City Engineer Parker has sent notices to a number of per-sons residing in the upper part of the city notifying them that they must connect with the sewer within 10 days A majority of the people who have re-ceived such notices feel that if they were compelled to connect their small dences with the sewer, they would be obliged to sell their homes to meet such an expense, and while they feel that to have their homes connected with the sewer would be a good thing yet many of them cannot meet the expense a number of the city councilmen wer appronched on the matter last evening and stated that when the resolution was pashed by the council it was fo he trinciral purpose of compelling th business houses and those residing around the business portion of the city connect with the sewer, and not much for the residence portion of th city, and that where persons had rewith the sewer in the specified time their promises would be inspected. and if it was found that their outbuild ings, etc., are far enough from the street and kept in a clean condition, they would not be compelled to connect their homes with the sewer.

The Priesthood meeting of the Davis Stake was held here at Farmington to-day. President J. H. Grant presided. The attendance was fairly good. A principal feature of the meeting was a detailed report from each ward as to the condition of the Elders' quorums. In some cases the quorums are doing well; but in many instances there is marked delinquency among the mem-bers. The High Councilors have been visiting the quorums lately with good results.

She was there, the president stated, as a stu-dent of theology, and the teachers felt honored by her attendance in this rela-tion. Mrs. McCune, in responding, said how greatly she enjoyed the spirit of benefit the school, and of what untold such training must be to the future careers of so many young men and women as she saw before her. In closing, Mrs. McCune told how she had once
