senators and Minister Wu Express Views on Various Topics.

Baltimore, Feb. 1.-The annual ban-quet of the Merchants and Manufacturers' association last night brought together a large humber of distinuished men, among whom were four United States senators and a dozen or more congressmen and nearly all the prominent officials of the State of Ma-ryland. The Chinese Minister Wu Ting Fang, was the chief guest and his per sonality aroused the greatest interest as did also his response to the toust of "Our International Relations with China." Senator Daniel of Virginia discussed "Commerce and the Nicara guan Canal)" Senator Thurston of Ne-braska talked about "The Broadening Horizon of National Duty;" Senator Burrows, of Michigan, told of "National Financial Problems;" Senator Culber-son of Texas, spoke on "The Common Interests of Baltimore and the South-ern States," and Prof. Walter Wykoff of Princeton university, discussed "In-

dustrial Progress." Minister Wu took notes during the early responses, his pencil being notice-ably rapid during a passage in Gov. Smith's speech in which that official referred to the acquisition by this country of the Philippines, Porto Rico, possibly of Cuba, and a "slice of China." Mayor Hayes followed Gov. Smith

and made a hit with Minister Wu by saying, "I don't agree with the governor. China," We don't want any part of which sentiment the Chinese

minister vigorously applauded. Senator Daniel, after fully discussing the problems connected with the completion of the Nicaraguan canal, de clared that his vote will always be re-"The partition of the corded against Chinese empire in any way or manner whatsoever," at which sentiment Minister Wu clapped his hands. ment later he appeared equally pleased when the Virginia senator launched a vigorous philippic against the looting of Chinese cities, towns and villages in the name of Christianity. Senator Thurston followed and de-

clared that having taken the Philippines, we were bound to keep them and that it is our constitutional duty to govern them as a part and parcel of the United States. He asserted that any person who encourages the revolu-tionists in the Philippines is a traitor Il not ald her in any manner if she to his country WEST POINT GRADUATION.

To Have a "Clearing House,"

New York, Feb. 1.-The Journal and Advettiger says:

New York City will be in the hands of a vigilance committee within ten days from now. This committee will consist of several hundred men.

Bishop Potter, it was said, had consented to start the movement, his advice in the matter of mapping out the city and the selection of the vigilantes having been followed as far as con-

sistent with the objects in view. Every member of the fifteen has pledged himself to secrecy. Chairman Baldwin says there has already been too much talking and not enough action. The borough of Manhattan has been divided into districts, each of which will be assigned to a group of vigilantes.

No part of the city is to be wholly neglected. Even on Flith avenue or in the upper west side, members of the vigilance committee will prosecute their labors.

The vigilantes will confine themselves to the observance of things in general These duties require them to see whether policemen are performing their duty, whether the streets are kept clean, whether the saloons are allowed to do business after the legal closing hours and whether such saloons, gambling houses and pool rooms are visited by policemen, either in uniform or civilian dress

WHERE WILL IT END?

No one can say where the results of disease of the stomach and its al-lied organs will end. The stomach is the source of supply for each organ of the body. Whatever affects the stomach to re-duce its strength and its ability to provide nutri-tion for the dependent organs will also affect the organs themselves. Heart, liver, lungs, kid-neys, all must share the "weakness" of the stom-ach. When diseases of the stomach and other organs of digestion and nutrition are cured by the use of Dr. Pierce's Golden Medical Discovery, diseases of other organs originating "weakness" and stomach and innutrition are cured at the same time.

Price of Wine Advanced.

San Jose, Cal., Feb, 1 .- A general ad-

vance in the price of wines is announced

here. Sweet wines especially have gone up and are now held from 9 to 12 cents

per gallon higher than heretofore. Clarets and white wines will be quoted

hereafter at an advance of from five to

eight cents per gallon. The cause for this advance is ex

plained by the local dealers as due to

the reduced production due to drought for two or three years and increased phylloxera. The last vintage especially
