

step towards a conclusion of peace. Second, that the relations between Germany and France have entered a phase which, in itself, constitutes a considerable element of peace; and lastly, how happy has been the selection of St. Valier to represent the republic at Berlin, and how his co-operation with M. Waddington has contributed to a peaceful policy.

A dispatch from Constantinople gives the following explanation of the return of Mahmoud Damad Pasha to the Turkish ministry: The attempt of Ali Suavi to proclaim the restoration of Murad to the throne so revived the nervousness of the Sultan Hamid, about conspiracies that Mahmoud Damad was called to the palace and appointed seraskier. The Sultan felt that no matter how incapable Mahmoud may be and how much harm his intrigues may have done, he is sure of Damad's personal devotion. The Sultan naturally wished to be surrounded by men who, he is certain, are not conspiring against him.

A Vienna correspondent says: The purport of the investigations is that the congress will meet at Berlin, to discuss the treaty of San Stefano, and Germany, by the fact of issuing the invitations, becomes guarantor that the whole treaty will be submitted for discussion.

The departure of Emperor Frederick William for Ems has been deferred in view of the probable assembling of the congress.

HAVANA, 28.—The actual receipts of sugar exceed last year's at Matanzas, Cardenas and Sagua, while the receipts at Havana are about 20 per cent. less. The stock of sugar at Havana and Matanzas is 20,000 tons less than last year. It is estimated that 500,000 tons have been made on the whole island. The yield is now falling off considerably because of the great heat and rains. The season is much advanced.

PARIS, 28.—The government refuse to sanction any outdoor ceremonies on the occasion of the hundredth anniversary of the death of Voltaire. The celebration will take place in the Gaiety Theatre, next Thursday. A meeting will be held, over which Victor Hugo will preside.

The number admitted to the Exhibition, on the payment of one franc, on Sunday last, was 103,138.

During the first week of the Exhibition, there were 201,600; the second week 252,400; and the third week 382,400.

LONDON, 29.—At St. Petersburg a more serious danger than the protests of the extreme section of the press against Russian concession, is the strong opposition against Count Schouvaloff in higher official spheres. This opposition has been active for some weeks, but as yet has had little success. In this connection a strong and presumably peaceful significance is attached to General Ignatieff's departure for his estates.

The *Journal de St. Petersburg* publishes a very peaceful article, deprecating any unfavorable inference being drawn from the Austrian occupation of Adakaleh.

A Paris correspondent telegraphs that she guarded nature of Sir Stafford Northcote's statement, made in the House of Commons on Monday, has produced almost a consternation here. The correspondent paints that the question is: "Can England be content with the treaty being placed before the congress by Germany, as Russia's not placing it herself amounts to a tacit protest against the principle maintained by England. It is not thought, however, that the difficulty is insurmountable.

The German ironclad squadron will leave Wilhelm Shover for the German Ocean to-day, and probably proceed to the Mediterranean.

Austria's objections to the treaty of San Stefano are doubtless practically ignored by Russia.

The *Daily Telegraph*, in its leading article, says: To-day's cabinet council will decide upon the instruction to the British representatives at the congress. According to an understanding with Count Schouvaloff, Bulgaria has been reduced to less than half the size first proposed. Russia has already admitted large limitations in Asia, and arrangements are in view to get rid of the indemnity entirely.

VIENNA, 29.—Count Andrassy has informed the delegations that the monarchy could not allow itself to occupy a position of moral dependence upon the other powers. Military preparations were necessary, because, if the congress, of the assembling of which there was now

a near prospect, should lead to a European understanding, the moment would have to come for changes in all the frontier relations which might cause complications. The government desired to strengthen the forces in Dalmatia and Transylvania, to strengthen a few defensive positions, and secure lines of communication in the event of military concentration. It would strive for the maintenance of peace and resolutely defend both European and special interests.

CONSTANTINOPLE, 29.—The Russians have fallen back on several other points besides the neighborhood of Pyrgos. The Turks have withdrawn their outposts to this side of Belgrade forest.

It is announced Col. Markovitz, a Greek priest, and six others, were publicly shot on Sunday at Anjelevatz. There was a horrible scene. Some of the prisoners desperately resisting the execution.

A rural gentleman whose mind ran rather towards public economy, was attracted to the recent great dog show that took place in this city. Noticing that the catalogue enumerated some twelve hundred animals in the exhibition, and being imbued with the spirit of reform, he exclaimed: "Twelve hundred dogs in the city of New York! No necessity for so many. Five hundred would do the work."

#### TO WHOM IT MAY CONCERN.

Having been informed that the pirates in the sewing machine business, in Chicago, have undertaken to swindle your community by endeavoring to palm off old machines, re-painted, re-japanned and bogus, for genuine new Singer machines, this notice is to inform you that NO RELIANCE WHATEVER can be placed upon the representations of parties pretending to retail Singer machines from Salt Lake City as Singer agents; and purchasers from such run the risk of being swindled out of their money, as they cannot procure Singer machines legitimately, and no machines sold by them are guaranteed by us. We have authorized agents, for the sale of our machines, throughout the country, who can produce our written authority, and IT IS SAFE ONLY TO BUY OF THESE.

Mr. J. J. Lockhart is our agent in Salt Lake City.

## GANG & SULKY PLOWS.

IMPROVEMENTS are constantly being made in all kinds of labor saving machines, and more especially in farm implements, and farmers are learning that the saving of time and labor can best be accomplished by using the best implements manufactured. In this connection we wish to speak more particularly of the

## GANG & SULKY PLOW

made by Avery & Sons of Louisville, Ky., which we have recently examined at the sales-rooms of

## J. W. LOWELL & CO.,

of this city. About 60 of these plows have been sold by them in the last few weeks, probably a larger number than has ever before been sold in this Territory since its first settlement. Farmers are getting tired of being jerked and twitched around all day by following the old style of plows, and find that by using the

## AVERY GANG OR SULKY PLOW,

which is a beauty to look at, as neatly built as a carriage and about as comfortable to ride on, they can do their plowing with comfort, and even a child can handle it and do a man's work. We do not wonder that scarcely any other style of GANG OR SULKY PLOWS are sold in this market, for the Avery is unquestionably the BEST manufactured, as hundred of the leading farmers of Utah will testify.

We give below a letter from Mr. John Rouse, of Goshen, known as one of the Oldest settlers and leading farmers of this Territory, who has tested the AVERY PLOW and knows its merits.

GOSHEN, Utah, Feb. 19, 1878.

J. W. Lowell & Co.,

Gentlemen.—A twelve year old son of mine plowed 60 acres last fall with the Avery Gang and Sulky Plow, eight acres of which were plowed 12 inches deep and laid level and better than any other plowing I have seen since I left England; and I consider myself a judge of such work. My boy can handle the plow with ease. As for the draft, three horses can handle it readily in breaking with the sulky plow, and the same team is sufficient for the 12 inch gang plow in old land. I am well pleased with the plow, and do not know where it can be improved.

Yours respectfully,  
JOHN ROUSE.
