

TITHING IN THE CHURCH SCHOOLS

President Brimhall Presents An Interesting Paper on That Subject Today.

SECOND DAY OF CONVENTION

Teachers Assembled Decide to Have Address Published in Church Magazine or Pamphlet.

The second day of the convention of the Church school teachers was opened this morning at Barratt hall. The chief feature was the presentation of a paper on tithing in the Church schools, by President Brimhall. President Brimhall's address created a profound impression, and it was decided by the convention to have it published either in one of the Church magazines or in separate form.

President Brimhall's paper was on the teaching of tithing in the Church schools. He first called attention to the history of the subject, not only under the Jewish rule, but also under the Christian dispensation. He then read the revelation on tithing. People, he said, should be taught that tithing is a law of the Church. It is the best protection financially, as a great many can testify—a security against financial distress. As to the social aspect of the principle of tithing, or rather its application in life, the speaker declared that a man once came to him to inquire as to the probability of getting an interview with a third man whom President Brimhall knew. The speaker declared that he would either make investments for him or direct him in making investments. "I am certain as to two points of his character," said he, "first that he is able to do it, and second, that he is honest, although the man is not personally known to me." "How do you know this?" asked President Brimhall. The answer was that any man who will keep his contract with the Lord will not be dishonest with his fellow-man.

The speaker then went on to affirm that tithing should be taught that tithing was made for man and not man for tithing; in other words, he said, we were not made in order that we might be taxed by the Lord. We pay tithing to receive blessings from the Lord.

The paper abounded in short, pointed sentences, full of deep significance, which would have to be heard in order to be appreciated to the general and lively discussion followed the reading.

The music for the session was furnished by the B. Y. university. A violin was rendered by Prof. Goodmunden and a vocal solo by Miss Jennie Camp.

YESTERDAY'S SESSION.
Two interesting papers read before Teachers and Class Workers.

The Church school teachers and Religion class workers held the second session of their convention yesterday afternoon. Two papers were read, one on the correlation of theology with other studies, by D. C. Jensen, of the B. Y. college at Logan, and another on matronwork, by Zina Y. Card, of the L. D. S. university. The former paper was to have been given this afternoon, but was given at this session because Mr. Dalby of Rick's academy, who was to have given his paper on Old Testament theology, was delayed by a wrecked train. Mr. Jensen gave a scholarly treatment of the history of correlation and the manner in which it might be carried out in the Church schools. His paper was discussed by Prof. N. L. Nelson and others.

Mrs. Card's paper dwelt largely on the needs of matrons and their qualifications for their duties. Her paper was discussed by President Brimhall and Elder Hyrum M. Smith.

Last evening a large number of teachers in the Church schools and Religion classes were given a reception in Ogden hall. Dancing was the main feature.

This evening President Nephi L. Morris delivered a lecture before the teachers at Barratt hall.

RAILROADERS IN LINE.

Will Be Given a Division in the U. C. T. Parade on June 18.

Railroad men are to have a division in the U. C. T. parade when it forms on West Temple street June 18. D. R. Grey of the Oregon Short Line freight department has been in charge of the railroad division, and has promised Fisher Harris of the Commercial club that there will be 75 men in line, representing the men who hustle for freight while the U. C. T. people are hustling for the business orders that mean freight as soon as they are forwarded east.

"There is a keen fellowship come to think of it, between the hustlers for business and the hustlers for freight," said Fisher Harris this morning, "and that accounts for men who handle freight being glad to get into the U. C. T. parade, and have a good time while in the Salt Lake fashion."

The freight men are planning a distinct insignia, whose exact nature will not be known for several days.

Some one asked us what we thought of the weather.

We replied, "-----"

And that goes. Why, if it weren't for these raincoats we've been selling, we'd say worse than that.

AUDACIOUS THIEF HOLDS UP HEMPEL

Jake Hempel, brother of John Hempel, first sergeant of the police force, except when Chief Pitt is away, and then commander-in-chief of the whole works, had an experience with a clever crook about 5 o'clock this morning which he will not soon forget.

Hempel's rooms at 158 south State street. When he retired last night he had in his trousers pockets between \$7 and \$8. He carefully placed the trousers under his pillow and went peacefully to sleep, feeling secure that Brother John, present boss of the police department, would keep away all evil doers. But the crooks apparently did not fear either Sgt. John or brother Jake, as one of them entered the room of the sleeper, jerked his trousers from under the pillow, extracted the money and fled.

Hempel was awakened and quickly discovered his loss. Quickly putting on his trousers he started after the thief and caught him in front of the Orpheum. Placing a heavy hand on the robber, Hempel ordered him to march to the police station.

GUN IS INTRODUCED.
"There must be some mistake," said the man. "I am no thief. I am a hard working man, as you can see from my clothes." The fellow stepped back, threw open his coat to prove his assertion, and the next second Jake Hempel was gazing at a very large and ugly looking revolver which was pointed at his heart. Hempel caught the robber and the robber caught Hempel.

"Now you stay, stand back and don't holler or I'll blow a hole in ye," angrily exclaimed the thief. "Just money back 't' yer room an' if ye say a word I'll shoot."

The man had the drop on Hempel and he could do nothing but obey the order. He went back to his room and the robber escaped. Hempel lost no time in reporting the affair to Brother John, who is now hard at work on the case.

At 6 o'clock a man giving the name of George Patterson, who has been arrested several times, was taken into custody by the police and lodged in jail on suspicion. Jake Hempel saw the man but could not identify him.

ATTEMPTED ASSAULT.
Police Looking for a Peddler Who Hides in Millam Cellar.

The police are looking for a foreigner, name unknown, who has made two attempts to assault Cora Milam, the 12-year-old daughter of Harvey A. Milam of 320 west Third North street.

The man is a peddler and called at the Milam home yesterday afternoon trying to sell bananas. The child was alone at the time and the fellow made an attempt to get into the house, but she shut the door in his face. The man then got into the cellar and when the girl went to get some potatoes he tried to seize her. She ran screaming from the place and the peddler made his escape.

This morning, about 8 o'clock, he again returned to the Milam home and hid in the cellar. The girl saw him and notified police. Officer Emil Johnson and Patrol Driver Moore hurried to the place but the man had escaped.

LOST HIS CASH.
Another Victim of Negro Pickpockets Operating in This City.

A man giving the name of K. Brown, reported to the police this morning that he had been robbed of \$20 by a negro woman on Third South between State and Second East streets last night. The woman stopped Brown and asked him in conversation for a few moments. When she left, Brown discovered that his purse and \$20 were missing.

This sort of thing is of almost nightly occurrence and the police seem to be unable to land the thieves. There is in Salt Lake now a gang of expert pickpockets who roam the streets at night looking for a chance to steal. If these women can engage a person in conversation for a few seconds it is almost a certainty that that person will lose money or jewelry.

ADVANCE IN RATES IS TO BE FOUGHT

Railroads Propose Charging Ten Cents More Between Utah And Missouri River.

NOT FAIR ON VERY FACE OF IT

Would Make Cost of Shipping to or From Omaha as High as Chicago Rate.

(Special to the "News.") Omaha, Neb., June 5.—Application for an injunction is being prepared to restrain the trans-continental railway lines from advancing the rates from the Pacific coast to the Missouri river and from Utah and common points to the Missouri river. The Missouri River Wholesale Grocers' association, which has members in Kansas City, St. Joseph, Omaha and Sioux City, is doing this. The application will be filed as soon as it can be prepared in all probability in the federal court at Kansas City or Omaha. It will be asked to restrain the roads from putting into effect the tariffs filed by R. H. Countess, agent of the Transcontinental Freight association, May 22 and effective July 10. These tariffs show an advance of 10 cents from Pacific coast points to the Missouri river jobbing centers, advancing the rate from 50 cents per hundred to 60 cents per hundred. Another advance proposed is from Utah points, the advance being 10 cents per hundred from 35 cents to 45 cents.

If the rates become effective the rates to Missouri river points from Utah and from the Pacific coast will be on the same basis as from the western points to Chicago and the Mississippi river. In other words, the railroad proposed to charge Kansas City, St. Joseph, Omaha and Sioux City 60 cents per hundred pounds on such commodities as sugar, and still haul the commodities on to the Missouri river for the present rate, which is 50 cents.

The proposed rates are to be from the coast to Missouri river and "intermediate points" which means that all stations east of Utah will have a 10-cent rate from the Pacific coast and those east of Colorado to and including the Missouri river cities, will have a rate of 45 cents. Just what caused the roads to take this action is a matter of conjecture. Some time ago the Grand Island sugar shippers asked the Nebraska railroad commission to give them a 10-cent rate from Omaha to Grand Island on such commodities as sugar because the railroads years ago made a rate of 10 cents on sugar from Grand Island to Omaha to assist the western sugar factories.
