This action is based on the report from Manager Scheid stating the augmenting of the fire department by the city council in the shape of additional ment, two fine steamers, 5,000 feet of hose, and other valuable equipment; also the increase in nileage of watermains, and the approaching completion of the new conduit. Mr. Scheid was very glad to state the outcome, and his very glad to state the outcome, and als gratification at being able to authorita-tively announce the exception made in favor of Salt Lake by the San Francis-co board. AMUSEMENTS.

Orpheum-Times innumerable have Salt Lakers seen the ever pleasing and delightful comedy drama, "The Charity delightful comedy drama, "The Charity Ball," and quite as many times more may they see it with interest and profit. The standard of presentation as given at the Orpheum last night is sufficiently high to call for strong popular patron-age. The personnel of the company has been added to and in several places it has been identically stremethand it has been decidedly strengthened, though the weather disturbances prevented many dollars from finding their way to the boxoffice, where they have so much to do with the ebb and flow

of managerial good nature or the lack of it. Nevertheless, it was a "pay house," with a margin of profit of fair-ly wide dimensions, and an audience that was critical and appreciative in the

Herschell Mayall, the leading man, gave a fine portrayal of the character of John Van Buren, the ministerial brother, whose very presence breathed the spirit of peace. Scarcely less meritorious was the interpretation given to the wayward brother Dick, by Mr. MacLean, while Zelby Roach, where he did not overdo the part of Judge Knox, did it well, as did Luke Cosgrove that of Betts the chess-player. Miss Stu-art's delincation of Ann Cruger was finished and sympathetic. Elsie Gresham, one of the recruits of the week, had the role of Phyllis Lee, the day and was turned over to the cus-tedy of Probation Officer Mrs. Young, until her parents can send for her. The girl said that she ran away from her home on Sunday because her fath-er abused her. She now wants to go back home and her parents have been advised of the matter. She came in last night over the Rio Grande and was taken in charge by the depot po-lice and afterwards turned over to Mrs. njured woman in the case. Grace Johnson, who made her appearance bere for the first time, played the part of Mrs. Van Buren, the blind woman. A fair rendition of it was completely spoiled by a "make up" that was little short of awful. It is more than strange that Mr. MacLean should have permitted it. To convey the impres-sion of age it is not necessary to draw lines overly accentuated, make daubs or wear a wig that from the front of the house causes the audience to think that a witch has suddenly appeared on the scene. "To supply the demand for electrical construction material, apparatus and machinery which is constantly increas-ing, it has been necessary for some of he companies to carry large stocks of he material needed for the work with a consequent enormous investment and depreciation coupled with the all too frequent result that when it was most needed there was none to be had. For some time past various suggestions have been made calculated to re-lieve the situation but until the pres-

ent but little has been done. The excursion of the Los Angelés Commercial club to Salt Lake City last year brought a number of enterprising and far seeing business men of southern California among whom were sev-eral prominent in the electrical and telephone development of that and other states. Naturally the electrical interests

and resources of this region were look-ed into with the result that great in-terest was aroused in the subject. All united in recognizing the wonderful possibilities of the future for Utah and the surrounding country and the que tion of investments fully looked futo. VALUABLE STOCK.

The conditions of the electrical construction material supply received careful consideration and it was the general opinion that before any ex-tensive investments could be made in the electrical interests of this region the electrical interests of this region provision must be made to carry in stock at Salt Lake City and else-where, sufficient supplies of material, apparatus and machinery to enable the ditions to be met with promptly
