STRENGTHENING THEIR LINES.

A McKeesport dispatch says: The

Amalgamated organizers are strength-

ening their lines for the coming strug-

gle. Meetings were held here yesterday of both union and national lodges, which are composed of the men in the National Rolling mill and the Boston Iron and Steel mill and both rolling plants of the National Tube company.

The result was that 279 new members

were added and the control of the roll-ing mills is settled. Preparations are being made for the organization of the

men at the National Galvanizing plant and the Seamless Tube plant as they

have asked for admission either to the Amalgamated or the Federation of Labor. The workmen are all apparent-

ly anxious to go out and the great mills of the tube company will be closed

tightly when the order comes. Several thousand Poles and Hungarians who

were employed as laborers in the tube

works were anxious to strike and will either be formed into an organization

of their own or admitted to the Feder-ation of Labor.

Indianapolis, Ind., Aug. 5.-It is not probable that the fight between the Amalgamated association and the big steel corporation will involve the United Mine Workers of America to the extent that the latter will declare a sympathetic strike, although the fact that the national executive board of the miners began a meeting here today was responsible for a report to that effect. The strike will be discussed during the session and it is not im

probable that the attitude of the more workers toward the steel men will be determined. Up to this time Mr. Wil-son says the officials of the Amalga-mated association have not asked the mated association have not asked mine workers for assistance but he expressed the opinion that the miners ganization, which is considered the most powerful of all labor organizations, will stand ready to assist the members of the Amalgamated associ-

ation in whatever manner it is thought advisable. 'It is not at all likely," said Mr. Wilson, "that the mine workers will go on

a sympathetic strike, although the miners are hopeful that the association will win. I cannot see wherein sympathetic strike on our part would help the steel men. Another thing, the miners have made contracts with the operators for a year and it is not, our policy to violate contracts. Of course, if it came down to a matter of self-preservation it would be different."

"I was born in Portland, raised in San Francisco, which is my home, trod the boards of theatrical life for three weeks in Denver in 1894, and came to Salt Lake in December of that year and got my real start on a theatrical career. My first appearance here was at the Grand, under the regime of the Rogers brothers. It was in 'Moths,' on Christmas eve, or night, I don't know which. Since then-well, since then-you know as much of my public career as I do." And thus a pleasant interview ended.

## HORRIBLE DEED OF A MADMAN.

(Special to the "News.") Provo, Utah, Aug. 5 .- John M. Wil-

son, a patient at the insane asylum here, brought death to himself in a horrible manner yesterday morning. Moved by the mad impulse of an insane man, he threw himself into the white hot furnace. He was rescued in an instant, frightfully burned but allve, Waiting his chance he again cast himself on the coals a few minutes later. He died at 2 o'clock yesterday afternoon as a result of his injuries.

Wilson was a trusty in the dairy department, and was considered as thoroughly reliable as any man among the trusties. He was working at his regular round of duties at half past eight o'clock yesterday morning, and did not seem to evinve any unusual excite-ment. Suddenly and without warning, he broke through the row of men work-

ing in the dairy and dashed toward the furnace. The door was open and he cast himself in upon the coals. Dr. Hardy happened to be in the room at the time, and he hastily pulled Wilson away. The patient was burned about as badly as any man could be burned and still live.

A few minutes later, while Dr. Hardy was getting bandages and medical appliances, Wilson broke away again and once more threw himself upon the burning coals. Everything possible was done to save his life, but he was too badly injured, and he died at 2 o'clock vesterday afternoon,

The coroner's inquestover the body was held this morning with John C. Gra-ham, John H. Worsley and J. N. Bucht as jurors. They decided that Wilson came to his death by burning, in accordance with the facts as stated above, and that no one was responsible. Wilson was 58 years of age, and came from Miller, Utah, where he has many friends who will be shocked to hear of his sudden death.
