Seat of French Government to be Removed to Paris!

Joinville and Aumale Resign their Seats and disclaim Intrigues!

General Sherman Avoids Politics and Delivers an Agricultural Speech!

WASHINGTON, D. C.

Internal revenue assessors Discharged.

WASHINGTON, 10.—The iron coast survey steamer *Reding*, now at Wilmington, will sail for the Pacific about the first of September. Professor Agassiz and Wills, of Cambridge, will go on the vessel for the purpose of taking deep sea soundings all the way along the route, and will make collections of specimens of natural history for the Cambridge University.

The commissioner of internal revenue has discharged 316 assistant assessors since the first of January, and 150 more will be discharged this month. The reduction already made will effect a saving of $300,000 per annum.

NEW YORK.

Professor Morse—How they died.

NEW YORK, 10.—Mail advices received by the steamer *Darien* to-night, state that the Archbishop of Paris died with the serene courage of a martyr. In answer to the insults of his executioners, he said, "Do not profane the word liberty; it is to us alone it belongs, for we die for liberty and faith." Dombrowski died in the bed room of the Hotel de Ville, formerly occupied by Mlle Haussmann. The day after his escape from La Mustte, he received three rifle shots while at Rue de Royale, and was transferred from there to the Hotel de Ville, where he died of his wounds. Delescluse was killed at the barricade of the Chateau d' Eau. His face was much disfigured by a portion of the burning wall, which had fallen on it.

The most complete arrangements are made by the telegraph committee to honor Prof. Morse to-day, and as the weather is beautiful the demonstration will undoubtedly be of an imposing character.

MISSOURI.

Bridge across the Missouri River.

ST. JOSEPH.—The Contract for building a bridge over the Missouri river at St. Joe was awarded, to-day, to the Detroit Bridge Works Co., for seven hundred and ten thousand dollars. The bridge is to be completed on or before November first, 1872.

OHIO.

Turned State evidence.

CINCINNATI.—In the trial of Tom McGeehan, at Lebanon, Ohio, to day, for the murder of Myers in a gambling house at Dayton last winter, Garvill, who was indicted with McGeehan, turned states evidence, and confessed to participation in the plot and the execution of the attack upon Myers and also testified that McGeehan shot Myers.

KANSAS.

Avoids politics.

LEAVENWORTH, 10.—General Sherman arrived here this p m., direct from Fort Gibson, Indian Territory. The citizens of Ottawa gave him a rousing reception as he passed through that town. Sherman responded, in a purely agricultural speech, avoiding politics altogether.

NEW HAMPSHIRE.

CONCORD, 10.—Weston is elected Governor.

CALIFORNIA.

SAN FRANCISCO, 10.—Professor Hayes has started on a tour into the interior with his allegorical tableaux' "Great Republic," and will give the first exhibition in Stockton.

This morning Judge Stanley, of the county court, reversed the decision of the police judge, in the case of James Wolf, who was arrested as a spectator at a keno game and fined. The case was carried up on appeal by the people, as a test. Judge Sawyer having decided that the board of supervisors could not make it a misdemeanor to merely become a spectator of a misdemeanor. Judge Stanley decides the ordinance valid.

There were fifty deaths in San Francisco this week.

The telegraph pole climbing match took place this noon, at the Plaza, between Dr. C. E. Valentine, of the W. U. Telegraph Co's office, and the holder of a patent climbing aparatus, from the east. The doctor distanced him with the old fashioned hooks, and carried off the champion climber's belt.

The *General Harney* and *Wild Gazelle*, which recently arrived from the north, brought a considerable quantity of very fine quality of cannel coal, which was found in immense seams on the mainland in latitude 58½, and on the Aleutian Islands, within a hundred yards of an excellent harbor. Measures are being taken to incorporate a large company here to work the Aleutian deposits.

The weather is damp and cloudy with a south wind.

Senator Casserly has telegraphed, declining the public reception tendered him this evening.

Mrs. Fair's death warrant is in the hands of the sheriff, duly signed.

A Chinese Young Men's Christian Association, numbering forty members, has been organized here.

The monument of Prof. Morse, inventor of the telegraph, was unveiled at New York to-day, with appropriate ceremonies, and congratulatory messages are being received and sent from and to all the principle offices in America.

The weather is cloudy and damp.

In response to an inquiry of the ticket holders, the managers of the Sacramento Pioneers' Gift Concert have issued a circular, stating that out of 60,000 tickets, less than eleven thousand remain unsold; that all will be disposed of, and the drawing will take place without reduction of prices within the next ten or fifteen days.

Gens. Bourke and Lubby, the Irish exiles, will address the public at Schutzen Park, Alameda, to-morrow, on the occasion of the excursion of the Hibernian rifles.

The Young Men's Democratic club has made all arrangements for a full turn out to serenade Senator Casserly, on his arrival from the East this evening.

MISSOURI.

A Grand Union passenger depot.

ST. LOUIS.—A meeting of railroad men was held here to-day and a company was organized with a capital of three million dollars, for the purpose of building a Grand Union Passenger depot in this city, estimated to cost as follows: Real estate, $700,000; tunnel $600,000; depot buildings, $1,000,000. One million and a half was subscribed at the meeting by the leading and prominent capitalists of this city. W. Tausig was elected president; D. Torrence, vice-president; E. W. Woodward, secretary, and J. U. Britton, Treasurer.

FOREIGN NEWS.

GREAT BRITAIN.

Snow storm—Sustaining Thiers.

LONDON, 10.—There was a one hour's snow storm this morning in Birmingham.

The Marquis of Lorne and the Princess Louise are at Deal.

Paris papers continue to uphold Thiers, affirming that a monarchy is the synonym for a revolution. They think the elections may possibly change the majority in the Assembly.

PRUSSIA.

BERLIN, 10.—The Czar has gone. Count Walderze is appointed charge d'affairs at Paris.

AUSTRIA.

Congratulatory.

VIENNA, 10.—Prince Hohenhohe goes to congratulate the Pope on his 25th anniversary.

FRANCE.

Pyatt in Paris—Seat of government to be removed.

VERSAILLES, 10.—Pyatt is in Paris.

The committee on the reorganization of the army is favorable to obligatory service.

Joinville and Aumale visited Thiers, Classy and other ministers, and were received. Thiers returned the visit. The Orleanists are preparing a banquet to Aumale.

The seat of government will shortly be removed to Paris.

The arrival of Chambord at Boulogne is contradicted.

Joinville and Aumale, at their interview with Thiers, resigned their seats in the Assembly and disclaimed intrigues.

The *Official Journal* announces elections in 113 districts to be held on the 2nd of July. The *Journal* assures the people that the deposits in the bank of France are uninjured.

The Princes' resignation was communicated to the Assembly to-day.

CANADA.

Religious matters.

TORONTO.—A long discussion took place last evening in the Synod of the Church of Scotland, in Canada, on the proposed Presbyterian union. The result was the unanimous adoption of a resolution embodying three articles forming the basis of the union.

CURTIS MODELS—PRICES REDUCED TO MEET THE TIMES!—The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory, but the sure way is to prove it for one's self which may be done without charge. This system removes all anxiety regarding the FIT of garments, as all its directions are absolutely positive. There will be no altering—mending nor letting out, which not only injures the material but destroys the permanence and often ruins the garment. The system is very simple and can be learned in a few hours.

This Machine is the harvest gathering of twenty years experience in the manufacture of Agricultural Machinery, and takes rank with the Printing Press, Engine, Lath and Locomotive in the qualities of precision, staunchness and durability.

Its foundation is a single piece of solid iron, of shape to resist all possible strains.

Its gearing is also cut to standard gauge, and each cut out of solid iron, with mathematical exactness.

The working parts are permanently fixed and really possess the advantage of being gauged and all other patented means of adjustment.

By these means, we reduce friction to the lowest point, adapt the best materials, combined in such proportions as will avoid breakage in harvest, and in fact make the "WORLD" a perfectly valid machine to set gear in other Kinds of machinery. The "WORLD" has been tested four years in the hands of the most intelligent and reliable farmers in the land, who unitedly declaring their unquestionable
