BREVITIES.

A railroad was sold in Texas recently for $500.

Garibaldi speaks fourteen different languages.

Ex-Queen Isabella has her fortune told by cards twice every day.

A regularly organized cave of young thieves has been ferreted out at Vallejo.

Nebraska claims to raise more and a better quality of Spring wheat than any other State in the Union.

Be deaf to the quarrelsome, blind to the scorner, and dumb to those who are mischievously inquisitive.

There are now in Australia, says the ...k Lane Express, some four millions ...e and forty millions of sheep, ...ere are not a million consum... the live stock, with abundant ... increases enormously.

...a says that a letter received ...chuyler Colfax announces that ... visit California in August, with ...ife and sister, and a party consist... of Governor Bross and daughter, and Mr. Bowles and daughter.

The proprietor of a hotel at Laporte, Plumas county, has a dog which he employs to wake up his guests. The dog readily finds the number of each room and makes known his presence to the guest. Intelligent canine!

In a jeweler's window at Sacramento are exhibited three silver bricks with the following text attached: "What we got at White Pine—value, $12; cost to get them, $784 59." Encouraging to prospective miners.

A double-ender locomotive is the last railway invention. It has no tender, but carries water in a tank over the boiler, and coal in a box in the rear of the furnace. It has trucks and cow-catchers at each end, and runs with equal facility in either direction.

Horrible crimes were committed at the village of Dolce Aqua, North Italy, caused by the enforcement of the grist tax. The population rose en masse and killed the Mayor. His head was then mounted on a pike and paraded through the streets. During the same day twelve of the municipal councilors were assassinated.

To relieve fron the terrible effect of running a nail in the foot of a man or horse, take peach leaves, bruise them, apply to the wound, confine with bandage, and the cure is as if by magic. Renew the application twice a day if necessary, but one application generally does the work. Both man and horse have, in a few hours, when apparently on the point of having the lockjaw, been cured.

The Cedar Rapids *Times* claims the championship for a young girl, "sweet sixteen," of Lynn county, Iowa, as follows: For six weeks last winter, during the sickness of her father and mother, she attended forty-eight head of sheep, eight head of horses, twelve head of cattle, and two calves, besides milking three cows, driving the cattle one quarter of a mile every day to water, cleaning the horses' stable, doing the housework aud taking care of her sick parents.

A correspondent of the New York *Journal of Commerce* sends to that paper a detailed statement of expenses of the Senate and House for the fiscal year ending June 30th, 1868. The expenses of the Senate for congressional globes, stationery, capitol police, carriage hire, pay of employees, etc., amount to $537, 784, 84; and the expenses of the House to $690,906, 50; showing that the total expenses of the Senate and House amount to the enormous sum of $1,207, 691, 34.

A vein of bituminous shale, which burns like cannel coal, has been discovered near Elko, on the Central Pacific Railroad. It forms an excellent fuel for steam purposes, and, as it is apparently inexhaustible, with every prospect that the quality will improve, its value can hardly be over-estimated.

We have received from Mr. Huyck, of Salt Lake, a choice collection of photographs; one of them, said to be a fine picture of Brigham Young, we prize very highly. The others of the collection are landscape scenes, and photographs of residences, stores, &c., all pronounced by those who have visited the "city of the saints" to be true shadows of the objects they represent.—*Omaha Herald.*

A passenger who lately came in from the East over the Smoky Hill road reports lively times along the Kansas Pacific Railway. The company have advertised for a large number of laborers, iron has been purchased, and preparations for a vigorous prosecution of work on the road is being made. A gentleman whose position entitles him to know something of the actual intentions of the managers of the company writes *positively* that the Kansas Pacific Railway will be finished and in operation to Denver before snow flies next winter. That is good.

A tame raven has just saved the small town of Pont-Anthod (Eure) from partial destruction. The house of its master, a baker, caught fire, and the man was awakened by the screams of the bird just in time to prevent the conflagration from extending to an adjoining wood-yard and building, in which a large quantity of brandy was stored. The poor raven could not, however, be rescued and was burnt to death.

An ingenious Yankee in Pittsfield Mass., has made a rifle and double-barrelled shot-gun combined—two barrels for shot and one for balls. The barrel was bored from a solid bar of steel of 32 pounds weight, but worked down to weigh but nine pounds. The rifle barrel is below the shot barrels, and therefore is no obstruction to sighting the latter, and carries one-third ounce balls.
