## EVENING NEWS.

Thursday, May 19, 1881.

### BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.  
FORTY-SEVENTH CONGRESS.  
SENATE.

WASHINGTON, 17.—The committee reported adversely on the resolution, thanking Senator McMillen. It was indefinitely postponed.

The five per cent. bill was taken up. Garland supported it.

On the question whether military scrip lands were entitled to be considered as actually sold, upon which five per cent. was to be paid, the bill went over without action, after which the executive session adjourned.

HOUSE.  
WASHINGTON, 17.—The House resumed the bank charter bill, the debate being closed the bill was read by sections for amendment.

March, of Maine, offered an amendment reducing from 20 to 30 years the period for which the bank may extend their operations. He was willing to let the banks three years to go into some honest business.

Reverend, of Missouri, moved the period to 10 years. The committee on elections, submitted a report on the case of Lowe, Wheeler, for the Eighth Congressional District of Alabama, declaring contestant Lowe entitled to the seat.

The Commissioner of Agriculture informed the House that chinchon seed had been distributed, but that there is little hope for the growth of that plant except in Southern California and Florida. Adjourned.

### AMERICAN.

Still They Come.  
WASHINGTON, 17.—The chief of the bureau of statistics, reports that the total number of immigrants that arrived from the principal foreign countries for the ten months ending April 30, was 44,490, against 44,882 for the same period in 1880. Germany leads in the matter of numbers, being 185,000, an increase of over 40,000 as compared with the previous year. Immigration from China for 1882, 21,896 and for 1881, 6,083.

Appointments.  
Among various appointments sent to the Senate to-day by the President, were William E. Brown, Surveyor General of the United States, District of California; Thos. Wing, of Ohio, register of the land office at Prescott, Arizona; Samuel W. Backus, postmaster at San Francisco.

Confirmed.  
The Senate to-day confirmed the following Postmasters—Mrs. Elizabeth M. Wilson, Dulles, Oregon; John Clement Red Bluff, California; Charles H. Jackson, Georgetown, Colorado.

Wm. A. Maury, Assistant Attorney General.  
United States Consuls—H. A. Miller, of Minnesota, at Guaymas; O. V. Tusley, of Minnesota, at Trieste.

Wm. Reipath, of Indiana, Indiana Agent at Yankton, Dakota.  
Fecundary Patents.  
The President is overrun with applications from nearly all the States for appointments to the tariff commission. It is said that nearly 500 names have been presented at the White House with high endorsement for places on the commission.

Most of the names suggested are representatives of special interests, and the President, it is reported on high authority, has decided not to compose the commission of gentlemen from the principal industries of the country. It may be that in making up the commission the President will choose as members some gentlemen interested in the special branches of trade, but they will not be selected on account of their familiarity with single departments of industry, but because of their capacity to deal with tariff on a whole.

FRUSTRATING THE MINING STOCKS.  
NEW YORK, 17.—The Times says: Our mining exchanges seem to be awaking to the fact that at least suspicion of value must attach to securities in which they deal before the public will consent to place any confidence in them. The American Mining Exchange has taken the initiative in a movement which it is expected will revolutionize mining into healthy proportions. Upon the exchange boards a long line of stocks has been listed and dealt in, of which few persons have known anything of a satisfactory nature. In fact it has been long notorious that mines which by sheriff's sale or more questionable means have ceased to have any shadow of existence, yet not only on the exchange lists but in regular and irregular transactions. Thus was a premium placed upon corners and upon a long catalogue of swindles known but to the adept or manipulators.

The Board of Managers of the Exchange heard arguments upon this matter a few days ago and promptly determined to take decisive action. Yesterday they officially announced that the securities of the following mines had been ordered stricken from the lists: The Auburn and Rock Creek, Battle Creek, Boulder Consolidated, Glyndale, Indian Queen, Lady Tender, Malachite, Miral Creek, Rio, New Silver Nugget, Old Silver Nugget, Standby and South Noon day. The President said yesterday, in discussing this action of the exchange, that their still remained other securities not less deserving of being thrown into the street. "And they will go to, before many days," he said. Prominent members of the New York Mining Exchange declared that there was a demand for a similar pruning process in their list, and it was hoped that official action would be taken soon.
