THE LEAD COMBINATIONS.

Review of Present Conditions by a New York Publication.

In summing up the lead situation in the United States, the Engineering & Mining Journal of current issue, says: "With the organization of the United Very Commencement of the United

Lead Company and the new concern which is taking over all the principal mines of the Coeur d'Alenes, the lead industry of the United States has become fairly well consolidated. The mines of the Coeur d'Alenes are the chief producers of the raw material their product, which is shipped in the their product, which is shipped in the form of high-grade galena concentrates, furnishing about 40 per cent of the domestic production of lead. The smelt-ing industry is effectually concentrated ing industry is effectually concentrated in the hands of the American Smelling & Refining company. The manufac-turing industry is now practically di-vided between the National Lead com-pany and the United Lead company. There are a few concerns which remain outside, but they are of no great im-portance. The National Lead com-pany and the United Lead company will be to a certain extent competi-set for the stant company. pany and the United Lead company will be to a certain extent competi-tors, although at the present time there is considerable difference in their principal interests. The National Lead company is essentially a producer of white and red lead, but to a compara-tively small extent is engaged in the manufacture of sheet, pipe and other metallic products. The United Lead company has taken over the principal factories making shot, sheet, pipe and

tion of reduction works in the shape of a concentrator, the ' probabilities are that arrangements will be made in the time to employ one of the present about 19 fine Bingham mills for the reduction of the The "News" was informed from Bing-ham today that overtures had been

Articles of War. Cripple Creek, Colo., Sept. 16 .- Adjt .-ien. Bell will appear in the district court on Friday either in person if necessary or by representative to make a reply and return of the writs of ha-beas corpus which were issued against him and Gen. Chase by Judge Seeds nim and Gen. Chase by Judge Seeds on behalf of four prisoners in the mili-tary guardhouse. In his answer to the complaint Gen. Bell will set up the articles of war which govern troops in the field and which have been adopted in Colorado to govern militia as the basis of his right to hold the prisoners Gen. Bell takes the position that at the present time not only the militia but all of the inhabitants of this district are amenable to the aricles of war.

Anthracite Coal Output.

Philadelphia, Sept. 16.-Officials of the Reading & Pennsylvania railroads say no step has yet been taken toward a curtailment of the output of anthracite coal, and that the matter has not even been considered. It was admitted however, by one official that the market for domestic sizes was practically dead and he said that he would not be surand he said that he would not be sur-prised if the miners were put on fou-days a week in a short time. Mean-while, independent operators without any storage facilities for their surplus output are said to be cutting the prices for the domestic sizes as much as 40 cents per ton, offering the coal for \$3.35 at the mines, as against the circular price of \$3.75.
