Special Correspondence,

Thurber, Wayne Co., Sept. 30.-We have enjoyed the best rain of the sea-son which ended in frost the last three nights; some damage has been done to the grain stacks, which were open. Harvesting is over and thrashing will begin next week. Crops are above the

average. The saw-mill and lumber men are making the best of the time as the sev-en months' delay caused by the mountain being made into a government reserve has left them only a few months to turn out lumber after seuring permits, which will make lumber quite expensive. Joseph Snow left this week for Cana-
