annum free from all taxes, insur ance, etc, Such a dividend payer is

ing and Mining company, says the Boston News Bureau, is now preparing to have a copper converter capacity of between 8,009,000 and 9,000,000

entirely. The new Tintle smeller, if completed and placed in operation, will practi-cally cut off this supply. So that is why the American has been scouting around to find out just what can be done in the way of getting a foothold in the Juab county camp. For several days a rumor has been current to the effect that Mr. Knight had been asked to name a price on the colorado and Beek Tunnel mines. He was called up at Provo by tele-phone, and when questioned, declared that there was nothing to be said on the subject. But those who know Mr. Knight best, even if the story were true, are of the opinion that he would not fix a price on his Tintic mines to anyone. By this it is not meant that the overtures would have to come from the other side first. Mismines are open to inspection and if experts in the employ of the Ameri-cur Smelting company, Mr. Heinze, the Urited States, or any other reputable person or corporation, wanted to make an examination of them, no doubt the privilege would be granted them. Then if they made a bid Mr. Knight would either accent or roject it. The Heinze movements toward cor-

either accent or reject it. The Heinze movements toward cor-ralling the lead output of Park City, in dicate that the American's supply in that camp will be cut off, so it must get into Tintic or else draw on other states for the bulk of its supply to keep the nine furnaces it has at the big Murray smelter in operation.

# Manager George H. Dern, of the Con-solidated Mercur Gold Mines company, who is in from camp has expressed him-self as being well pleased with the be-havior of the new slimes plant. A por-tion of the plant is being tried out and Mr. Dern is confident that it will come fully up to expectations. The annual report of the Calumet & The annual report of the Calumet & Hecla Mining company of Michigan has been issued and shows net earn-ings, \$11,297,390 and a surplus of over \$7,000,000. The statement follows: As-sets, cash and copper, \$6,477,190; notes, bills receivable, \$2,281,768; development fund, etc., \$45,145; insurance fund, \$953,340; total, \$8,757,444; ilabilities, drafts and bills payable, \$1,728,502; total, \$1,728,502; srplus, \$7,028,942. OMAHA.

E. P. Gordon, the Ploche mining op-erator, has returned from a trip to the Tenabo mining district in Nevada and has expressed himself as being well pleased with conditions in that region.

John J. Daly has returned from a trip to the Daly Judge mine in Park City where he spent a couple of days in go-ing over the surface of the company's property with Superintendent Burrall.

Emil Hanke, a nephew of H. Otto Hanke, president of the Daly Judge Mining company, has been spending the past week in making an inspection of the Park City property of the above named corporation.

\$1,728,502; srplus, \$7,028,942. The Gold Bar Placer Mining com-pany of Osceola is preparing to make another clean-up. The last clean-up was made two weeks ago, when the company took out \$1,000 worth of placer gold. The metal was sent to Ely and stored in a local bank. John W. Barnes, one of the principal own-ers of this rich property, will arrive from Philadelphia on the 31st to wit-ness the clean-up. The company has one of the richet placer properties in this section of the country. The gold is obtained from an old river bottom 100 beef belw the surface.—White Pine News. Pine News.

### REAL ESTATE MOVING.

L. R. Martineau reports the sale of five lots in Central Park to S. M. Foley for \$900, and three lots to W. N. Pexton for \$525. He has had very satisfactory sales of \$25 lots in his Maddison addition over Jordan. The demand for homes has fallen off as usual in the hot season, but there is some inquiry for small farms close in. Aston & Jenkins report the following sales during the week: Lot on Washington street to Alma Ek for \$750.

Five-room brick cottage on Laird avenue and Tenth East, for Elijah Thompson to Arthur Jenkins, for \$3,000. Two-room rustic cottage for Moline Fruit & Savings bank to Benjamin Harris, for \$600.

## KNOX WATERLESS

## CLIMBS TO BRIGHTON.

George T. Odell, Manager of the Con-solidated Wagon & Machine company went to Brighton this morning in a Knox matchless auto, carrying a party of six. The recent rains had left the road very muddy, but in spite of this, the machine made the 25 miles' climb in three hours and 25 minutes.

## AN EPOCH IN HISTORY OF CHEMICAL SCIENCE.

London, July 27 .- Sir William Ramsey, the distinguished chemist, has promised to communicate in writing in the near future to the chemical so-

ciety the results of his researches into ciety the results of his researches into radium emanations. In this connec-tion the announcement is made that he has succeeded in degrading copper to the first member of its family—that is, lithium.

New York, July 27 .-- Opening dealings in stocks were so light as to cause but narrow movement of prices. Declines were the rule. The Harriman Pacifics, after opening a shade lower, immediately rallied to a small fraction over last night. Erie declined nearly a point and Great Northern Ore Certificates rose %.

Northern Ore Certificates rose %. There was not much buying of stocks. but demands were sufficient to harden prices to a fraction above last night. Eric second preferred and Anaconda rose 1 and American Tobacco preferred 1%. The market closed dull and irregular. The market closed dull and irregular. The heavy loan expansion by the banks was not liked and prices sold off, St. Paul losting 1%. There was some later rally.

Governor Cutler Apprised of Change at Venice of America.

Pure Food Ordinance Approved

By City's Executive-Rea-

sons for Disapproval.

Mayor Thompson today vetoed the

new garbage ordinance which was

passed by the city council last Mon-

day night. The purefood ordinance

which was passed at the same meeting

was approved by the mayor. The rea-

son for vetoing the garbage ordinance

"The ordinance requires the placing

"The ordinance requires the placing of garbage receptacles within 25 feet of the abutting or street line of the prop-erty. This in my judgment will be very inconvenient to the property owners for the reason that in many cases the re-ceptacles will be immediately in the doors or windows of their homes. This cannot be said to be an advantage to the residents of the city. The method suggested by the ordinance will entail additional expense to the city, as the teamsters and garbage men will loose much time in going inside the property line for the garbage, which will neces-sitate an increased number of em-ployees in the department."

EMPLOYES' WAGES RAISED.

\$3.50 a day to its linemen in Utah,

Idaho and Wyoming, and \$3.75 a day

Idano and Wyoming, and \$3.75 a day to its linemen in Montana outside Butte. Cable splicers' wages will be raised to \$4.25 in Utah. Idaho and Wy-oming, and to \$4.50 in Montana out-side Butte. This is an increase of 50 cents a day in Montana and 25 cents a day in the three other states. Re-adjustments of wages of other classes of employes will be made to meet the new conditions.

is set forth as follows by the mayor:

A letter was received by Gov. Cutler today from the management of the Venice of America near Los Angeles announcing the change in date of Utah amouncing the change in date of than day to Sept. 9. Gov. Gillett, Senators Perkins and Flint and Congressman McLaughlin of California will be vis-itors at the resort on that occasion. Gov. Cutler has informed the manage-

> NOTICE OF STOCKHOLDERS' MEETING.

ment that the date will be satisfacory and he will endeavor to be present on that date.

JORDAN SOAP CO.—The annual meet-ing of stockholders in the Jordan Soap Company will be held at the company's office, at the mine, August 5th, at 10 a. m. for the purpose of electing officers for the next ensuing two years, and to transact such ther business as shall come before the neeting. work. The Addie Mining company, owning five patented claims northeast but near the Beck Tunnel and Yankee Con. mines, is making preparations to start the Beck Tunnel and Tankee Com-mines, is making preparations to start development work in the pear future. There is a shaft on the property 180 feet deep and also a tunnel run in the side of the mountain nearly 500 feet upon one of the claims. It is the inten-tion to resume work in the shaft, which will be sunk 50 feet deeper and then a Grift will be started. The prop-erty has been ldie for some 15 years. There is said to be a hice streak of ore in a short drift from the shaft which runs 35 ounces in sliver to the ton, and the stockholders are of the opin-ion that with depth they will have a paying mine. H. B. Cole and Geo. W. Silks of Salt Lake, together with sev-eral local people, are among the heav-iest owners of stock.

iest owners of stock. The new shaft house and ore house over the new shaft at the Beck tunnel is about completed and the new ma-chinery will be working next week, so it is expected. In the meantime, a donkey engine is being used to sink the shaft which is down 60 feet. When he Manmoth matte, however, is handled at Kennet, the Bingham smelter will be able to handle an in-creased supply of custom ores. The company's new 300-ton smelter

#### ON MINING EXCHANGE.

#### Week's Business Transactions Heavy -Today's Record of Sales.

--Today's Record of Sales. Business has been heavy on the min-ing exchange this week and at the close there is a notable softening in some of the Tintic issue. But this has not been entirely unexpected. A reaction is one of those inevitable things which usual-ly follow such rapid flights in prices as has been exhibited by Tintle stocks during the past few weeks. With 20% exceptions, there was a weakening in-fluence shown all down the line today, May Day, Uncle Sam and Star Consoli-dated held their own. There was considerable blidding for unlisted stocks indulged in today, but fwo of them recorded salses. Several hundred shares of Ulinth Treasure Hill went at 40 cents, Ohio Kentucky sold at \$2.50. Old American at 23 cents and East Tintic Consolidated at 13 cents. The closing quotations and sales

Connections with the May Day and Uncle Sam mines have been made and beginning Aug. 1. the May Day will be closed down. All the work for the two mines will then be car-ried on through the Uncle Sam plant. The compressor at the May Day will Pittsburg mine. The Oliver Mining and Milling The Oliver Mining and Milling company has been formed at Ameri-can fork to operate a lease on the property of the Treasury Mining com-pany located in American Fork can-yon. R. E. Steele was named as president; J. H. Wooton, vice presi-dent: M. E. Bozzant secretary and treasurer. A force of miners will be put to work right away on develop-ing the property. The location of the Oliver claims make them very valu-able and the promoters of this lease expect to have something big before a very great while. The compressor at the May Day will unodubtedly be used, however, unti a new electric compared to be in a new electric concerns can be in-stalled at the Uncle Sam. Both the mines are now shin- regularly, each having sent out five carloads this week.

Preparations are being made to start work at the Star Consolidated, which was recently consolidated with the Black Jack, M. Blanchard has been Black Jack, M. Blanchard has been placed in charge at the mine, and he is now engaged in getting together a force of men to do the underground work. 

There is little excitement here this work. There is little excitement here this week over some strikes which have been made in the Diamond end of the dis-trict. At the Buckeye some nice ore is reported to have been opened up, but for some reason the people in charge cure to say nothing about it. The mine was promptly closed and a watchman placed in charge. A pipe ling is being put in connect-ing the Crown Point shaft with the air compressor at the Colorado mine. As soon as this is done, machine drill will be used in sinking the Crown Point shaft. SALT LAKE BANK CLEARINGS For the week ending July 27, 1907. 1906. July 22...\$1,258,230.13 \$ 782,462.35  $\begin{array}{r} 782,462.35\\793,089,47\\687,453.74\end{array}$ 799,663.83

will be used in sinking the Crown Point shaft. The orè shipments from the mines of Tintie for the past week amounted to 144 carloads, the contributors being as follows: Ajax 3, Beck Tunnel II, Bul-lion Beck 4, Carlsa 8, Centennial Eu-reka 42, Colorado 7, Eagle and Blue Bell 11, Gemini 5, Godiva (concentrates) 1, Lower Mammoth 10, Mammoth 12, Grand Central 8, Ridge and Valley 2, Scranton 6, Tesora 1, Uncle Sam 5, May Day 5, Yankee Con. 3,

## NEW COMPANY FORMED.

NEW COMPANY FORMED. The East Daly Mining company of Park City filed a copy of its articles of incorporation with the secretary of state today. Its capital stock is \$200,-000, divided into shares of the par value of \$1 each. Michael Fitzgeraid is presi-dent; George Curley, vice president; John P. Cahoon, treasurer; Henry Shields, secretary. The company owns a number of claims in the Blue Ridge district, Wasatch county.

COPPER SHARES DULL.

Hornblower and Weeks say: Cop-per shares opened dull and without feature. There were very few orders in the market. Price changes were small and as a rule lower. ### CONCENTRATES.

A. J. Davis departed for the east to-day on a mining business trip.

D. C. Jackling, general manager of the Utah Copper company, returned from Colorado yesterday afternoon.

Anthony H. Godbe expects to leave onight for southern California, and vill spend a week or so along the tonight will spe-beaches.

is, lithium. The Lancet today says the discovery marks an epoch in the history of chem-ical science and believes it is a realiza-tion of the transmutation of metals. The announcement is likely to re-awaken the discussion of the trans-mutation of elements, which raged a very or so suc when several prominant year or so ago, when several prominent scientists repudlated the transmutation idea, while others just as strongly sup-ported it. Sir William Ramsey himself modest-

ly disclaims ability to transmute ele-ments, but he believes that the result of his degradation of copper will be of fur-reaching importance.

## SAVED HIS GIRL.

# But in Doing So D. C. Shriver Himself

Was Drowned.

Seattle, Wash., July 26 .- D. C. Shriver, a bookkeeper in the Puget Sound National bank, was drowned in Lake Washington last night in an attempt to prevent the canoe in which he and a girl companion were boating from capsizing. She reached for a lantern be-hind her and tipped the boat, Shriver, seeing the danger, plunged overboard to prevent its capsizing. His efforts were successful in saving the girl's life, but he himself was drowned.

Portsmouth, July 27 .- The battleship Bellerophon, enother of the Dreadnought class, was launched here this afternoon by Princess Henry of Bat-

tenburg. The new warship has a tonnage of 18,600, which is 700 more than the Dreadnought, and she embodies a num-ber of improvements gained as a re-sult of the Dreadnought trials. The Temerairo, the third ship of this class, will be launched the latter part of Apeust.

of August.

## WEATHER REPORT

Record at the local office of the United States weather bureau, for the 34 hours nding at 6 a. m. today: Temperature at 6 a. m. 61; maximum, 78; minimum, 61; mean, 70, which is 8 de-grees below normal. Precipitation since the first of the month, 16 inch, which is 32 inch below the normal. Accumulated excess in precipitation since Jan. 1, 219 inches. Relative humidity, 75 per cent.
