

H. Moyle railied to his support in strong style. The result was that the delegations are very largely in favor of the Salt Lake man, one district, the Forty-eighth, and the home of Mr. Moyle, instructing for him. Some of the delegates favor Rulon S. Wells for governor, while there is a sprinkling of support for William M. Roylance and

Aquila Nebeker. The delegates to the state convention from this county, so far as reported, are as follows:

FIRST WARD.

this organ he was especially pleased, on account of the sweetness and purity of its tone; but he believes the beautiful effects from it are largely due to the re-markabl accoustics of the church auditorium. He said after striking a chord and then suddenly stopping, the waves of sound could be heard following each other in the distance, the effect being striking. Mr. Peabody went through the great manufactory of Hutchinson & Votey at Boston, where a dozen church organs are in process of crection, and gathered some very good ideas as to the latest styles of organs and organ construction. He bears out what Prof. Rradelift says about the new fashion of radial concave pedal boxes, and says that playing on these things now makes one feel as though his legs were done up in a barrel. However, a man gets

used to them after a little. THRESHING UNDER WAY.

Ranges Are Improved by Showers, Particularly in Southern Utah.

The local weather office publishes the ollowing crop bulletin for the week ending Monday evening:

Cloudy, unsettled weather prevailed during the fore part of the week, during which period thunderstorms were frequent, especially in the southern portion of the section. These showers delayed farm work considerably, but were of great benefit to the range. Clear skies with an abundance of sunthine prevailed during the latter part of

the week, thus enabling farm work to be pushed vigorously. Temperatures quite high during the day, but he nights were chilly and suggestive of roaching fall. Light frosts occurred on the 1st, 2nd and 3rd inst., but the resulting damage was reported to be nappreclable.

Harvesting was practically completed and threshing was in general progress. Some little late-sown grain was reported to be maturing vere slowly in Boxelder county because of the cool weather. Arid land grain was all

The proposition to add another yea to the high school course in the Bry ant school was strongly opposed by Neiden and Geoghegan who argued that there is plenty of room in the West Side High school for all the puils of the city and it would only an additional heavy expense to fit ou the Bryant school for another year in High school work. Mr. Neiden stated hat Principal Eaton, of the West Side which he said: high school, was opposed to the East Side school for the reason that the pupils who came from that school to the West Side for the third year course

were not prepared for the third year. FAVOR THE CHANGE.

President Moyle, Cummings and Glauque and Supt. Christensen argued in favor of adding another year to the course. They contended that the West Side school could not accommodate the additional pupils who will enter high school work this year and further than that the rooms at that building are not in the best sanitary condition. At the conclusion of he arguments the recommendation of the committee was ap-proved by a vote of 6 to 2 and the second year high school course will be added in the Bryant school.

LONGFELLOW ABANDONED. Upon motion of Nelden the board decided to abandon the Longfellow school on account of its dilapidated and unsanitary condition. It would cost a matter of several thousand dollars to repair the building and to make the

threshed, and the yields have been above expectations, both in quality and quantity. The second crop of lucern seed appears to have suffered considerably from various causes in portions of the section. In the northern counties the damage was caused by frosts

of the previous week, and in one local-ity in Boxelder county by grasshoppers, In the southern portion the wet weather seems to have damaged the staple considerably. The third crop was making good growth and promises a good yield. Potatoes continued to mature. In some localities the crop has been materially damaged by frosts, but in general it was doing well. Beets were being marketed in large quantities. Fruit was generally good and abundant, especially apples. Grass on the ranges was plentiful and stock were thriving. The supply of irrigation wa-ter was plentiful.

"Now good digestion waits on appetite, and health on both." If it doesn't, try Burdock Blood Bit-

An exceedingly pretty and enjoyable affair was the party given by Hooper Dunbar and Roger Sherman at the Hooper home last night. The lawn was hung with lanterns and electric lights, and strewn with rugs and Na vajos, and a floor was laid to the north of the house for dancing. The rooms were bright with flowers, and the affair altogether a delightful one. About 90 guests were present. . . .

Yesterday Miss Maud Riter entertained a few friends at a pleasant after-

noon party, the occasion being her sixteenth birthday. The rooms were dec orated in pink and white carnations and gladiolas, and the new game, "Sherlock Holmes," was enjoyed, the prize, a Christy picture, being won by Miss No-ra Van Cott. The talles were dainty cture-cards, each having the name of the guest inscribed. Those present t enjøy the affair were Arline Tibbita, Burnice Young, Kathryn Little, Jullet Crismon, Lacy Farnsworth, Nora Van Cott, Jean Spencer.

. . . Mrs. Nettie Y. Easton leaves tomorrow for her home in New York, after a four months' stay in Salt Lake. She takes with her her niece, Miss Nan
