

AN INDIAN WAR IN MINNESOTA.

Outbreak of the Pillagers and
Bear Island Tribes on Leech
Lake Reserve Imminent.

WAR DANCES ARE IN PROGRESS.

Pillagers' Tribal King, Just Released
From Jail, Is Inciting the Young
Bucks Against the Whites.

Chicago, Aug. 27.—A dispatch to the
Chicago from St. Paul, Minn., says:
Reliable advices from the Leech Lake
reserve state that an outbreak of the
Pillagers and Bear Island tribes is im-
minent, and that agency officials have
begun to remove their household effects
and families to Walker, the nearest
railroad town. War dances are in
progress.

The tribal king of the Pillagers, who
has just been released from jail, is in-
citing the young bucks against the
whites and is actively supported by the
younger element among the tribal chiefs
who are anxious for a fight. The Pil-
lagers have been sullen and ugly for
two months, and the situation has just
been brought to a head by the tribal
troubles. All the younger Indians are
well armed, and are the most ignorant
and the most warlike of all the reserve
tribes. Chief Flat Mouth and Big Ah-
ha Ke Shish, powerful chiefs, are ar-
guing for peace. Flat Mouth's words
have little effect because he is old and
regarded with contempt by the younger
element.

SMITH FAMILY REUNION.

More Than 4,000 Present at
Twenty-eighth Annual Reunion

New York, Aug. 27.—More than 4,000
Smiths were present at the twenty-
eighth and largest annual reunion of
the Smith family and friends at Pos-
pack, N. J. Their ages ranged from a
few weeks to 80 years. The founder
of the family in New Jersey, John
Schmidt, is supposed to have arrived
from Holland in 1743, and lived on a
farm near Pospack. His 17 children re-
mained in the state of their birth, ex-
cept two.

New Rice Pest.

Essexwood, La., Aug. 27.—Seaweed is
a new rice pest for Louisiana. It grows
tremendously and will kill out the best
field of rice in a short time once it gets
started. It is only found on land where
salt water was put on land last year.
Hundreds of acres will be ruined by
seaweed and grass.

THIEF MAKES RESTORATION.

Of Large Amount of Certified
And Cancelled Checks.

Chicago, Aug. 27.—After stealing cer-
tified and cancelled checks to an aggre-
gate of \$35,000, a thief has taken the
trouble to restore them to the bank
from whose messenger he had secured
them.

The checks were in a valise which
disappeared while George Nelson, mes-
senger for the Milwaukee Avenue State
bank, was riding on a cable car.
Apparently the thief thought the va-
lise contained currency, as when he dis-
covered to the contrary, he left it with
the cashier of a restaurant and sent a

telephone message which put the bank
on the track of the missing paper. The
police have a good description of the
thief.

A WOMAN'S RECORD.

Married Five Times, Divorced
Three, and a Bride Again.

Jeffersonville, Ind., Aug. 27.—Married
five times within 25 years, made a
widow once by death, divorced from
three husbands and now a bride, is the
record of Mrs. Mary Mott-Thompson-
Cotvin - Neal - Conway - Smith, whose
home is in Ohio Falls, Ind., a suburb of
Jeffersonville. The last marriage took
place two weeks ago last night, George
O. Smith of Ohio Falls being the groom.
Although married on so many occa-
sions, Mrs. Smith is not more than 50
years old and is good looking and well
preserved.

FINANCIAL LEGISLATION.

Republican Leaders Coming to
Harmonious Understanding.

Providence, R. I., Aug. 27.—Senator
Aldrich of the senate finance committee
says that advances tending to show
growing progress toward a harmo-
nious understanding among Republican
leaders in both houses of Congress on
the subject of financial legislation at
the coming session have been received
by him. However, no meeting of the
sub-committee will be held for some
time.

Investigating Grain Options.

New York, Aug. 27.—Committeemen
from the New Orleans board of trade
who have been here for the past few
days inquiring into methods of option
trading in grain have completed their
investigation and will leave for Phila-
delphia today. Thence they will go
back to Chicago before returning to
New Orleans. Members of the com-
mittee say they are now fully convinced
of the necessity and desirability of
a grain option market in New Orleans,
and that it probably will be estab-
lished by Oct. 1.

Book Store.

MOVING A PARIS BRIDGE.

A clever engineering feat was accom-
plished in connection with the exten-
sion of the Paris "tube." Between 6
o'clock in the morning and 3 o'clock
in the afternoon a bridge 130 feet long,
which spans the Seine at Passy, was
moved a distance of nearly 30 feet. The
preparatory work for this difficult op-
eration took about 10 weeks, and when
everything was ready the huge mass
was moved over wooden rollers by a
windlass, worked by hand for safety.
The operation was completely success-
ful—London Mail.

OPENING GUN OF CITY CAMPAIGN.

Sinews of War Being Obtained at
An Immense Social Gather-
ing Today.

SALT PALACE IS THRONED.

Big Program of Sports This After-
noon and All Kinds of Attrac-
tions for Tonight.

A mighty host of Republicans, young
and old, swept down upon the Salt
Palace today and took possession. About
3 o'clock this afternoon the crowd
numbered several thousand and it is
estimated that before nightfall the
grounds will be packed as seldom
if ever before with a throng that will
reach very close to 10,000. The cause
of this great day is the annual outing
of the Young Men's Republican club of
this city, the members of which have
been busily engaged for several weeks
past arranging details for the biggest
day of the season at this resort. Up to
last night the club had disposed of
fully 11,000 tickets of admission, so that
from this it will be seen that their
efforts have not been without success.
Committees were on the ground early
today looking after the entertainment
of their guests, and this afternoon
there was a splendid program of sports
carried out under the direction of
Dana T. Smith and associates. The
events scheduled to take place were as
follows:

100-yard dash, open to all comers—
first prize, \$10; second prize, \$5.
50-yard dash, first prize, \$5; second
prize, \$2.
Three-legged race, 50 yards—first
prize, \$5.

Potato race for boys—first prize, \$2;
second prize, \$1.
Tag-of-war, 25 men on side—Prize,
2 cases of beer.
Greatest pig—Prize, it.

Burns race, at least three entries—
first prize, \$5; second prize, \$3.
In addition to the above there was
music during the day by Held's band,
the Rabagliato orchestra and the Ap-
polo quartet, and this evening the
bicycle races booked for Friday night
will be pulled off, so that lovers of
sport on the saucer will be well pro-
vided for. There will also be prize
dancing, the best lady waltzer win-
ning a lady's oxidized silver belt, and
the second best a lady's ivory and lace
fan. To the youth present who will be
the youngest Republican voter on elec-
tion day, Nov. 3, 1907, the name and
address to be handed to the committee
designated on the grounds, a prize.
A cash prize will be awarded to the
district which polls the largest per-
centage of its Republican vote at city elec-
tion, the winner to be designated by the
Republican city central committee. The
number of each district desiring to
compete must be handed in to the sec-
retary of the Young Men's Republican
club on or before the date of the next
city convention.

Heavy Rains in Montana.

Butte, Mont., Aug. 27.—Extremely
heavy rains the past two days in north-
ern Montana, have caused numerous
washouts on the Great Northern, par-
ticularly in Choteau county and all
trains are running from four to six
hours late. Many of the small creeks
have become bankfull and are over-
flowing.

CLEAN UP AND CHECK TYPHOID.

Board of Health Makes Such an
Appeal to the Residents of
This City.

CIRCULAR LETTER JUST ISSUED.

People Advised to Boil All Water Used
For Domestic and Culinary Pur-
poses—Other Timely Advice.

The typhoid fever epidemic in this
city has become of such proportions
that the board of health has issued a
circular letter to the general public
asking for its assistance in checking
the disease. The people are requested to
pay particular attention to clean-
ing up their premises, cesspools and
outhouses and are warned not to use
water for domestic purposes until it has
been boiled or filtered. Under no cir-
cumstances should flowing well water
be used until it is thoroughly boiled.
Two more flowing wells were con-
demned yesterday after City Chemist
Hanna completed analysis of their
waters. One of the wells is located at
164 north Sixth West street and the
other at 663 north First West.

The circular letter issued by the
board of health contains some timely
advice which should be closely fol-
lowed by the people of the city so that the
spread of the disease may be checked
as much as possible. The letter fol-
lows in full:

To the Public.—Owing to the rapid in-
crease of typhoid fever in this city, we
respectfully ask the general public to
assist as far as possible in preventing a
further spread of the disease by ob-
serving the following rules:

By instituting a general clean-up of
the premises, paying particular atten-
tion to outhouses, vaults, cesspools, de-
fective drainage, contaminated water
supply, etc.; fifth, over-crowding, bad
ventilation, etc.

Boil all water used for domestic and
culinary purposes, filtering all waters
when practicable.

In homes where the disease exists all
excreta must be disinfected before
thrown out, to do this mix equal parts
of disinfectant and water in a vessel
containing a solution of corrosive sub-
limate, one part to 1,000, viz., one
ounce of corrosive sublimate to eight
gallons of water; carbolic acid solution
in 5 per cent solution, chloride of lime,
eight ounces to the gallon.

It is better to bury the excremental
discharges after disinfection than to
throw them into a vault or a cesspool.

Soiled bedding and linen should be
treated with an antiseptic solution and
then thoroughly boiled again before us-
ing; one to 1,000 corrosive sublimate,
and allow to stand and soak over night
before taking out to be washed, is a
very effective method of purifying and
disinfecting the linen and clothing.

Milk, and cream, and butter, and
other articles of food, should be care-
fully disinfected before being used again.
Dishes, glassware, knives, forks, spoons,
etc., used by the patient, boil after
using.

Do not throw excreta where it can be
washed into streams.

The analysis of the city chemist
shows contamination in the flowing
wells at the addresses here given: 164
north Sixth West, 663 west First
North and Goss court, Sixth South, be-
tween Fifth and Fifth West.
All are highly contaminated and the
water from these wells must not be
used, except it is thoroughly boiled
first.

BOARD OF HEALTH.

By M. R. STEWART, M.D.,
Health Commissioner.

SUMMER SCHOOL WON'T DO.

Attorney General Breeden Says Ex-
aminations at Them Are Not Sufficient.

According to the opinion of Attorney-
General Breeden, which has been sub-
mitted to State Supt. of Schools Nel-
son, the state board of education has
no right to exempt teachers from tak-
ing the regular teachers' examinations
upon subjects in which they success-
fully passed examinations at a summer
school.

Supt. Nelson is therefore notifying
the various county and city superin-
tendents throughout the state of the
opinion of the attorney-general in a
circular letter as follows:

"Several county superintendents have
asked the state board of education to
give them the authority to exempt
teachers from the regular examinations
in subjects successfully passed in sum-
mer schools. This question was sub-
mitted to the attorney-general. In his
reply thereto, after quoting sections
176 and 178 on the revised statutes as
amended, chapter 87 of the session
laws of 1891, among other things per-
tinent to the question, he says:

"It is not difficult to see that if the
state board of education had the power
coupled with the disposition to author-
ize the county boards to accept sum-
mer school work in lieu to examina-
tions, the very object which the law
seeks to accomplish—uniformity in
examinations throughout the state, would
be entirely defeated. I have been un-
able to find any legislation respecting
summer schools, and while they de-
serve the highest commendation for
their efforts to raise the standard of
the teacher, they cannot be recognized
as a part of our public school system.
It therefore follows from the foregoing
discussion of the subject before us,
that your question must be answered
in the negative, and you are so ad-
vised."

"Knowing that this opinion will be of
interest to you, I have the pleasure in
sending you this copy. Yours very re-
spectfully,
A. C. NELSON,
"State Supt. of Public Instruction."

Social and Personal.

Immediately before her departure for
Europe, Miss McCormick was guest of
honor at a beautifully appointed lunch-
eon, given at the Country club by Miss
Salisbury. The table was prettily ar-
ranged with masses of sweet peas, and
streamers of pink ribbons, extended
from the bowl of flowers in the center,
to each guest, while bunches of sweet
peas were used as place cards. Eight-
een of the most intimate friends of the
guest of honor were present.

The many friends of Mr. John F. Mil-
ler, late of this city, will be most in-
terested in the announcement of his
engagement to Miss Harriet L. Merchant
of Troy, N. Y., the wedding to take

place at Trail, British Columbia, now
the home of Mr. Miller, where he holds
a responsible position. Mr. Miller's
mother, Mrs. Rachel S. Miller of this
city, will attend the wedding.

Mrs. Dr. Dowd of Sunnyvale, Utah, is
in town visiting her mother, Mrs. John
Sharp. She expects to remain here for
the next week or 10 days.

Mr. and Mrs. J. L. Duncan and Miss
Edna Duncan will be guests of honor
at an informal musicale this evening,
given by Mr. and Mrs. T. G. Love.

Mr. and Mrs. Leo Campbell left to-
day for their home in Logan.

Miss Allie Miller will have as her
guest for the next week Miss Ruth
Kirkpatrick.

Mr. and Mrs. E. E. Calvin have re-
turned from the Yellowstone.

A quiet wedding took place last eve-
ning when Miss Edie Settles of Pueblo,
Colo., was married to Frank Blag of
Denver, at the home of Rev. and Mrs.
Helmick. The young couple will leave
for their future home in Colorado after
spending a few days in this city.

Mrs. E. T. Settles of Pueblo, Colo., is
in town visiting her sister, Mrs. D. M.
Helmick.

A jolly party returned from an out-
ing in Idaho during the week, among
them were Mr. Harry Shearman and
sister, Miss Edith Shearman, Dr.
Chitchelew, and Mr. and Mrs. Alma D.
Katz.

Mrs. M. H. Critchlow has returned
from Castile Springs, where she has
been staying for the past two weeks.

Mr. Bersbach of Chicago has returned
to his home after a pleasant visit with
his sister, Mrs. Sam Porter.

Miss Keith will not return from Cor-
onado Beach, Cal., until the latter part
of September.

The wedding of Miss Kate Parry and
Mr. George M. Lawrence will take place
this evening at the home of the bride's
parents, 544 west First North street.

Miss Maude Ward entertained in-
formally at dinner on Tuesday evening.

Mr. Robert Marsh left the early part
of the week for Cornell, where he will
study this winter.

Mrs. Thomas Marionaux expects to
return to her home in Nephi the last of
the week. Mrs. George Snow will go
with her as her guest.

Mrs. Albert F. Joy left today for Il-
linois to visit relatives and friends.

Mrs. C. J. McNitt and children have
gone to Chicago for a visit of several
weeks.

Harold Orlov will leave the first of
the week for Detroit to resume his stu-
dies under Dr. Jones. He will stop over
a few days in Chicago.

Mrs. G. N. Warwick has gone to
Brighton for a few days.

Miss Ardella Blitner is home again
from New York, where she has been
studying for the past two months.

RETURNED MISSIONARIES.
Have you a friend or acquaintance
in your former field of labor, to whom
you would like to send a copy of the
Semi-Weekly News? If so, take ad-
vantage of our special offer, made to
aid the great missionary work. We
send the paper one year to any point
in the United States, Canada or Mexi-
co at half price, \$1.00. This does not
apply to points where there are regu-
lar wards or stakes. Foreign postage
extra.

DESIGNING

UNIVERSITY OF UTAH

The University of Utah includes the School of Arts
and Sciences, the State School of Mines, and the
State Normal School.

SCHOOL OF ARTS AND SCIENCES.
The School of Arts and Sciences
offers courses in:
1. General Science.
2. Liberal Arts.
STATE NORMAL SCHOOL.
The Normal School offers:
1. A four-year Normal course.
2. Advanced Normal courses.
3. Courses in Kindergarten Train-
ing.

STATE SCHOOL OF MINES.
The School of Mines offers courses
in:
1. Mining Engineering.
2. Electrical Engineering.
3. Civil Engineering.
4. Mechanical Engineering.
PREPARATORY SCHOOL.
A preparatory school is main-
tained which gives preparation for
the courses in General Science, Lib-
eral Arts, Engineering, Law, Medi-
cine, and Business.

The above and chemical, physical, electrical, mechanical, assaying, and
metallurgical laboratories are unsurpassed in the completeness of their equip-
ment.

The proximity of great mines, reduction works of various kinds, and power
houses for the generation of electricity, affords unexcelled advantages for
thorough and practical work in all the engineering courses.

Manual training and domestic science are features of the normal courses.
Entrance examinations, September 8th, 10th and 11th. Registration of
students, September 11th and 12th.

Students will be assisted in finding suitable boarding places.
Annual registration fee, \$10. No tuition.

Send for catalogue and illustrated circular and learn what excellent oppor-
tunities the University offers for a broad, liberal, and practical education.
UNIVERSITY OF UTAH, Salt Lake City.

BIGELOW CARPETS

The Carpets made by this Company have received the highest award
wherever exhibited, including Gold Medals at the Paris Exposition, 1878, and
at the Centennial, 1876.

Their deserved reputation for excellence of fabric, richness and durability
of color, novelty and beauty of design, has led to frequent infringements, and
inferior goods have often been palmed off in their stead. For the protection of
the public the Company has adopted as a trade-mark the word "BIGELOW,"
which will be woven (at every repeat of the pattern) in white capitals into
the back of the fabric. Customers will therefore have merely to examine the
back of a carpet to be certain that they are getting the genuine Bigelow Car-
pets.

These Goods can be obtained from all first-class dealers.

SUMMER RHEUMATISM

Every season has its own diseases, but Rheu-
matism belongs to all, for when it gets well entrenched
in the system, and joints and muscles are saturated
with the poison, the aches and pains are coming and
going all the time, and it becomes an all-the-year-
round disease; an attack coming as quickly from sud-
den chilling of the body when overheated, a fit of in-
digestion or exposure to the damp, Easterly winds of
Summer as from the keen, cutting winds, freezing
atmosphere and bitter cold of Winter.

Rheumatism never comes by accident. It is in
the blood and system before a pain is felt. Some
inherit a strong predisposition or tendency; it is born in them; but whether heredity is
back of it or it comes from imprudent and careless ways of living, it is the same always
and at all seasons. The real cause of Rheumatism is a polluted, sour and acid condition
of the blood, and as it flows through the body deposits a gritty, irritating substance
or sediment in the muscles, joints and nerves, and it is these that produce the terri-
ble pains, inflammation and swelling and the misery and torture of Rheumatism. No
other disease causes such pain, such wide-spread
suffering. It deforms and cripples its thousands,
leaving them helpless invalids and nervous wrecks.

When neglected or improperly treated, Rheu-
matism becomes chronic, the pains are wandering or
shifting from one place to another, sometimes sharp
and cutting, again dull and aggravating. The mus-
cles of the neck, shoulders and back, the joints of the knees, ankles and wrists, are
most often the seat of pain. Countless liniments and plasters are applied to get relief,
but such things do not reach the poisoned blood; their effect is only temporary; they are
neither curative nor preventive. The blood must be purified, and all irritating matter re-
moved from the circulation before permanent relief and a thorough cure is effected, and no
remedy does this so certainly and so quickly as S. S. S. It contains not only purifying
and tonic properties, but solvent qualities as well, all these being necessary in eradicating the
poison and making a complete and lasting cure of Rheumatism. S. S. S. cleanses the

blood of all irritating matter and the acid particles are
dissolved and filtered out of the system, thus relieving
the muscles and joints and removing all danger of future
attacks. Under its tonic effect the nervous system re-
gains its normal tone and the appetite and digestion im-
prove, resulting in the upbuilding of the general health.
S. S. S. contains no Potash or minerals of any descrip-
tion, but is guaranteed purely vegetable. Old people
will find it not only the best blood purifier, but a most invigorating tonic—just such a remedy
as they need to enrich the blood and quicken the circulation.

Whether you have Rheumatism in the acute or chronic stage, the treatment must be
internal, deep and thorough in order to be lasting. Never be satisfied with anything less
than an absolutely perfect cure. This you can get by the use of S. S. S., the oldest
and best purifier and greatest of all tonics.

Write us fully and freely about your case, and medical advice will be given without
charge, and our special book on Rheumatism will be mailed free to all desiring it.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

HIS WIFE A GREAT SUFFERER.

My wife had been troubled with Rheu-
matism for some time when she heard of S. S. S.,
which she tried and which cured her com-
pletely, as she has not suffered since. I re-
commend S. S. S. as a good medicine.
