James Tollard and Albert Leathers, induced some Indians, under promise of \$50, to show them the whereabouts of a valuable deposit of ore, known only to the sons of the forest. As usual the palefaces did not keep faith with the Redskins, and when the ore was disclosed refused to pay the bonus. The consequence was Tollard was shot and killed. Leathers escaped to the camp of A. C. Cleveland and Dan Murphy about sixty-five miles southwest of Cherry Creek. Cleveland, who is an ex-state Senator, and some of Murphy's headers, went out, captured two Indians, demanded their word when they refused, shot and killed them. The Indians then surrounded Cleveland's place and word was sent to General Rosecrans at Cherry Creek, who telegraphed to General Schofield, and troops were immediately forwarded.
