

JOHN REED GOES TO DENVER, COLO.

Chief Clerk of Short Line Motive Power Department Lauds a Good Thing.

F. L. VOORHEES SUCCEEDS HIM.

Division Clerk at Ogden Comes to Salt Lake and Enters Upon New Duties Today.

John Reed, chief clerk for the motive power and machinery department of the Oregon Short Line, has resigned and leaves tomorrow night for Denver, where he takes an important position with the Colorado Fuel & Iron company. F. L. Voorhees, the Short Line division clerk at Ogden, succeeds Mr. Reed here and today entered upon his duties. The appointment of a man to take Mr. Voorhees' place at Ogden had not this morning been definitely decided upon.

Mr. Reed has been identified with Salt Lake railroad and social circles for several years past and prior to going to the Short Line was chief clerk in the operating department of the Rio Grande Western under Mr. Welby, where he made a splendid record. His many friends here will be pleased to learn that he leaves Salt Lake to take a position that carries with it a considerable advance in salary.

Just what is the nature of the promotion is not at this time forthcoming, as when Mr. Reed stated that he would prefer that nothing be said regarding the change, in fact he distinctly declined to discuss the matter.

NORTH SHORE DEAL.

Harriman Gets Control of Road Out of San Francisco.

San Francisco, June 16.—One million, five hundred thousand dollars worth of bonds of the North Shore road, a 100-mile line from San Francisco to Canada, have been bought here by E. H. Harriman, and some of his eastern financial associates in accordance with the plan to make this minor road a part of the Southern Pacific. The Harriman Trust company of San Francisco held an option on the bonds. In addition it is understood that Mr. Harriman has secured a good-sized block of stock, so that now he virtually has a controlling interest in the road.

SCENERY CAME DOWN.

Rock Slide Blocks Traffic on Main Line of Denver & Rio Grande.

Leadville, Colo., June 17.—Denver & Rio Grande limited passenger train No. 5, westbound, was brought back to this city on account of a rock slide, which blocked the road near Miners' last night, and was sent west on the Colorado Midland road. Traffic was only slightly delayed, trains in both directions using the Midland tracks, and the Rio Grande tracks will soon be cleared of the obstruction.

A party of Western Union and Southern Pacific telegraph officials arrived in Salt Lake this morning for the purpose of looking after the service, arranging for installation of telegraph service on the San Pedro, Los Angeles & Salt Lake road, and other matters that are being brought up now that the Postal is heading for Salt Lake. In the party are A. E. Roome and C. Carmichael, respectively superintendent of telegraph and superintendent of construction for the Southern Pacific, and F. H. Lamb and C. P. Smith, who hold the same positions on the Pacific division of the Western Union.

U. C. Buys Outfits.

The Utah Construction company has added additional outfits to its already large equipment. The latest purchase was that of the railroad outfits of Lyman Sken and Levi R. Hammond. These consist of about 100 teams with machinery, scrapers, tents and other impedimenta. The major portion of these outfits will be sent down on the San Pedro, the balance going to work now in progress on the Short Line and Union Pacific.

C. E. Christman, the Short Line agent at Boise, who had off several weeks ago and underwent a serious operation, is back in the harness again.

With the resumption of through train service June 15, between Salt Lake City and Butte, with No. 7 leaving Salt Lake at 10:20 a. m. and No. 10 leaving Butte at 6 p. m., standard Pullman sleeping car service will be resumed between these points.

POLITICAL STRAWS.

Mat Thomas, the well known young Salt Lake lawyer, has announced his intention of becoming a candidate for the nomination of county attorney. In fact, he is even now an avowed aspirant for the place, and many Democratic friends are offering him their support.

Albert Sears, who was for a long time an attaché of the office of county clerk and for a considerable time the chief deputy of Mr. D. C. Dunbar, is out for

the nomination of county clerk on the Democratic ticket. This means a spirited rivalry between Mr. Sears and Mr. C. M. Jackson, whose name has previously been spoken of in the same connection.

With so many of the Republican leaders out of town, there is not much hope to be obtained concerning what is likely to happen at their conventions. Gradually, the candidates are announcing themselves, and some of these announcements are interesting.

Thus far A. S. Riser appears to be the only Republican candidate for state auditor and his nomination seems to be an assured fact.

There will be a pretty fight among the Republicans for the county recordership. The leading candidates are Jack May and Percy Perkins. Both are working hard and it is not unlikely that by the time the convention meets, 33 votes, as in the Powers-Percy contest, will be sufficient to change the result.

It is said that County Clerk John James is harboring the third term idea. If he decided to run, he will have his chief clerk, J. U. Eldredge, Jr., as his chief opponent.

Barney Quinn, a candidate for county assessor on the Democratic ticket, and friends are working hard in his behalf.

Judge Thomas D. Doe of Ogden is in the city today looking over the political field.

Col. Maxson of the Nevada delegation to the St. Louis convention came in this morning and conferred with local politicians regarding the stand Utah is likely to take while there.

M. H. Lund of the firm of Farnsworth & Lund will, in all likelihood, become a candidate for county attorney on the Democratic ticket. Mr. Lund was recently honored by the Young Men's Democratic club by being chosen temporary chairman of the organization.

Friends of D. B. Hempstead are urging him to go after the Democratic nomination for county attorney, but he is as yet undecided.

Among the Democrats mentioned at this early date for the state legislature is Congressman Arthur F. Barnes, whose friends want him to make the race for the lower house.

The Republicans promise an interesting exhibition in the fight for state treasurer. The leading candidates are Glazier of Utah county, Christensen of Sevier and Moses of Weber, each of whom is developing some strong support.

There is some quiet talk among Democrats of again naming Orson F. Whitney for the state senate, although the Bishop long ago declared that he is out of politics.

The delegates to the Democratic national convention have not accepted the invitation of the California delegation to travel on their special train to St. Louis, but will leave here Friday, July 1, on an early morning train, and arrive at St. Louis on July 2. The delegates will use a special sleeper over the Oregon Short Line and Union Pacific.

GOING TO CONVENTION.

Senator Kearns Will Leave for Chicago Tonight or Tomorrow.

Senator Kearns will leave for Chicago to attend the Republican national convention, either tonight or tomorrow, but just exactly when could not be learned this afternoon, as the senator had left his office and could not be found.

AT THE RESORTS.

The Seventeenth ward is out at Lagoon today in force.

The story in the Tribune this morning to the effect that M. A. Patten and O. H. Skidmore had been awarded a contract to construct a novel monorail tramway at Salt Lake for the accommodation of bathers is a little premature. No contract has been awarded.

The Ninth and Twelfth wards spent an enjoyable outing at Lagoon yesterday. The big day, however, will be the gathering of the Iron Moulders and Boiler Makers clubs tomorrow, when it is expected that the crowd will rival that of Miners' day.

The Oregon Short Line brought down from Ogden this morning on a special the members of the First Methodist church, who are out at Salt Lake today with the residents of the Twentieth, Twenty-first and Twenty-seventh wards.

IN SHOCKLEY'S BEHALF.

Judge Morse Signs Certificate of Probable Cause of Appeal.

Judge Morse today signed a certificate of probable cause of appeal to the supreme court in the case of the State of Utah vs. James M. Shockley, who is under sentence of death for the murder of Amasa L. Gleason, a street car man, on the night of Jan. 6, 1899. Attorney Wilson and Smith, who defended Shockley, have also filed notice of appeal with the clerk of the court and the necessary services have been made on Sheriff Emery so that the execution, which was fixed for Friday, June 24, will be stayed.

TWO OPINIONS.

Supreme Court Affirms the Judgment in The La Chalk-Harry Case.

The supreme court today affirmed the judgment of the lower court in the case of the State of Utah vs. Albert La Chalk and John Harry, who were convicted in Boxelder county for robbery and sentenced to three years in the state prison. The original information filed against the defendants alleged that the robbery was committed through fear and force, but the statutory words, "and against his will" were omitted. After defendant had entered their plea of not guilty, the court charged the jury to amend the information by inserting the words, which were omitted. That action on the part of the court was made the grounds for appeal, but the supreme court holds that the charge of robbery was sufficiently set out in the original information, and as the guilt of the defendant was established, the court will not interfere with the verdict. The opinion was written by Chief Justice Baskin and concurred in by Justices Barch and McCarthy.

WHAT'S IN A NAME?

The court reversed the judgment of the lower court in the case of the Richardson & Boynton company, appellants, against the Utah Stone & Hardware company, defendants. The charge of robbery was sufficiently set out in the original information, and as the guilt of the defendant was established, the court will not interfere with the verdict. The opinion was written by Chief Justice Baskin and concurred in by Justices Barch and McCarthy.

NO JOKE—JUST A LIE.

A fisherman stopping at the farmhouse of a well-to-do and educated German, referred to the inability of the average German to appreciate an American joke.

Yet the American was quick to catch on to any of the jokes given out in the Fliegende Blätter and other German comic publications. The German disputed this statement and said: "Germans are just as quick to understand a joke as anybody else."

"Well," said the fisherman, "here's one: We had down in our country a farmer with such big feet that when he went to bed nights he had to go out into the forks of the road and use it for a bootjack to pull off his boots."

The German never cracked a smile. "I told you so," said the fisherman. "Wait a minute, just," said the German, "so I see velder I you understand."

Sues the City.

Suit against Salt Lake City to recover \$450 alleged to be due for breach of contract has been filed in the district court by Fred C. Palmer. Palmer was awarded the contract by the city to construct all of the cement sidewalks ordered by the city between Jan. 1 and Oct. 31, 1903. It is alleged that an ordinance was passed prior to Oct. 31 last, providing for the construction of a sidewalk on Sixth East street between South Temple and First South streets, but that the work was not ordered by the board of public works until this spring. Mr. Palmer claims that he should have been given the work because the ordinance was passed during the life of his contract. Because of the failure of the city to give him the job he claims he has been damaged in the sum above stated.
