Special Correspondence,

Provo, Jan. 4 .- County Clerk Havercamp, who has a great liking for facts and figures, has prepared a statement giving the following information as to the cost, etc., of the November election in Utah county:

Total cost of the election, \$2,894.21; total registered vote, 11,843; total vote cast, 11,399; failing to vote, 544; average cast in county, 95.41 per cent of total registration, Average cost of each vote cast, 2514

Highest cost per vote was in Man-ing precinct, \$1.33 each. Highest vote cast, Manning and High. and, 100 per cent of voters registered. Lowest vote cast, Lehi, voting district

No. 4, 89 per cent. Out of total vote cast-11,299-Suther land and King combined received 11,091, showing that 208 voters failed to vote for congressman.

BOARD OF EDUCATION EXTENDS VACATION.

Yesterday afternoon, after the order of the board of health, demanding that the schools be closed, had been served n the board of education, the board held a meeting and decided to extend the holiday vacation for one week. The time previously set for the schools to commence was Monday, Jan. 7th, under the new order the date is Monday, Jan.

The president of the board, Mr. M. L. Pratt, informed the "News" representative that some furniture, ordered from the East, and expected to arrive in time to be placed in the school buildings be-fore Jan. 7th, had been delayed in transit, and that it would be impossible to resume school work on the 7th for that reason. An intime tion that the order to extend the vacation was a diplo matic move to avoid a conflict with the order of the board of health, was met with a broad smile on the part of Mr. Pratt. However that may be, the effect is to give the new\_board of edu-cation, which assumes control on the 8th, an opportunity to enforce the first order of the board of health-excluding unvaccinated children-if it so desires.

M. W. MANSFIELD'S REPLY.

His Refutation of Charges Made by a Thurber Correspondent.

To the Editor: Teasdale, Wayne Co., Dec. 31.-1 now send you a statement of facts on the subject of your correspondence from Thurber, under date of Nov. 23, 1900, in

relation to events transpiring at that time and place. The article says: time and place. The article says: "Thurber had quite a sensation to-Doubtless it had. 'M. W. Mansfield was arrested by the sheriff of Wayne county on a charge of malicious mischief, he having on the 21st inst, proceeded to Cottonwood canon and tore up two or three lengths of

"This is a serious offense before the law and Mansfield will be held over to

It was not an offense before the law, and the jury brought in a verdict of not guilty. If the act had been a crime it was not such a one that a person could not be tried without being held over to the district court.

The trouble arose over some peculiar methods adopted by Mansfield to raise money to bring water into town. No methods, peculiar or otherwise, were employed by me to raise money for the purpose of bringing this (Cottonwood) water into town. The water pipe being in Thurber, owned almost parties in my absence, and the water brought into town. I am not aware that those parties raised any money for

this purpose at that time or since, except a very few dollars.
"Interest bearing notes were sold to the people in favor of the Thurber Waer Supply company, and pipe was ought and the people furnished the

I sold no interest bearing or any other notes to the people. No notes were given by the people, nor any of them, in favor of the Thurber Water Supply The Thurber Water Supply Co. did not purchase any pipe; no such com-pany was in existence. One person furnished more than one half of the labor in laying the pipe, some few others did a little each towards it, the majority of the people ither doing nothing or a mere pittance, The party who laid the pipe did it under a contract of purchase which he has never fulfilled, the title of the prop-

erty remaining in the vendor.

A misrepresentation of the facts have ng been made to me of the colditions prevalling, by letter, in my absence from home, to secure permission under those contractual relations to lay the What the correspondent means "selling notes to people," the public may judge

The water was piped in about two If from the first of March, 1899, to

November 23, 1900, is about two years, then the statement is correct.
"Labor or cash was counted as capital stock and those who furnished either were credited with stock in proportion to what they had paid."

Any such arrangement if made was of done by me, and as the parties who aid the pipe did not organize a company to control it, and made no regulaons in regard to the use of the proper. y, no capital stock in the sense the term is used in connection with corporations or companies could have been recognized. For the purpose of collect-ing pay for the use of the property, in or July last, the words "capital stock," may have been used in notices sent to users of the water of their indebtedness to the owners of the proper-ty, but even that, while it recognized all property used, did not create, organize or form a company, and all owners knew that no company was formed. No stock books were opened. The accounts were simply kept for any future use they might be needed for,

Water rates were levied on all, and stockholders were allowed a dividend of per cent on their stock." Water rates were not levied on all; those using the water were asked to pay a monthly rate to that date for the use of property.

No dividend at 6 per cent was declared.
"But the proceeds or profits not coming up to Mansfield's wishes or expec-tations, he conceived the idea that it would be a good thing to sell out to the Mr. James Grant of Thurber con-

stead of conceiving an idea of selling out to the people I wished a fulfilling of Mr. Grant's promise to me. I could have easily sold the pipe to "the people" if Mr. G. and associates had not laid it in the present position.

"He then let the cat out of the bag." I had no occasion to do anything which the sentence implied, but simply insisted that the long deferred payment

be made on the pipe.

Those who in good faith invested their labor or means to put in the pipe knew or had the opportunity of knowing that the pipe had not been paid for and were not deceived in that respect so far as I know, and if any were deceived, the parties who induced them to invest are responsible. "And accordingly he went to the canyon on the 21st and did tear it up, with the result above stated."

I did not tear up any pipe. Now that I have gone over the article, sentence by sentence, and answered, the public may judge of the truth or falsity of the statement. At the time of my conver-sation with Mr. Grant on the 21st of November, he was informed by me that I wanted the business settled by a pay-ment of the amount due me, which he said I should have in justice and right but he failed to make his contract go consented that the pipe should b taken up from where it was laid if "the people" would lay it to another spring and pay me for it and later raised objections for delay. PROSPECTUS OF THE MERWIN MI-NING COMPANY,

The Merwin Mining company is in corporated with 100,000 shares of the par value of one dollar each. It has a lease and option of purchase until Apri 15, 1901, on the Merwin, Davis, Black-bird, and Yankee mining claims, situ ated in Rush valley mining district about one mile from Stockton. Utah and a few hundred yards from the Honorine works. Of these claims all except the Merwin are virgin ground. The first owners of the Merwin mines to a depth of about 85 feet from the surface, and extracted ore of the value f over one hundred thousand dollars They expended the money as they made it, and when the ore body pinched out had no means with which to continue work. The next owners ran a tunnel a listance of 650 feet, and reached a point about 350 feet below the surface, and

tunne inding no ore discontinued work. The present company is sinking a winz from the tunnel at a point where two contacts are inclining toward each other. This winze is now down about 50 fee vertically. It is believed and predicte by mining experts that these contacts will come together at a depth of about 150 feet, and that there a large one body will be found. The present company is also running an upraise from the tunnel toward the old ore deposit about 250 feet above. In this upraise at a point about 20 feet above the tunnel level streaks of rich galena ore have been found, and about a carload of ore extracted. It is believed from the indications that these ore streaks will soon widen into a substantial ore body,

For the purpose of obtaining funds to continue work and pay the purchase money, the stockholders have contribnot less than 25 cents per share. The proceeds of 16,000 shares to be used in development work, and of 24,000 shares o complete payment of purchase

In order to induce immediate subscriptions the company offers the fol-lowing extraordinarily favorable terms
