MINING, BUSINESS AND STOCKS.

STOCK MARKET IN GOOD TONE

The New Lead Prices Have a Strengthening Effect.

NO IMPORTANT ADVANCES

Were Noted, However—Trading Was Fairly Brisk on the Exchange—Amelgamated Sugar.

The advance in the price of lead to 3.75 per 100 pounds gave a better tone to mining stocks today. Trading was only fairly brisk, however, and during the regular and open board calls 30,663 shares were transferred, which brought $19,867.13.

The Daly stocks passed muster in good condition; Daly-West showed a marked improvement, exchanging during the regular call at 39.25 ex-dividend. Contrary to expectations Grand Central sold down; the stock recorded a sale upon introduction at 5.55, declining to 5.37½ bid.

Little Bell was offered at 4.00, with no buyers in the field. Lower Mammoth held close to 57 cents per share, 800 shares selling. Sacramento was a favorite and the bidding was quite animated for the stock; it opened at 28¾ cents, declining to 28 cents even. Utah was strengthened by the new lead quotations and sold up to 69¼ cents.

New York closed weaker and Wabash failed to exhibit strength.

The industrial stocks tallied again with a sale of Amalgamated Sugar (pfd.), 10 shares going at 97.50.

The closing quotations and sales posted were:

Mineral Cabinets Sold.

The mineral cabinets owned by the stock exchange were sold after call this forenoon and brought the sum of $299.50. From the ores sent to the smelters recently $315 was realized, making the total receipts for the entire property $614.50.

LEAD PRODUCERS ARE REJOICING

The Advance to $3.75 Per 100 Pounds Important to Them.

AN INCREASE OF $5 PER TON

With the Raises Made in Other Metals The Future is Indeed Very Bright.

There is much rejoicing in local mining circles over the healthful condition of the metal market. Nothing has happened in a long time to encourage the producers of Utah more than the announcement made yesterday by the American Smelting & Refining company that the price of lead had been voluntarily advanced from $3.50 to $3.75 per ton. This has not been entirely unexpected, yet there were many of the smaller producers who had about concluded that only the larger ones were to share in any increase in the selling price for this year; but happily for them their expectations have been not realized. Not only is the Utah producer to share in the advances, but word comes from the Couer d'Alene regions that the rate is to be extended to the producers there.

The new rate means an additional profit of $5 per ton more for the lead mined in the state, or at the present rate of production an aggregate of $20,000 per month. The sharp advances made in the price of silver during the past few days, according to Manager Whitley, should it continue, and he feels confident that it will, means an additional profit of $30,000 per month to the Utah producers. To still better the condition copper has been headed the right way and the advances made in that metal has increased the profits of the producer probably more than either of the other metals named or to about $90,000 per month.

The outlook for the industry is exceedingly bright and there is no reason to disbelieve that this will be the most prosperous year the state has ever experienced in metalliferous mining.

The advance in lead will do much to relieve the mine owners of Tintic who have vast qualities of low grade ores to move towards the valley smelters.

VICTOR CONSOLIDATED.

The Old Boss Tweed Company Has Passed Into History.

As anticipated they would, the meetings of the Victor and BossTweed companies, held yesterday afternoon, passed off harmoniously and the consolidation of the two Tintic mines, which have been litigating for some time over the question of apex, was perfected. The new company will be known as the Victor Consolidated Mining company; it starts out with a capitalization of 750,000 shares of the par value of 50 cents each. The officers selected are E. V. McCune president; H. P. Henderson, vice president, J. A. Groesbeck, secretary; C. O. Ellingwood, treasurer; these, with W. S. McCornick, constitute the board of directors.

The consolidated company will begin its career free from debt and controls some of the best mining ground in the Tintic district.

Supt. Treloar reported that he is prepared to dispatch a carload of ore to the market daily, which will net $15.50 to the ton.

INDICATIONS OF FRICTION.

Contest on Apparently for Majestic Proxies.

It can be inferred from a circular received in Salt Lake today that the Majestic household is not entirely harmonious. In yesterday's "News" mention was made of the receipt of a circular letter containing blank proxies made out in favor of W. B. Mucklow, treasurer of the corporation, to be voted at the meeting in Denver on May 4.

Attached to the notice received today were the names of President A. B. Lewis and Secretary C. J. Caughey. The date affixed was March 6, and the contents read as follows:

"Stockholders of the Majestic Copper Mining & Smelting company are respectfully requested to forward to C. J. Caughey, secretary, room 462, Nos. 7 to 11 Broadway, New York City, and to him only (as he is the only official authorized to receive same), any statement of number of shares owned by you, and to sign no proxy or statement except the official one which will be duly issued and sent to each stockholder at the proper time. All others are unofficial.

"Due notice of the regular annual stockholders' meeting will be mailed to each and every stockholder of record."

Resident Secretary Henshaw could shed no light on the subject when seen today and President Lewis could not be reached before press time.

HISTORY OF DEEP CREEK.

Important Publication Soon to Be Issued from Press.

A history of the Deep Creek mining regions is being compiled by Prof. Marcus E. Jones and will be issued from the press within the next three weeks. It will contain from 15,000 to 17,000 words, and will be embellished by about 20 half tone pictures. The book will be replete with information of interest concerning this vast, undeveloped mining district. The publication was authorized by and is being gotten out at the expense of the Deep Creek association. It will be placed in general circulation.

Incorporation Articles Filed.

The articles of incorporation of the McKinnon Gold Mines company were filed today. The company is capitalized for 500,000 shares of a par value of $1 each. The corporation owns a group of five claims located in the Carson mining district, Silver City, Ida., adjoining the properties of the Addie Consolidated and Poorman mines, two of the principal producers of the camp.

Marr's Oregon Movements.

R. A. Marr, the Utah mill superintendent, who was at the Psyche lately till closing of the mill because of the shortage of fuel, is now in the city. Mr. Marr was educated in milling ore among the masters of the west, and has especial experience in cyanide work. Those welcoming high intelligence in reduction work would like to see the disciple of Jackling permanently associated with a Sumpter mining property. —Blue Mountain American.

ORE BODIES OF THE DALY-JUDGE

An Important Disclosure Reported In John's Drift.

THE DALY-WEST SIDELINES

Are Only About 400 Feet Away—Ore is High Grade—The McSorley Upraise.

Through a stockholder of the great Daly-Judge mine of Park city it was learned today that an immense body of high grade ore has been opened up in the John's drift, at a distance of about 400 feet from the Daly-West side lines. The vein, it is stated, measures about 22 feet i nthickness, and a large part of it carries values of 60 ounces silver, 35 per cent lead, besides good gold, copper and zinc contents. The disclosure of this great body of ore, the informnant stated, is not generally known, yet it is considered to be one of the most important strikes in the history of the mine.

The upraise made from the McSorley drift, has also disclosed a wonderful body of low grade milling ores, which has been penetrated to the extent of 75 feet without the actual dimensions being fully determined.

The Daly-Judge will be in the dividend column before the expiration or many months. The new mill is said to be getting down to business, many of the rough edges having been worn off.

CHANGE IN BEN HARRISON.

Soft Formation Encountered at Depth of 428 Feet.

Manager J. J. Trenam, of the Ben Harrison mine of Beaver county, has received word that at a depth of 428 feet in that property an important change has taken place in the formation. The hard rock in which the miners have been working has been cut through and they are now working in a soft formation in which they are unable to operate machine drills. Just how the values run, Mr. Trenam is unable to say, but the probabilities are that the change is for the better; the harder rock assayed 2½ per cent copper average. The shaft is to be continued to the 500-level, from which point drifts will be run to tap the ore bodies.

Will Have New Offices.

The Allis-Chalmers Co. has leased the rooms at 209-211 south West Temple street to be vacated by the Ingersoll-Sargeant Drill Co., and will take possession on the 20th inst.

Holden Goes East.

Managing Director A. F. Holden, who arrived in the city from California last night, went through an accumulation of mail this forenoon, attended to some business matters and took his departure for the east at noon.

MINING CONCENTRATES.

A carload of Utah ores, from Deep Creek, are being assayed today.

The annual meeting of the May Day Mining Co. is scheduled for April 6.

David Evans has returned from a trip to California covering a period of several weeks' duration.

The Taylor & Brunton sampler reported the receipt today of five cars of ore from Tintic and two from Idaho.

Capt. William Davidson, well known in the diggings of Utah, will depart for Ophir, Colo., shortly to accept a lucrative position.

The stock of the Old Evergreen Mining company, operating in the Cottonwood districts, has been assessed 3 cents per share.

The heavy snows in Park City has made it difficult to get to some of the mines with supplies, particularly to those over on Bonanza flat.

A report comes from Park City that the wages of the men employed at the workings of the Daly company have been reduced from $3 to $2.75 per day.

The Sampson Mining company, operating in Bingham, has secured an option on the Panhandle group of claims owned by A. Stuart. The document was executed yesterday.

The ore and bullion settelments reported at the close of business hours yesterday by McCornick Co., were as follows: Bullion, $36,800; gold bars, $37,900; gold, lead, silver and copper ores, $15,400.

James W. Neill departed for New York City today where he will meet the directors of the Tintic M. & D. Co., and lay the plans for the proposed smelter before them. He will be joined in a few days by Geo. H. Robinson, general manager of the company.

At the depth of 630 feet the work of sinking the New York Tonopah shaft continues vigorously. Drifts intended to extend entirely across the ledge-bearing zone will be begun during the present month, and as or strikes the considered certain there will be "something doing" in New York-Tonopah stocks on the boards at Tonopah, Salt Lake and Philadelphia.—Tonapah Bonanza.

STOCKS INCLINED TO BE ERRATIC.

TRADING VERY IRREGULAR.

In London Americans Made Sharp Recoveries.

Opening Showed Gains Which Soon Yielded—Several Causes Kept Prices at a High Level.

New York, March 11.—Americans made sharp recoveries in London this morning on the expectation that the secretary of the treasury would take measures to relieve the money market. The advance was reflected in the international list at the opening here. Southern Pacific, Canadian Pacific and St. Paul were carried up 1⅝ each. Amalgamated Copper rose about a point and Anaconda 2¼. Dealings in some of these stocks were in 1,000-share blocks and upward. Elsewhere in the list there were some declines. American Ice preferred broke 1½ and Minneapolis & St. Louis a point. Trading was very irregular for the first hour on a large volume of business. Opening gains were yielded. Amalgamated, Anaconda, the local tractions, New York Central, Missouri Pacific and Rock Island receded a point from the best. Net losses of as much were scored by Sugar, General Electric and some other stocks and Westinghouse Electric lost 3. Traders covered freely at the lowest and the market rebounded sharply, some of the active leaders recovering to the top level. Southern Pacific rose to 1⅝ over last night. The market then became dull.

The absence of liquidation and the marking of call loans at 5 per cent, helped to keep prices at a high level. Prices, however, constantly fluctuated above and below last night's level. At the top level of the second hour Southern Pacific, Baltimore & Ohio, New York Central, Rock Island, Atchison, Northwestern, Lake Erie & Western, the Erie, Chicago Great Western preferred "B" and International Power were about a point or more above last night. Third Avenue declined 4½. After a stiff reaction Southern Pacific rose to 6¼ just before noon.

Bonds were irregular.

The demand for stocks abated somewhat after St. Paul had reached 168½. Best prices in all cases were shaded later by realizing sales, but there was no important pressure anywhere outside of St. Paul and New York Central, which reacted a point.

A turn against the shorts in Metropolitan caused a jump of 2¾ over last night. St. Paul rose an extreme 2⅝, and Missouri Pacific, Reading and Brooklyn Transit got 1 point over last night. Minneapolis & St. Louis rose 2, Delaware & Hudson 1½, and Colorado Fuel 1. Southern Pacific, St. Paul and Metropolitan Street Railway then fell back a point. Prices hardened again, in some instances to the best and the close was firm.

The reaction was checked by a rise in Amalgamated to the best but a drive against Southehrn Pacific which carried it below 62 renewed the decline. Sugar re-acted 1½ and Erie second preferred a point. Iowa Central lost 1¾. Prices were better again before 2 o'clock.

MONEY AND BONDS.

Money on call easier at 5½@6 per cent. Prime mercantile paper 6 per cent.

NEW YOK.

New York, March 11.—Wheat—Receipts, 14,250 bushels. Strong on export rumors, decreasing stocks here and covering. March, 79 1-16@79⅝; July, 76⅝@77 1-16.

SAN FRANCISCO.

San Francisco, March 11.—Wheat—Steady. May, 1.36; Dec., 1.20⅝; spot, quiet, 1.40@1.45.

Barley—Firmer, May, 1.06½; cash, 1.15½.

LIVERPOOL.

Liverpool, March 11.—Close: Wheat—March, 6s 3d; May, 6s 1⅝d; July, 6s 1¼d.

CHICAGO MAY WHEAT.

Chicago, March 11.—May wheat sold up to 74⅝ after opening unchanged to ⅛c lower at 74⅛@74¼. A large decrease in the world's visible supply gave added confidence to the bulls and the market became decidedly strong, May advancing to 75½. The close was near the top at 75⅝, a net gain of 1@1⅛.

WOOL.

ST. LOUIS.

St. Louis, March 11.—Wool—Quiet, easy. Territory and western medium, 15@18; fine, 13@16; coarse, 13@16.

BOSTON WOOL MARKET.

Boston, March 10.—Trade in the wool market has not recovered from the embargo recently placed upon it, and although it was so modified by the authorities the effect was to practically cut off business while it was in force. The trade of the past week has been principally with Massachusetts manufacturers and has been fairly good. Prices have remained steady. Quotations:

Territory, Idaho, fine, 14@15; fine medium, 16@16½; medium, 16@17c; Wyoming fine, 14@15c; fine medium, 16@17c; medium, 17@18c; Dakota fine, 14@15c; fine medium, 16@17c; medium, 17@18c; Montana fine choice, 19@20c; fine average, 17@18c; fine medium choice, 19@20c; average, 17@18c; staple, 19@20c; medium choice, 19@20c; average, 17@18c; California northern choice, 20@21c; average, 17@18c; midle counties, 15@16c; southern, 12@13c; fall, 16@17c; Oregon eastern staple, 17@18c.

LONDON WOOL AUCTION.

London, March 10.—The second series of the wool auction sales opened today with a large number of buyers present. Competition was spirited. The offerings numbered 12,687 bales, including a good selection of Queensland, which sold briskly. Crossbreds were taken freely by the home trade. Some fine halfbreds were taken by American buyers at the highest rates. The continent bought scoureds readily, paying full rates for fine grades. Cape of Good Hope and Natal was in small supply. Greasy was in good demand at ¼d decline. Punta Arenas was also in good supply, and met with a steady sale; interior sorts selling at ¼d decline.

BUTTER AND EGGS.

New York, March 11.—Butter—Receipts, 6,300 packages; firm. State dairy, 17@28; creamery, extra, 28½; June creamery, 18@28.

Eggs—Receipts, 6,500 packages, unsettled. State and Penn., 18½; western, uncandled, 18.

RHEUMATISM

NEURALGIA, KIDNEY TROUBLE CURED BY SWANSON'S "5-DROPS"

M. V. BURNETT, Dexter, Ind., writes—"Your "5-DROPS" has cured me of Rheumatism. There is no symptom of the disease about me. My mother had been down with the same disease for nine years, nineteen months of which time she had to walk with a crutch and cane. Now she has thrown away both and goes where she pleases without either of them. She is 71 years old, and was cured of the Rheumatism by SWANSON'S "5-DROPS." I shall never be without your remedy in my household."

MRS. SALLIE HARRY, LaFollette, Tenn., writes:—"My husband says your "5-DROPS" has proven to be all you claimed. The doctor said my kidneys were in bad condition. When I was down stairs I was unable to go upagain without assistance. Your "5-DROPS" has made me sound and well, and I have been able to do more work the past six months than I had in five years before."

SWANSON'S "5-DROPS" is an internal and external remedy, that gives quick relief and permanently cures Rheumatism, Lambago, Sciatica, and Neuralgia. **"5-DROPS"** taken internally will dissolve the poisonous acid, remove it from the system and cleanse the blood of all impurities. An application of **"5-DROPS"** to the afflicted parts will stop the pains almost instantly, while the cause of the disease is being surely removed by its internal use.

SWANSON'S "5-DROPS" is the most effectual remedy ever discovered for Kidney Trouble and Liver Complaint. A single dose will give immediate results. It goes direct to the spot. It keeps the liver-cells properly at work. It restores the kidneys to their normal condition by removing the acids which are the cause of the trouble. It is the best blood purifier ever discovered.

"5-DROPS" will cure Rheumatism, Neuralgia, Kidney Trouble, LaGrippe, Colds, Coughs, Bronchitis, Lumbago, Sciatica, Gout, Asthma, Catarrh, Nervousness, Backache, Dyspepsia, Indigestion, Croup, Nervous and Neuralgic Headache, Heart Weakness, Paralysis, Creeping Numbness, Sleeplessness, Eczema, Scrofula and all Blood Diseases.
