FORMALDEHYDE IS BEING USED AGAIN

Analysis of Two Milk Samples Indications are That the Fair This Shows Presence of the Drug.

A SUSPECTED DAIRYMAN. PREMIUM LIST FOR CATTLE

Health Officials Have the Matter in Hand-Prosecutions May Follow.

fiealth Commissioner King has instructed Acting Sanitary Inspector Bridge to take samples from milk that Is being supplied by a number of dairies in order that it might be determined whether or not formaldehyde is being used. The health authorities had lots of trouble last summer with vendors of impure milk, and it is said that some milk dealers have again commenced the use of strong formaldehyde. Several days ago a lady called at the health | given a portion of this year's prize list. office with two samples of milk, which on being analyzed showed the presence of the abnoxious drug. The lady said that one sample stood four days and the other seven days in a warm room. and did not turn sour, owing to the presence of the hot-weather preserva-tive. The samples, it is claimed, were from milk sold by a dalryman named Charles Frame, whose place of business is at \$23 west Seventh South street. Mr. Bridge was sent to Frame's place of the same of the sa Bridge was sent to Frame's place, after an analysis of the milk had been made by Dr. King, and he returned with the statement that the dairy was in a most filthy condition. Frame is owner of seven cows, and is said to have been conducting the dairy business without a license. The dairyman became quite wrathy when he learned the object the sanitary inspector's visit, and said he would give \$25 for the privilege of "licking" the man who had complained

Last summer a number of dairymen used formaldehyde and were arrested. Proceedings were instituted against seven, but the prosecutions were held back on the parties promising to de-

about him.

Health Commissioner King said today that he would not prosecute Frame or any other milk vendor until the county attorney had disposed of these cases. Treasurer Morris will cause the dairy-man's arrest unless & license is taken out right away.

Ogden Teacher Likely to be Chosen High School Principal,

The matter of choosing a principal for the High school of this city, is a source of considerable talk about town, In the course of a conversation today, with a member of the school board, the information was elleited that, aithough the board had not as yet taken any definite action, and were at variance on the mater, it is quite likely that Prof. Eaton of the Ogden High school will be tendered the position. Prof. Eaton is a scholarly man, thoroughly canchia of taking ours of bursely sea capable of taking care of himself and the reputation of a strict though consistent disciplinarian, and a thorough

There will be big exhibits at the fair next fall from the canning factories. Secretary Sears has visited all of them and their managers are enthusiastic over the proposed exhibit and visitors to the exposition may see a surprising display from these institutions.

SPECIAL PREMIUM.

Another special premium has come in for the livestock department. It is \$25 cash, and is contributed by Mr. Don H. Porter of the Kenyon hotel. Below is

Premiums for Cattle.

Under the Revised Statutes of Utab 1898, section 2128, no animal or article can compete for the regular premiums offered by the D. A. & M. society un-Utah so that at the 1900 fair no regular premiums will be awarded to animals which have been imported into the State of Utah. The board of directors will use its best efforts, however, to induce our enterprising citizens to offer liberal special premiums for imported thoroughbred live stock, and ask the hearty co-operation of all importers and reeders in this matter, so that import d live stock may be well represented at the next fair. All animals will be shown in the ring, and exhibitors must shown in the ring, and exhibitors must be prepared to bring them out of the stalls when called upon, either for judging or purade. Exhibitors in this department, except in class seven, to secure premiums, must file with the supervisor a recorded pedigree of each animal at the time the animal is brought on the fair grounds.

To avoid dispute, ages of all animals on exhibition will be based upon the last day of the fair—for example, a calf

last day of the fair—for example, a calf born October 6th, 1899, will be exhibited as a calf at the 1900 fair. The same role applying to all ages. In award-ing premiums for cattle, the judges will take into consideration individual merit, symmetry, early maturity, size and general characteristics of the breeds to which they belong, and also make proper allowance for age, feed-ing and other circumstances affecting the character and condition of the ani-

row to save the life of Abe Majors, the eighteen-year-old youth, sentenced to be shot on August 17th for the murder in May, 1899, of Captain Wm. T. Brown, of the Ogden pelice force. The board of pardons continued the

case one week in order to allow both sides to present additional affidavits and make further arrangements. It might be stated that Majors is practically without friends, save those who have taken sympathetic interest in him since the murder. Most of these are wo. men of the Christian Science church, who put in motion the movement for a

commutation of the death sentence, There is no hope for Majors outside of the board of pardons. In his cell at the State prison he spends most of his time reading. The only smotlen he has betrayed since his arrest and conviction was when he received a visit from his mother one week ago tomorrow. It is not believed that tomorrow's meeting of the board will be a lengthy one. After both sides have rusted the members will go into executive session and there decide the question of Majors,

As there are numerous other petitions to be considered in executive session, those laid over from last week, it is posable that the board's decision will not be made known until a late hour tonorrow afternoon. What the board's decision will be no one can tell. Many who have watched the case say sentence will be commuted, while there are thers who say the law will be allowed

to take its course.

Mrs. Wagner, the condemned youth's mother, visited her son at the State prison again this afternoon.

UNIQUE MAP.

The health department placed a map in its office today, showing the locality of contagious diseases from January ist to date. Each disease is represented by different colors, and while places are under quarantine a colored pin will denote that fact. Red represents scarlet fever; yellow, smallpox; green, diptheria; brown, typhoid; purple, measles, and black, whooping cough. As soon as the quarantine is removed a spot on the map will designate that the disease-has existed in the locality.

FIVE MILES IN 9:15.

Time Made Vesterday Morning by John Chapman.

About fifty persons assembled at the bicycle track yesterday morning to watch the riders "work out," and they were treated to a pretty sight. John M. Chapman rode five miles in exactly nine minutes and fifteen seconds. The last mile he rode in 1:40 flat. He was paced by Turville's motor-cycle and two stop watches were held on him.

TONIGHT'S MATCH RACE. Clem Turville vs. Iver Lawson for

Ten Miles. Tonight Clem Turville will have an opportunity of demonstrating his oft-repeated assertion that he can defeat over Lawson in a race of ten miles or more. They will race of the miles of more, They will race that distance, motor-paced, rouight for a purse of \$150, \$100 to the winner and \$50 to the vanquished. The men will be paced by Charles Turville's motor-cycle.

or a match race to take place Omaha Collseum track on August 5th. The Salt Palace blke track is becomng dangerous to ride upon on account of shaky boards. Yesterday a board about a foot long was broken by the motor cycle. When the machines are going pretty fast it is like dropping a 200-pound weight on the track.

John M. Chapman and Iver Lawson vill soon go after the motor cycle re-ord established by the Turville's on Tuesday evening.

ANOTHER RECORD SMASHED. Motor Tandem Record for Five Miles Broken.

Buffalo, July 25.—Before a large crowd at the National Cycling associa-tion's meet tonight, Ray Duer and Fred Sinciair, both of this city, broke the world's record on a motor tandem for five miles, the time being 7:081-5, against the former record of 7:09, held by Brooks and Schere. CONNECTICUT LEAGUE PLAYERS The Old Time Ball Players Found in

the Ranks of the Organization. Tim Mu.nan, the well known baseball writer, has been making a tour of the Connecticut league and is surprised at the number of old-time ball players he has found playing in the ranks of that organization. At Bridgeport he found old Jim O'Rourke and the following interesting story is the result of the

'At Bridgeport Jim O'Rourke owns the franchise, and is playing on the team, doing very hearly as well as when he was drawing \$4,000 from New York for playing the outfield. Last season O'Rourke is said to have cleared \$4,000 out of his venture. Mr. O Rourke owns the ball grounds, where less than thirty years ago he worked tending hay on the old farm for his father. Harry Wright said when he went to Bridgeport in 1872 to engage the "Orator" for the Boston club found Sir James busy with a pitchfork working on the farm. Since then electric lines have opened up the country, until the old O'Rourke farm is close enough to the city to be available as a ball park. If good luck continues to the end this season O'Rourke will make considerably more money than last season money than last season. "Captain Anson of Chicago was looked

on as a wonder for staying powers, and he certainly played his string out. I think, however, that the performance of James O'Rourke is even better than Anson's, as O'Rourke is in the game for some time to come. O'Rourke be-gan playing in 1870. In 1872 he started his professional career with the Mansfield club of Middletown, Conn., as shortstop and change catchwith er. He was a natural born hitter from the start, and one of the greatest throwers that ever tossed a ball across the diamond, and they tell me that even today base running is a lost art when the Bridgeport boy is behind the mask. Think of it, a first-class player for thirty years, and not all in yet! The temperance lecturer would have a good subject in O'Rourke, who has led the big league in batting. He received as high as \$6,000 for one season's work with the Buffalo club when in the league, in the early '80s, and when he went down with the baseball brotherhood in 1890, he was a member of the New York club, and is

a stockholder in the same club today. O Rourke is a practicing lawyer at Bridgeport. The Connecticut circuit allows him to get home every night, so that he can be found at his office very morning. He took up baseball in is native city more for recreation hun for a business, and is now findng things coming his way very smooth-O'Rourke has been noted for his ondness for five syllable words and ong sentences, and can set the wheels moving in the umpire's head when he calls him down for some blunder. in the business, O'Rourke is right,' PITCHER WANTS TO FIGHT.

Chicago's Twirler Anxious to Mix It With Terry McGovern. That Virgil Carvin, the tall twirler of the Chicago Baseball club, is in earnest about wanting to fight Terry McGovern is shown by the following letter, which Manager Lou Hauseman of Tattersalls, received from Clarke Griffith, the Orphan's leading twirler: "Can you arrange a fight between Virgil Garvin, pitcher of the Chicago club, and McGovern to take place at Tatter-salls, McGovern to allow Garvin to weigh in at 135 pounds? I will bet \$500 on the side that McGovern cannot stop Garvin in six rounds, and also will post \$500 that Garvin will enter the ring at the stipulated time. Now, I mean what I say, and am sure Gar-vin will be a great drawing card. He can make the weight easily, and can fight, and I think McGovern will give him the extra weight, as he never was in the ring. Let me know at New

York what you can do." ABOUT FIGHTING CONTESTS. The Surprising Fight Between Kid Lavigne and Joe Walcott.

Sam Austin writes: "Such matches as the Erne-McGovern affair are of extremely rare occurrence and usually provide a surprise in the outcome brovide a surprise in the outcome. We all remember the famous match between Kid Lavigne and Joe Walcott at Maspeth. L. I., several years ago. Walcott was then at his best, while the Saginaw lad was just blossoming into a champion. The dusky fighter, to demonstrate his disregard for the little fellow who was fast with the saginary land. fellow who was fast winning the admiration of the fight-loving public, essayed to knock him out in fifteen rounds. Singularly enough the best judges of fighting opined that he would be successful, and 2 and 3 to 1 were the odds. Were the odds. were the odds offered, with few takers. On that occasion Lavigne completely turned the tables on his adversary. Instead of keeping away and resorting to defensive tactic to enable him to stay the limit, the Kid really forced stillities from the outset and Walcott so badly that it was only by resorting to coercive measures that the dusky fighter was induced to stay the ring. He wanted to jump it in the fourteenth round, and was the happiest man in the building when the limit had expired without his experiencing the discomfiture of being knocked out

LIVERPOOL JULY MEETING. Skoppos Wins One Mile and Three Furlongs.

WITH THE JUSTICES.

The case against Nephi Howcroft of Murray, for taking water out of the irrigation ditch at that place, is proving to be very interesting in Judge Nielsen's court. The alleged facts of the matter are, that there was a section in the ditch where the water spread out over two or three hundred feet, and Howcroft figured that if he dug a deeper channel, and in that way concentrated the water, much could be saved, and that he would have the sole right to the extra water. Soon after he began the work neighboring farmers turned in and finished it, and when Howcroft took the water they had him arrested. The the water they had him arrested. The court room was filled today with farm ers from that section, who are eager as to the outcome of the case. The lawyers will make their arguments this
