COVINGTON'S REPUTATION GOOD.

St. Pault, Minn., Sept. 22.-J. B. Covington of this city, whose firm's letter paper was found in the trunk containing the body of a young girl at Elliott bay, near Seattle, gave the Associated Press the following explan-ation of how his firm's paper had come to be in the trunk:

come to be in the trunk: "Edith Covington, aged 25, and her brother, Frank Covington, aged 22, were reared by their grandparents in Catletisburg, Ky. After they had grown up they paid me a visit and the boy left here for San Francisco. While he was there his sister, who was still be a base of the sector base of the sector. be was there for sam Frankisco. was still here, received a letter saying he was soing to the Klondike. That was the last we heard from the young man. Later Edith married and is now liv-ing in Rutherglen, Va. A few days ago a letter came to her here from Seat-ite, and we forwarded it to her. I presume that while Edith was here she wrote to her brother on the firm's letter paper and that may explain how the letter got into the trunk. Our theory is that Frank left his trunk be-hind him when he went to the Klon-dike, and it may have fallen into other hands. The boy always bore an ex-cellent reputation. That is as much light as I can throw on the matter."

SUBSCRIPTION FOR FAMILY OF A HERO.

New York, Sept. 23.—A subscription fund is being raised for the family of William Eatoo, a clerk in the post-office, who, although an invalid, hero-ically saved two boys from drawning and lost his life from exposure. He was watching boys bathe off the East Seventh pler when he saw John Schuck and George Haloiney being carried out by the tide. Eaton plunged into the water and succeeded in bringing both lads to the pler. As he lifted the second one to the ladder which leads to the pier flooring, he fell back into the water. The watchman at the pler went to his rescue in a rowboat, but Eaton was dead when the boat reached him. Eaton leaves a widow and seven chil-dren.

HEALTH IN THE CANAL ZONE.

HEALTH IN THE CANAL ZONE. The high wages paid make it a mighty temptation to our young arti-sans to join in the force of skilled work-men needed to construct the Panama Canal. Many are restrained, however, by the fear of fevers and malaria. It is the knowing ones those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influences with Electric Bitters on hand. Lincoln, Neb., Sept. 23 .- The announcement that William J. Bryan would attend tomorrow's Democratic state convention and probably make a speech, was the subject of chief inter-est tonight among the delegates who arrived for tomorrow's gathering. Mr. Bryan's advice will be asked in the framing of the platform, which is the only business to be transacted aside from the selection of a chairman and secretary of the state central commit-tee and their assistants. Mr. Bryan's well known views will be emphasized in the party resolutions, but it is doubt-rul if he will consent to have a formal endorsement of himself for the presi-dency inserted, though this has been suggested by his partisans. would attend tomorrow's Democratic
