CREATING DEFICIENCIES.

Attention next is called to the ex-travagant appropriations of the Flfty-ninth Congress and, in connection therewith, reference is made to the cre-ation of deficiencies in violation of law. Under the head of "Department Scandals." Secy, Shaw is charged with "neglecting the duties of his office traveling about the country making speeches for the stand-patters and carrying on a campaign for the presiden-tial nomination in 1908, but still draw ing a salary which he does not earn and setting v bad example for his subordinates."

The comptraller of the currency is declared to be inefficient by reason of the failure of the Walsh. Enterprise and other banks. It is declared "that the little rogues are prosecuted, but the big ones are allowed to escape." With relation to their attitude toward organized labor, the book as-serts that the Democrats were the first to give it recognition. Its position is summarized as follows: "It is safe to say there has not been a statute enacted by Congress for the relief of the workingmen of the United States or organized labor, that the Democrats have not given their hearty support." support.'

Taking up President Roosevelt's po Taking up President Roosevelt's po-sition on the question, it is declared that "he is hostile to the labor element, he has expressed it in his book, in his official utterances and by his acts." It is stated that he regards repre-sentatives of labor unions as members of the "rogues" gallery," "sleek, oily fellows," "buils of Bashan," "lazy, selfab, brutal violent murderson," "lazy, selfish, brutal, violent, murderous," PRESIDENT'S TARIFF ATTITUDE.

Returning to the subject of the tariff,

the book asserts that President Roose-velt at various times in his career has been a free trader, a tariff reformer and a stand-patter, and that he "may lead a movement for tariff revision in ione". 1908," and then it has this to say: "Mr. Roosevelt has written nothing

distinctly and unequivocally stating his position since he withdrew from the Free Trade club, but it has been given Free Trade club, but it has been given out at Oyster Bay this summer that he is fully in accord with the views of Speaker Cannon and Mr. Sherman, which have been summarized in the language of gamblers and beggars, 'Stand pat and pass the hat.'"

FAVORS BIG CORPORATIONS.

Under the caption, "the motive be-hind the 'big stick,'" it is charged that Fresident Roosevelt favors big corporations in Porto Rico and the Philippines and that he would make laws advan-lageous for them; that he wants a big military and naval force, to include subsidized merchant marine, and that he has perverted the Monroe doctrine interest the asphalt trust in Venezuela. "This statement about me, like many others of Hearst's that have been brought to my attention, is whol-ly faise. Neither I nor any member of my firm was employed by any corporation or paid by any corporation, directly or indirectly, \$1 for the services we rendered in that contest. We were retained by Mayor McClellan, but declined to receive from him or from any one else any compensation whatever for our services. We rendered those services because we be-lieved it to be a public duty to pre-vent Hearst from depriving the peo-ple of the services of their duly elect-ed candidate, George B. McClellan."

Amily and business representatives of Albert J. Adams, who was found dead Monday with a bullet wound in the head, declared yesterday that after a full and careful investigation they were of the belief that not a single factor of circumstances warranted any sus-picion or theory of murder. Information coming to them showed that Mr. Adams had given way to depression within the last week, although he had concealed that fact from his family, had the the expressed intention of concealed that fact from his family, and it was all due to the unfavorable it was all due to the unfavorable turn taken by diabetes, with which he had long been afflicted.

ADAMS' DEATH A SUICIDE. New York, Oct. 3 .- Members of the

reis, the protected monopolies, secur-ed a measure that has so fostered and fattened the corporations that they are quite willing to stand pat, especially as they have succeeded in defeating the reciprocity treaties, to provide for which the tariff schedules were purposely increased 20 per cent beyond the rates that the sectorial beyond the rates that the protected monophlists named as sufficient to protect them from competition.

"Hence the people are now burdened with this extra rate plus a revenue and a protective rate--three all told." By reason of the shelter of the tariff it is declared that the trusts and combines have advanced the prices of their products, and at the same time sell lower to foreign countries than to our own people. Reference is then made to the speech of Speaker Cannon at Dan-ville III. Aug. 16 last, when he fur-nished statistics of wages and incomes for the 15 "cars between 1890 and 1905, in which the speaker is quoted as acknowledging that in that time aver-age yearly wages increased slightly less than 9.4 per cent. It is asserted that than 9.4 per cent. It is asserted infit during the same period the values of manufactured producte increased 58.7 per cent, and the inquiry is made: "Does Mr. Cannon and the other stand-pat congressmen call that a fair deal? An increase of 58.7 per cent for the trusts and only an increase of 9.4 per cent for the wage earners?" It is in-sisted, therefore that "Speaker Can-non in his fight with labor should avoid statistics, for they are a two-edged

statistics, for they are a two-edged sword in the hands of any one that does not understand their significance, as Mr. Cannon evidently does not.'

PLUNDER OF THE POOR. In order to show "how the tariff plunders those with limited incomes,"

the book has this to say: The book has this to say: "Those whose incomes are station-ary, and who get no increase to cor-respond with the increase of the cost of living, are in worse plight than other people. Nothing remains for such unfortunates but the pinching compony that comes hard when come economy that comes hard, when com-fort should be the rule. The grasping trusts and corporations are, through the monome' created by protection-ism, sucking the life blood of those ism, sucking the life blood of those with limited incomes to the tune of 47 per cent. That is Republican usury made legal b<sup>--,+</sup> statute known as the Dingley tariff law." A number of trusts which the book states were aided by the McKinley tariff are specifically named, added to which is the statement that that tariff law was a producer of deficits and

was a producer of deficits and panics.

CORRUPTION AND SCANDALS.

Much space then is given to the sub-ject of corruption and scandals in the Republican party, particular reference being made to the allegations of Judge Parker just before the last presidential election, and which were vigorously denied by President Rooseveit in a whell statement ublic statement. Continuing, the book says:
