DESERET EVENING NEWS SATURDAY JUNE 15 1907

the floor of the mining exchange this week. The Knight issues were particularly attractive, and had it not been for them the chances are that the figures given out by Secretary Shorten today, as representing the business transacted for the six days, would not have reached anywhere near the totals given below. Sloux Consolidated was admitted to a place on the blackboard, and it has been a lively participant in the daily transactions, the price re-maining steady around 40 and 45 cents. Beek Tunnel and Colorado have held their own, while iron Blossom found ready takers at 80 cents and better. Mountain Lake and Seven Troughs were on the active list; but both closed slightly down the toboggan. Of the Afta stocks, Columbus Con-solidated and South Columbus Conso-idated, were the only ones recording transfers. The former was sold around \$5 and the latter around \$2 a share. Dely Judge has been dull and lower, and indications point that It has not struck bottom. If the dividend is passed, and there are very good reatransacted for the six days, would not

struck bottom. If the dividend is passed, and there are very good rea-sons to believe that it will be, lower prices can be regarded as certain, Dur-ing the past few days, there has been quite a little trading in Ingot, the Mer-cur stock that is likely to be brought into a consolidation. The final con-summation of the deal for a consolida-tion of the Bingham Standard Copper and Bingham Central mines has brought those stocks out on the open board, and the records show the trans-fer of several thousand shares during the past three or four days. Ohio Copper has been active and lower. Ohio Kentucky has also been in demand, but Kentucky has also been in demand, but at prices as high as those which pre-valled last week. The closing quotations and sales to-

day were: FORENOON'S QUOTATIONS

conclusion that the Carisa ground contains an extension of the vein which has responded so handsomely of late in the Colorado and Beck tunnel

in the Colorado and Beck tunnel mines. While he is not ready to as-sert that such is positively the case, nevertheless, he is going to find out, by doing some exploratory work in that direction, and Supt. Rossberg has re-ceived instructions accordingly. The Carisa, Mr. Bamberger declares, is looking very well at the present time and ore shipments are being made on the basis of a car load a day. Development work, he adds, is being kept well in advance of ore extraction.

Reports coming from the Bingham-Mary and Fortuna mines in Bingham, over which Mr. Bamberger also pre-sides as manager, are of a most grati-fying character. Development of the ore body encountered on the 200-foot level sometime ago, is progressing with favorable results, while the vein as far as explored does not exceed 18 inches in width, the chances are that it will lead to something better. This is the vein from which the initial shipment of ore was made recently and carries copper values of about 12 per cent. While the shaft is being pushed on to the deep, a force of men is engaged in drifting on ore on the 500 level. A fissure is being followed, which Mr. Bamberger Is sanguine will lead the way to open on that level, the vein ex-posed on the 300. Reports coming from the Bingham-What Mines Have Done This Week Towards Supplying Smelter. During the week ending yesterday the mines of the Tintic district for-warded to the valley smelters a total of 153 carloads of ore, the contribu-tors and the number of cars shipped by each balage as follows:

posed on the 300. A car of sulphide ore is being ship-ped from the Fortuna mine daily. Ar-rangements were made with the man-agement of the Bingham Con. Mining & Smelting company recently for the use of the tranway belonging to that company, so the Fortune company has been spared the expense of installing its own tranway equipment as had been planned.

per mouth, \$150 to \$100.
Everything consumed in the way of fiving costs from two to three times as much in this country as it does in the United States. There is no article sold for less than 25 cents, no matter how trivial, as there is no money in cir-culation of a lesser demoination than that amount. The cost of living will re-main high so long as the means of get-ting supplies into the country remain as they are, and what is true of the Yu-kon territory is termely the sectored from ley from the Alaskan line to the coast. The only relief to suggest for these conditions is a trunk line railroad from the open sea into the heart of this great valley so rich in gold, copper, and oth-er valuable minerals, to be in some way under the control of government au-thority, so as to keep down excessive freight and passenger rates.

A. H. BROWN NAMED.

Well Known Mining Man Now Superintendent of Lower Mammoth.

It was announced today that A. H. It was announced today that A. H. Brown, formerly superintendent of the Consolidated Mercur mine at Mercur, had been appointed superintendent of the Lower Mammoth to succeed the late William Beil. Mr. Bell went out to the Juab camp this morning to en-ter upon the duties of his new position. He was accompanied by Secy. A. Reev-es, by whom the new superintendent was duly installed.

POLLOCK'S COPPER LETTER.

Follock's COPPER LETTER. Trading in the copper shares in Boston was quiet today and without particular feature. Commission hous-es had a number of realizing orders, but these offerings appeared to be well taken and caused nothing more than a fractional reaction in the general copper list. Traders are generally holding off: take no decided stand one way or the other. The immediate future of copper shares depends a great deal on the action of New York market. market

ANNIE LAURIE EXTENSION.

Principal Office Will be in Town of **Richfield Hereafter.**

Richfield Hercafter. A special stockholders' meeting of the Annie Laurie Extension Mining company was held recently and a change was made in the articles of incorporation, making the principal place of business Richfield. Officers and directors were elected as follows: L. H. Outzen, president: James Long, Jr., vice president: E. E. Hoffman, secretary and treasurer: Guy Lewis, Henry Poulsen, Orson Keeler, H. G. Snyder and C. M. Por-Sceler, H. G. Snyder and C. M. Por-

An assessment will be levied soon and work will be resumed on the property during the summer.

U. S. BAG HOUSE.

Manager Prosser Believes He Has Smoke Problem Under Control.

The bag house which has been in process of installation at the United States smaller at Bingham Junction for several months is in successful operation and Smelter Manager Pros-ser now feels that he has the smoke situation as far as that plant is con-corned, well under control. The plant has cost the company about \$100,000

manner: "During the recent Goldfield labor trouble, when the market on Nevadas had receded to what was considered rock bottom, brokers and stock buyrock bottom, brokers and stock buy-ers throughout the country loaded up to the limit with stock, in the belief that when the difficulty was setled they could dispose of their holdings at a big profit. The labor trouble was adjusted and for a day following the settlement, eager buyers and dearth of sellers (owners holding for still high-er prices) caused the market to soar. About this time, San Francisco and Goldfield banks adopted a more con-servative policy of doing business and refused to permit brokers to make overdrafts without depositing collat-eral therefor. The brokers required evaluation without depositing constr-eral therefor. The brokers required money to conduct their business, and being sore pressed, were compelled to sacrifice stocks, purchased at labor trouble prices, for anything they could get and the natural sequence was a still further slump in the market. The depression frightened stockholder depression frightened stockholders and brokers were deluged with selling and brokers were deluged with selling orders, for which there were few buy-ers and the market continued to sag. When liquidation was finally over, the tightness of the New York money market prevented prompt recovery. Good prices for mining stocks, just the same as for railroad and industri-als, are dependent in a large measure on buying orders from the east. East-ers central keeps close watch of the ern capital keeps close watch of the New York money market, and the moment disquieting rumors are circu-nated it hoards its money, and will not est a dollar in an enterprise of ing even the most glittering possi-Notwithstanding continued market

A Goldfield Writer Tells What Hap-

pened to Stock Market. A writer for the Salifyan Trust company of Goldfield sizes up market conditions in Nevada in the following

each being as follows:

orado ..

Scranton

billities. "Notwithstanding continued market decression, the fact remains that hun-dreds of mines and prospects through-out the state of Nevada are now in a more advancel state of development than they were last fall, at the time of the high prices. In Goldheld alone, over 200 leasers are at work, using every facility that brains and money can command to develop the properties. Work is being pursued uninterruptedly, and it is reasonable to assume that the intrinsic values of the stocks are much higher now than a few months ago, when the properties were in their initial stages of development. In the face of these conditions, stocks are sell'ing, in many instances, at a depreciation of 25 to 71 per cent in market value. Grant-ed, that some of the stocks were sell-ing too high hast autumn, conditions are now reserved, and a purchase at today's prices, in any company backed by reputable men who are developing their property, is almost certain to re-sult in a handsome profit before uaxt fall. "All mining camps have their peri-

All mining camps have their periochs of depression and prosperity, Three years ago Tonopab Mining company, selling at \$20 a share, drop-ped to \$4.75. (It is now quoted around \$15.50). This in no manner reflected any change in the actual of physical conditions of the mines owned by the company, but was sim-ply the fluctuation in the market, due anditions similar to those now confronting us."

BLUESTONE ON COUNTER

BLUEBTONE ON COUNTER. We understand that Capt. J. R. De Lamar's Bluestone property in Yering-ton camp is in the market. Ten thou-sand dollars is the asking price. It may be of interest to know that Capt. DeLa-mar paid but \$55,000 orginally for this property, considerably less than 10 years ago, and, after an expenditure of but \$50,000 in development work, has put in sight 2,500,000 tons of ore of rath-er a low grade.-Boston News Burcau.

Salt Lakers Figure in One Made in Tenabo District. Special Correspondence.

Lander, Nev., June 12.--A number of important deals in mining property in the Bullion district have been conin the Bullion district have been con-summated during the past few weeks. the most important being the sale of the Grand Victor group of four claims by Montgomery and Katteterhorn to Hodson & Colbath of Salt Lake City. The property adjoins the Gold Quartz company's property on the south, and has several good veins exposed, par-ticularly the extension of the Riggs vein on the Jumbo. The price paid is understood to be \$30,000. The new owners have employed a force of men owners have employed a force of men and will prosecute development vigor-

The "Uncle Sam" group of four claims was sold the other day to Fred E. Bowman, of Denver, for \$10,000. The claims immediately adjoin the Bridai Wreath property, upon which a sensa-tional strike was recently made. A 10-day option was given on the Bridai Wreath to E. W. Smith of Sait Lake. representing prominent operators

Wreath to E. W. Smith of Sait Lase. representing prominent operators of that city. The Greyhound and Truckee claims on the south of the Little Gem, are in the bands of new owners, who have conveyed them to a corporation known as the Atlantic-Nevada Mines com-pany. A contract has been let to sink a shaft on the property with a view of opening the extension of the Little Gem and Gold Quartz veins, which cross the property. An important strike was recently made on the Anaconda and St. Law-rence claims, being worked under bond and lease by Charles Schelle, repre-senting the Lander-Tenabo Mining company. The vein parallels the blg yein in the Phoenix claim, and is not far distant, but the values are entirely in gold, while those in the Phoenix lease run largely to silver and copper.

METALLURGISTS HOLD MEETING

At the regular monthly meeting of the Utah section of the Western As-sociation of Technical Chemists and Metallurgists, held at the Commercial club last evening; an interesting paper was read on the "Recent Improvement in the Treatment of Slimes," by D. J. Kelly, Mr. Kelly explained the oper-ation of a filter press, one of his own invention, which has been tried out quite anccessfully in the treatment of gold ores.

The meeting was presided over by Dr. W. C. Ebaugh of the state univer-

PRICES IN YUKON.

Consul Cole Gives Out Figures on Cost Of Living in Northern Region.

Consul G. C. Cole, of Dawson, reports he cost of living and the wages paid or labor in the Yukon Territory as fol-Fuel and Lumber-Coal, native, per ton, \$16 to \$20; wood, per cord, \$12 to \$15; spruce, native undressed, per M.
 \$45; Fir, imported, undressed, per M.
 \$450; oak, imported, undressed, per M.

5400. Foodstuffs--Oats, per ton, 450 to \$120: hay, native, per ion, 360 to \$120; Beef, per pound, 25 to 50 cents; pork, per pound, 45 cents; abeon, per pound, 35 cents; turkey, per pound, 50 cents; chicken, per pound, 50 cents; cheese, per pound, 40 cents; but-ter, per pound, 50 cents; lard, per pound, 20 cents; ica, per pound, 50 to 75 sents; coffee, per pound, 38 to 65 cents; rice, per pound, 8 to 10 cents; flour, per hundred, 86; poratoes, per hundred.

Ontario before proceeding further at the face in the task of re-opening the Ontario drain tunnel. With this once accomplished, conditions should be brought back to normal again within a very short time. The Extra West Mining and Milling

The Extra West Mining and Milling company filed articles of incorporation with the county clerk yesterday. The company was organized at Salt Lake for the purpose of carrying on a gener-al mining business. The capital stock is \$100,000, in shares of the par-value of 16 cents each, of which 333,-900 are treasury stock. The officers are: O. L. Fuitz of Los Angeles, Cal., president; R. L. Nolf of Modena. Utah, vice president; C. M. Moody of Cali-ente. Nev., secretary. These with Charles Hilton and W. H. Braunel of Salt Lake, constitute the directorate. The company owns 12 claims six miles west of Modena. Utah, in an unorgan-ized mining district in Iron county.
