

HULP-UPS SECURE THOUSAND DOLLARS

Masked Men Enter a Goldfield Saloon and Rob it and Then Make Their Escape.

THEY TREATED THE CROWD.

First Thought It Was a Joke but Were Soon Undeceived—They Were short Men.

Goldfield, Nev., Sept. 26.—The inmates of a saloon belonging to Jake Goodfellow and W. N. Briggs, located on the main street of this town, were held up by two men early this morning, and the place was robbed of nearly \$1,000. The highwaymen, who were masked, treated the crowd and made good their escape during the confusion which ensued.

There were eight men in the saloon drinking and playing roulette, when a bandit man, masked with a red handkerchief, entered and stepping up behind the bar, leveled a revolver over his shoulder at the bartender, knife drawn, and commanded him and all in the room to throw up their hands.

All thought it was a joke, but the first man was suddenly followed by another and another, who backed up and command of "hands up." The eight men were lined up against the back of the bar-room and the two hold-ups walked in. The bartender, who, where they had their pistol upon the table, and the taller bandit spun the revolver over his shoulder at the bartender, knife drawn, and commanded him and all in the room to throw up their hands.

"I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unseasonable hours, but nothing seemed to help me. Mother's Vegetable Compound has been a great help to me. I have written to Dr. Williams' Vegetable Compound for female troubles, having used it myself some years ago with great success. So I began to take it, and in less than a month I was able to get out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. Address, Lynn, Mass.

This robbery at the end of the bar-room, and the shorter hold-up, who was trying to rob the other was soon broken, the street behind his partner, and then disappeared. Even then the other man was not dismayed. He jumped, and, throwing \$2.50 on the bar, ordered all in to take a drink. The thoughtless crowd followed him. This robbery had left a trail of blood.

The larger of the two weighed not more than 150 pounds, and the smaller about 150 pounds. None of the men in the place were robbed. A posse has searched for the robbers, but no clue to their identity has been found.

DR. CHAS. F. STOKES AT-TACKS SEAMAN'S STATEMENTS

Challenges Accuracy of His Statistics Regarding Mortality in Spanish War And Russo-Japanese War.

Betroit, Sept. 26.—An attack this afternoon by Dr. Charles F. Stokes, surgeon in the United States navy, upon statements made by Maj. Louis L. Seaman of New York, in utterances concerning the results obtained during the Russo-Japanese war, and the medical officers with the medical history of the Spanish-American war and Philippine insurrection, was the feature of the opening day of the fourteenth convention of the Association of Military Surgeons of the United States.

Dr. Stokes sharply challenged the accuracy of the figures of Maj. Seaman and statistics. Dr. Stokes stated as stating that for a campaign lasting six weeks during the Spanish war, the proportional battle casualties to those of disease were 10 to 1. He then quoted the report of the secretary of war for 1898, as showing that this proportion was 1 to 5.

Dr. Stokes also said that the proportion of battle casualties in the Civil war 1 to 5, continued Dr. Stokes, "while the proportion as shown by the medical and surgical history of the rebellion was 1 to 2."

The speaker then quoted an alleged statement by Dr. Seaman that in Gen. George F. Smith's army, 5,000 men were killed and died, and said:

"He must have been in error in this case of sudden death at the front, because all the serious cases were transferred to the base hospitals in the rear, and of these 5,000 cases there were 500 cases of heart-beri-beri, a disease with mortality rate almost as high as typhoid fever."

Thousands of electric light wires were blown down, filling the streets with flames until the current was turned off. The city was in darkness when this dispatch was sent and all street traffic was suspended.

It was believed shipping in the bay had warning of the approach of the storm, and up to the time the disaster occurred the ships were invisible on account of the rain and had not communicated with the shore.

ARRESTED FOR SMUGGLING.

Geo. Berger, Supt. of Pullman Palace Cars at Seattle.

Seattle, Wash., Sept. 26.—George Berger, local superintendent of the Pullman Palace Car company, was arrested this afternoon by customs officers on the charge of smuggling. With him was Capt. F. H. Stevens, his wife, and his son, Steve, 16, who was then away from home.

"He was aware of the fact that there was a tick list of 24,000 in seven months, which gives an annual mortality rate of 10 per thousand, which is not very different from that of other armies under favorable conditions."

Dr. Stokes then quoted Dr. Seaman as saying that the military affairs committee of the House of representatives, that Seaman is almost unknown in the Japanese army.

"On the contrary," said he, "it is known that the first army had in four months 100 cases of beri-beri and 100 cases of cholera in seven months and it is still in the process of being sent to the forces of Noda's army before Port Arthur were 2,000 from beri-beri alone."

A report from the legislative committee of the House of representatives, that Seaman is almost unknown in the Japanese army.

Indicted for Abetting a Suicide.

Dartington, S. C., Sept. 24.—The grand jury has indicted Pegram Dargan for killing and shooting Robert Keith Darting, in taking his own life by procuring a gun to kill his brother Robert Keith Darting, who had sold and other drugs were sold for life after the elevation day of Jimmie (1905) in Dartington.

Pegram Dargan was president of the Dartington Cotton Oil company, the Dartington Trust company, institutions which have recently failed.

Murdered by Mexican Bandits.

Guadalajara, Mex., Sept. 26.—Manuel Parada, alpinist, form of the Bueno Vista mine in the Los Yemas district of Jalisco, and two assistants were held up near Guadalajara, Jalisco, while returning to the mine with \$6,000 in silver.

TEA.

The two most significant words between you and your grocer are Schilling's Best. They mean more than tea.

Your grocer returns your money if you don't like it.

BUILT UP HER HEALTH

SPEEDY CURE OF MISS GOODE

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Miss Cora Goode, 355 E. Chicago Avenue, Chicago, Ill., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be

Miss Cora Goode

CONTRIBUTIONS TO CAMPAIGN FUNDS

Seey. Hitchcock Opposed to Secret Ones and Favors a Law Requiring Publicity.

TALKS OF TARIFF REVISION.

Is Not Such a Fool as to Think It Should Always Remain as Now, or That World Doesn't Change.

Washington, Sept. 26—Seey. Hitchcock, in an interview, said:

"After the land fraud cases in Oregon have been wound up, United States Atty. Heney, who has been conducting them, will come to Washington and will look after the California cases, in which Hyde, Dimond and others have been indicted. Later on there will probably be other indictments in other states."

"The loss to the government through these frauds has aggregated millions of acres of land and millions more of dollars. The interest of the people of this country in the prosecution of these cases is one of the strongest of all interests of the nation to cut down grafters whenever they may be found."

Seey. Hitchcock, in speaking of campaign contributions, said:

"I have all along been opposed to secret contributions and I am in favor of passing a law compelling full publicity of campaign expenditures. The purpose of this legislation is to lead to undesirable results, such as suspicion. If contributions are legitimate there is nothing to be feared through publicity."

"I do not believe that the campaign contribution of the New York Life Insurance company to the Republican party is really responsible for what individuals may do. I really believe that Mr. McCall thought he was doing what was right when he gave the funds of the company to maintain the party which believes in sound money. I think, however, that Mr. McCall made a mistake in using the money of the insurance company for that purpose without the knowledge of the Dr. Williams' Medical Company, Schenectady, N. Y."

pathy and identical interests, will continue to grow in strength and solidity."

Baron Komura and his party will leave this city over the New York Central railroad at 9:45 o'clock tomorrow morning for Montreal, and thence travel to Vancouver over the Canadian Pacific line. The party will travel in the private car Saskatchewan and an eight-section drawing-room car. No stops other than those necessary in switching will be made, and it is expected to reach Vancouver on the morning of Oct. 2. The party will board the steamship Empress of India and sail for Japan that day.

Continuing, Mr. Hitchcock referred to tariff revision talk, saying:

"The tariff will be discussed this winter. I am not such a fool as to think that the world will change or that the world does not change as time goes on. I believe in the policy of protection, for that is what built up this country and made its present prosperity, but where the present tariff is thought to have fostered monopoly in any certain industry, I believe that it should be revised. It is to be found should be changed to meet new conditions. If changed it should be in harmony with the protective principle."

It is to be found should be changed to meet new conditions. If changed it should be in harmony with the protective principle."

LAND SHARKS SCARED.

Forfeit \$10,000 and Abandon 20,000 Acres.

Portland, Ore., Sept. 26.—A special to the Oregonian from Salem, Or., states that as a result of the vigorous prosecutions of land fraud cases in this state about 20,000 acres of school land situated in the Blue Mountains, and abandoned in eastern Oregon has been abandoned by locators who forfeited in the neighborhood of \$10,000. According to the Oregonian's correspondent, it is assumed that in most of these instances the land had been located by "dummies" and that the persons who provided the names of the locators tightened and quietly abandoned all the claims at the same time, masking no effort to recover the money invested.

MURDER OR SUICIDE.

Kewanee, Ill., Sept. 27.—John V. Kewanee, vice-president of the Swedish-American Bank, and a prominent attorney, is dead as the result of a mysterious shooting, and it has not yet been determined whether it was murder or suicide. His body was found late last night near his home with a bullet hole in the back of the right ear. He died in a few minutes. There is no known motive either for murder or suicide.

BEAUTIFUL WOMEN.

New York, Sept. 26.—Baron Komura, Japanese peace plenipotentiary, who will start for Japan tomorrow, gave to the Associated Press tonight the first authentic interview since he has been in this country on the peace mission and which he would be the last one. Baron Komura feels deeply grateful for many courtesies and kindnesses extended during his visit, and commended highly President Roosevelt's successful efforts in bringing the representatives of Japan and Russia together. The baron said:

"In leaving this country for home I find it my duty to express to the people of the United States, through the medium of the Associated Press, an assurance of my sincere and genuine appreciation of the respect, courtesy and friendliness shown me during my stay in this country, and especially grateful for the many attentions and inquiries received from all quarters during my recent illness and I go home with a most vivid recollection of the good will and friendliness of the American people, which has, I am convinced, grown immensely, both numerically and in intensity."

"Availing myself of this occasion, I deem fit that I should express my appreciation for the disinterested, energetic and untiring efforts of the president in the successful initiation and consummation of peace, and to him humanity owes a debt of deep debt."

"As the result of the war Japan will ultimately secure a well recognized position in the far east. I have, however, no hesitation in affirming that there will be no break in the continuity of Japan's foreign policy. Steadily and firmly adhering to the policy of peaceful expansion, Japan will devote all her energies to the development of her national resources. She will continue, as in the past, to scrupulously respect the acquired rights and legitimate interests of the powers in the far east, nor will she attempt to interfere in the affairs with the political and administrative development of those interests."

In her pursuit of commercial and industrial expansion, Japan will count upon the co-operation of the United States, whose interests in the far east are completely identical with her own, and whose traditional friendship for Japan has found fresh expression in the sympathetic attitude and sympathetic attitude maintained by the American people throughout the tremendous struggle in which Japan has been engaged.

"She will continue, as in the past, to scrupulously respect the acquired rights and legitimate interests of the powers in the far east, nor will she attempt to interfere in the affairs with the political and administrative development of those interests."
