### TRIBUTE PAID TO D. H. PEER

Salt Lake Exchange Passes Resolutions in Memory of Late Member.

WAS A PROMINENT BROKER.

Deep Sympathy Expressed by Many Friends in Mining Circles.

The death of D. H. Peery has been great shock to members of the Salt Lake Exchange and sentiments of the deepest sympathy have been unantmously expressed among his host of mining friends in this city. Mr. Peery was one of the oldest members on the local exchange and as such bas rendered most valuable services. A committee was appointed yesterday to draw up resolutions of respect and these were presented at a meeting of the governing board held this morning. Jas. A. Pollock, W. J. Browning and ommittee for this purpose,

RESOLUTIONS ADOPTED.

The following resolutions were this morning presented to the Sait Lake Stock and Mining Exchange:

The summens of death, although muturally expected, coming to one whose life has been well spent, brings sorrow and awakens sympathy; but when one dies in the prime of life when there was so much promise before, the shock is more severe, the sorrow of loving hearts is greater, and desper sympathy is awakened in the hearts of friends.

ioving hearts is greater, and deeper sympathy is awakened in the hearts of friends.

"The death of David Henry Peery, so familiarly known as Henry, has shocked this community in which he had fived and worked for so many years. As a friend he was generous to a fault, quick to sympathize and ready to belp.

"Mr. Peery was early and prominently connected with this exchange and rendered valued service in the discharge of his responsibilities. Ho was also preminent in the affairs of the state and nation, and was called from his labous in the prime of life. "Be it therefore resolved, That we express our profound sympathy with the sorrowing hearts that must find shelter in the love of human kind, and that we assure the loving, sorrowing mother, risters and brothers of our deep sympathy, praying that a kind Providence may heal their broken hearts and comfort them in the hour of sadness.
